Col. Moore Discusses Cross Anchor Railway

Editor of The Spartanburg Herald:

I noticed in your yesterday's edition an elaborate map of the proposed electric railway from Spartanburg to Clinton, Laurens, Union and Woodruff, involving some 90 miles, which inclines me to offer a few reflections.

In the first place, I would say that this is a good big undertaking, and will require a very large sum of money, which, if dependent upon private subscriptions, will necessarily fail. I hope, but in case it does, my proposition is for Spartanburg county to take the matter in hand and issue bonds to construct the main trunk line to the Enoree river, leaving the Clinton projectors to finish the line to Clinton. In the course of time, it may be probable that the other proposed lines may be constructed. It is well not to undertake too big a job all at once, I propose, then, a subscription by Spartanburg county of \$100,000 in bonds to construct this main trunk line from Spartanburg to Cross Anchor and Musgrove mill on the Enoree river.

The first question then to be considered is, will the county subscribe the bonds? I think so, for the small annual interest and the loyalty heretofore exhibited by the townships of Walnut Grove, Glenn Springs and Cross Anchor in voting bonds to the Asheville Air Line and C. & W. C. railroad, and in paying the taxes

therefor for 25 to 40 years with no railroads in their borders; I say, when all this is considered, that there are enough generous hearted and public spirited citizens, out of a sense of gratitude, and for the development of this important section of the county, to vote the bonds. The annual interest would be an insignificant sum. The bonds would probably sell for 4 per cent, which on \$100,000 would amount to \$4,000. The assessed value of Spartanburg is \$20,725,000; say in round numbers, 20,000,000. Now one mill on the dollar would raise \$20,000, therefore to raise \$4,000 the annual interest would require a levy of only one-fifth of a mill. Why, for educational purposes, school districts levy immense sums in comparison; for instance, in the school district in which I live, in addition to the state three mill tax, and additional tax of four mills was voted, and recently to build a schoolhouse four mills more. What, then, does one-fifth of a mill to Spartanburg county amount to? Spartanburg county is practically out of debt, the total being \$125,000, with a sinking fund in hand of \$58,310.

I say assuredly we owe it to the loyal citizens of the three townships named, out of a sense of gratitude, to help them with the small sum suggested. It is to the interest of the county to do so, for railroads are the

World's Best Music At Your Command

Here at last is the machine that you've been waiting for---a phonograph at a reasonable price that brings the world's greatest artist right into your home. Call and let us show the

a handsome, impressive machine that is unsurpassed in tone and reasonably priced. Only \$35.60.

FLEMING BROTHERS
LAURENS AGENTS.

great developers of a country and on the wealth and assessed values for taxes increase, the number of mills on the dollar is to be levied, as I will proceed to show you in a little history of the development of the county by railroad building. The first effort was in the road to Asheville, when private subscriptions failed the county voted a bond issue of \$75,000 or \$100,000 (I do not remember now how much) when the assessed value of her property was between three and four million dollars. I do remember that some time after a subscription of \$250,000 was made to the then air line railroad, now the Southern, that the annual levy to meet the interest was three mills on the dollar. Again, when the C. & W. C. railroad was projected the sum of \$75,000 was voted to that project. Now let us see the results of the building of these roads. On the Asheville road we have Inman, Capobello and Landrum, large and flourishing towns, besides several smaller railroad stations. On the Air Line railroad we had Gaffney, and now Cowpens, the Cliftons, Fairforest, Wellford, Duncan and Greer. On the C. & W. C. railroad we have Woodruff, with two cotton mills, and Enoree mills, besides several smaller railroad stations.

This means to say that after setting off Gaffney and a large slice of the county to Cherokee county we have grown from the original three or four millions to \$20,275,000, six or seven times as much. With these figures before us, what shall we say then of the development of Walnut Grove, Glenn Springs and Cross Anchor, if we should give them the bonds? What

about big cotton factories at Nesbit and Hills and Musgrove Mills? If the development of the taxable values of the county and the decreasing of our taxes is what we are after, the Cross Anchor and Clinton railroad should not be neglected. Now the question which will be asked is, can you build a railroad with \$100,000? I can answer by telling you how the C. & W. C. railroad was built to Greenwood, 66 miles. A private subscription of \$3,000 surveyed the road and public subscriptions by Spartanburg and Laurens counties of \$75,000 each graded the road, and a mortgage upon the roadbed raised the iron and rolling stock. I take it that an electric roadway may be built much cheaper. Clinton is only 40 miles from Spartanburg. From Spartanburg to Musgrove Mill is less than 30 miles, less than half that to Greenwood.

In conclusion, I will say to my enthusiastic friends of Cross Anchor, if they should fall in the accomplishment of the present projected scheme that we stand ready to help pass a bill before the legislature this fall submitting the bond issue question and lend our best aid in seeing that the same is successfully voted.

I remain yours respectfully,
T. J. Moore.

Now is the time to buy "Vudor" Porch Shades, our stock is complete and prices low.
S. M. & E. H. WILKES & CO.

Look for it says Miss Keep-Kool, and we echo her sentiment. Look for it here.
