

DEGEDER TO

Mouse and dust proof finished back, patented and used exclusively in Bjur Bros. pianos and player-pianos. This valuable feature makes the instrument a finished product. It protects and preserves those parts which are most vital to the instrument, and furnishes a further guarantee of general satisfaction. There are no other instruments like these in the world.

TESTIMONIALS

Appleton, Wis., September 12th, 1914.

We take pleasure in announcing that J. G. MOHR, our toner, is supplying us with the Bjur Brox. Plano. We have just procured three new Bjur Bros.' Grands and seventeen Bjur Bros.' Uprights for studio and practice use. We expect to replace all of our old pianos with this excellent product. We heartily recommend them as very superior instruments both in tone and action. Yours very truly,

FREDERICK VANCE EVANS,
Dean,

Lawrence Contervatory of Musle,

Apple on, Wis., September 14th, 1914. I have been using a Bjur Bros.' upright plane in my studio together with a Steinway

Grand during the last year, I am so well

pleased with the instrument that I am now

Bjur Bros. piano one of the best I have ever

used. It possesses a fine tone and a remarkably

ing a similar one in my home. I consider the

LUDOLPH ARENS,

Lawrence Conservatory of Music

Professor of Planoforte,

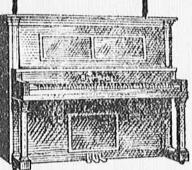

In order to specially induce you to buy a player-

piano, we will give away a beautiful \$50 music-

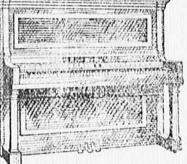

roll cabinet which will hold eighty music rolls,

besides a player-bench and the customary dozen

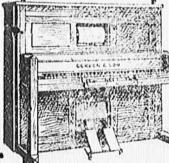

in all our plants and player-planes. When you know that the pull of the strings on the plane when tuned to concert pitch is fourteen, tons, then you can readily understand the extraordinary value of this back both. Please observe that this holt goes through the plate, pin-block and entire back. There are low at these on each plane, Furthermore, this back both tends to have the instrument remain in tune longer. This is also an individual feature used exclusively in Biar Bros. and Gordon & Son pianes and player-planes.

EST. 1887 N.Y.
PIANOS and PLAYER PIANOS

The BJUR BROS, instruments have earned and won international distinction as being the only distinctive and individual piano and player-piano made in America. The quality of material, construction, purity of tone, responsive action represent the highest type of perfection, and give satisfaction forever. You cannot buy better quality at any price. You can pay more, but you cannot buy more in actual quality. Our instruments are in the homes of New York City's best families for twenty-seven years.

The strictest economy is exercised in the overhead expense and devoted solely to the quality, so when you buy a BJUR BROS. instrument, it is the quality you pay for. However, we cannot afford to sell them for nothing down and \$1.00 a week, because we do not provide for such conveniences in the price. We have eliminated all unnecessary charges which do not benefit and improve the instrument, and sell them on a strictly business basis only, so that the purchaser who can afford to buy one gets the benefit.

The past year has taught us all to be economical in what we buy. The best for the least money is what everybody is sirlying for. Those who were too conservative have held on to their money, not even putting it in the bank, losing track of the fact that buying a BJUR BROS. instrument would be one of the safest investments and eliminate all chances of loss. Money is worth twice as much to us at present, and needing it very badly just now, we therefore offer to GIVE AWAY FREE, FOR FOURTEEN DAYS ONLY, a beautiful music-roll cabinet, with every player-plane, and an additional inducement of 10% EXTRA CASH DISCOUNT it you buy now. This extra cash discount will apply on uprights as well. We have increased our manufacturing facilities, and take this method to introduce them to you.

We want you to buy BJUR BROS, player-piano because you get the most enjoyment out of it. Everybody in the family can play. You will never realize the immense amount of pleasure which can be derived from it until you get one. Purchasing one of our instruments means that you get the best money can buy, with an absolute guarantee of permanent satisfaction. "Our instruments are our best advertisement." Those who have held on to their money will now get double the value. Remember there are only two weeks in which you have this opportunity to make your money go furthest. If you contemplate buying an upright or a player-piano now is your chance.

EST. 1845 N.Y. PIANOS and PLAYER PIANOS

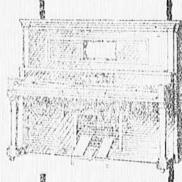

Over 67,000 of these instruments are now in the homes of musicians and music-loving people in New York City. Seventy years ago, in the year 1845, the firm of GORDON & SON came into existence in the City of New York. The popularity of our instruments speaks for itself. Every member of every one of these 67,000 families is an argument in favor of the GORDON & SON piano, because our customers are invariably satisfied customers. We make the flat statement, which is easily susceptible of proof, that the GORDON & SON piano costs less than any other piano of the same quality.

We have never gotten over the old-fashioned idea that a satisfied customer is the best advertisement, and the consequence is that we put every cent possible into the quality of material and labor which goes into the making of our instruments. We do not turn out pianos, we build them, and we build them in an exceedingly careful and methodical way. If you want an extra fine piano at a moderate cost, it will pay you to investigate our goods.

A beautiful \$50 music-roll cabinet goes free with every player-piano, and we offer an extra inducement of 10% cash discount. This we offer for the same reason as indicated above. Safeguard your investment by investigating the financial standing of the makers.

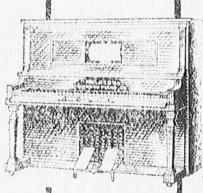

All our instruments are made and guaranteed by BJUR BROS. CO.
