**GEO. T. MACGILL, Candidate For Solicitor**

**Advertisement.**

**TRAXLER GAINING VOTES FROM SAM EVERY DAY NOW**

**People Like the Man Who Stands For Something and Says it Out**

This is purely and simply an advertisement for David B. Traxler candidate for Congress. Every statement in it is a matter of news, and a statement of fact, but if any newspaper printed it as news it might be accused of "partizanship."

By the frank and hopeless confession of Sam Nicholls' own supporters, Traxler will carry Union county by at least five hundred votes. Greenville county will go for him as a matter of course, for in his home county men know his ability, earnestness, energy and frank fairness. Laurens county will split fairly even, by all accounts, but Spartanburg County—Nicholls' home county—which went for Nicholls last time by only 1926 votes, will this year give Traxler a vote for every one it gives Nicholls.

And why should that not be the case? Isn't it just and clean and fair and right that Nicholls should be defeated? Why in the name of common sense should he be reelected? What has he ever done?

Sam promised to come down from Washington and face the music before election day. But he keeps on postponing his coming. Why?

In answer to letters and telegrams he says that he is too busy. But other congressmen have found time to come home. Is Sam the only one of the lot who is busy? He wired a friend in Union that he was "busy," and that same day he played third base for the Democrats in a game of ball with Republicans. They say he made a pretty good third baseman, too. But congressmen are not elected to play ball. If he had time to play third, why can't he find time to come down and tell us where he stands on this matter of Blaineism?

Blaine men write and wire Sam, asking him to explain why he will not come out in the open on this matter. Sam replies that he is out of State politics now. Why is he out? Has his head swelled so badly that he feels bigger than his State and his friends? He found it easy to say where he stood when Blaine was governor and Sam wanted pardons for clients. He found it easy to say where he stood when he wanted the votes of Blaine men in the first primary when he first ran for congress. He found it easy to promise to desert Blaine in exchange for the support of a daily newspaper in the second primary. Why can't he tell where he stands now? Is he trying to ride the fence and pull votes from suckers in both camps?

Who likes a straddler, anyway?

**Wilson W. Harris**

**ASKS FOR RE-ELECTION TO The House of Representatives on His Record and His Merits.**

Having conscientiously performed my duties as a representative of the People of Laurens County for one term in the legislature, having voted at all times with a single eye to the welfare of the state and its people, considering every bill before me on its merits alone without considering its bearing on factional politics or personal fortune, I ask the endorsement of my record by re-election for a second term.

I take it as a matter of course that the other candidates, as well as myself, favor good roads, good schools and similar agencies that contribute to the advancement of the masses of the people, but I point with pride to my record of achievement in the line of economic legislation. As a member of the Ways and Means committee of the house of representatives during the past two sessions, I accepted it as a duty to assist in "scaling down" the appropriations asked for by the various departments in the state government to such an extent that the difference between the amounts asked for and the amounts granted mounted up to the tremendous total of \$661,000. The state tax levy this year was reduced from 7 mills to 6 1-2 mills.

If elected I pledge myself to continue to serve the state and county with all the ability that I possess.

Yours very truly,  
**Wilson W. Harris**
