

Keeping Yourself Well

HOW YOU GET SICK

Sometimes you overload your stomach with rich foods. Your liver may be an active one, and even you may care for all you eat. But a few days of inactivity show your system does not call for so much. You are in the machine. Your liver is not so active. Your body feels heavy. You know you are not in the machine. Your attention is not on the work. You are not in the machine. You are not in the machine. You are not in the machine.

Thus, the inactivity of your system shows that your liver is not so active. You are not in the machine. You are not in the machine. You are not in the machine.

Makes Every Acre Pay and Saves Its Cost

THE MARTIN will save enough to pay for itself several times during the first season. It saves time, labor and real money, but what it earns for you is more important.

Martin ditched farms pay from \$10 to \$30 more per acre. This machine reclaims waste land and makes every acre pay. We don't ask anyone to take our word for these things, but we ask you to try.

Farm Ditcher and Road Grader

for ten days. Put it to work. See what it is worth to you.

It cuts a V-shaped ditch, cleans out old ditches, throws up terraces, builds and levels levees, fills, grades, grades roads, reclaims waste land, and is a general utility machine. It is compact and will fit anywhere.
