Men Welcome Mother's Friend

The husband is often worried over the condition of his wife during her period of expectancy. The thought that he is helpless to relieve her physical suffering and discomfort causes him great distress.

"Mother's Friend" is a safe external lubricant which penetrates to the fine network of nerves beneath the skin of the abdomen. It has a marked tendency to relieve the muscular strain to which these broad, flat abdominal muscles are subjected.

If husbands will secure for the expectant mother a bottle of "Mother's Friend" from their druggist, they will find that they have aided to a very great degree in relieving much of the discomfort during pregnancy and pain at the crisis.

The mother should apply "Mother's Friend" every night and morning, right up until the time of giving birth to the child. By aiding nature in its pre-natal work the mother will experience much less pain.

Every mother should have the free book prepared for users of "Mother's Friend." It concerns her health and well-being during and after the crisis. Write to Bradfield Regulator Company, Dept. D, 120 Atlanta, Ga. Get a bottle of "Mother's Friend" today.
