JOHN SMITH, JR.
Co. X, _____ Infantry,
American Expeditionary Forces

Above is shown the correct way to address letters to American soldiers who have already sailed to France. Numerous calls have been made at the local postoffice by those who have friends or kinspeople with the United States army now at the front and the information is given so that those wishing to communicate with the soldiers may do so.

The following additional information has also been given regarding the sending of mail by the postmaster of the local office:

Letters, newspapers, and parcels may be sent at the domestic rates of postage to all soldiers and civilians connected with the Expeditionary Forces in Europe.

Parcel post will be sent at the eighth-zone rate of twelve cents a pound, with a maximum weight limit of twenty pounds. This applies only to ordinary parcel post, no C. O. D., insured or registered packages being handled.

Money orders may be sent at the domestic rates.

No money or valuables can be sent

by registered mail.

The domestic rate of postage will apply on all letters from soldiers abroad engaged in the present war. Such postage may be paid by the soldier at field postoffices, or the postage will be collected from the recipient of the letter in this country at the single domestic rate, if not prepaid abroad.

Magazines bearing the following official authorization—
"Notice to Reader.

"When you finish reading this magazine place a one-cent stamp on this notice, hand same to any postal employee, and it will be placed in the hands of our soldiers and sailors at the front.

"No wrapping—no address.

"A. C. BURLINSON,
Postmaster General."

can be mailed at any postoffice, addressed and unwrapped, by simply placing a one-cent stamp on the magazine, regardless of its weight. Only magazines bearing the official notice and not addressed to any individual can receive this privilege.

HONORED VETERAN GIVES HIS SON FOR COUNTRY'S NEED.

Says Boys of This Generation Will Have to do Their Part as Men of '61 Did.

"Yes, I faced the bullets in the Civil War, and now my boy has gone to serve his country in this war. I am glad to say I can look back and say he didn't have to be conscripted, he went as I did, because it was his duty to go," said Mr. G. L. Parker, of Pee Mills, Greenville, S. C.

"I am 72. I served through the war with the 17th South Carolina Regiment, which, if I do say it, was one of the best Regiments that the South sent to the front. And you will hear from South Carolina in this war, too."

"Facing the bullets isn't the worst thing a man can face, for years I faced and fought with indigestion, had it so bad in fact, that I could feel the pains clear under my arms."

"I tried so many remedies I couldn't remember half of them, but finally I got hold of Sulfuro-Sol at Deans Drug Store, and I never felt such a quick change in my life. It seemed to commence its healing work the first day and how it did relieve my indigestion."

"When I commenced taking it I was all run down, but after taking one bottle I was ever so much stronger and my indigestion had left me for all time."

"Now my wife is taking it as a tonic and she feels as I do, that it is simply a wonderful medicine."

Sulfuro-Sol is sold and recommended by the Laurens Drug Co., and all other druggists. Murray Drug Co., wholesale distributors.

America's Only Smart Utility Sport Model

This is the only car built in America today that combines the smartness of the sport model with economy and utility. It is a strikingly smart, stylish car, entirely original-looking with a design all its own.

Extreme measures have been taken to give it a most exquisite finish in a rich gray, trimmed with black enamel and brightened with an occasional flash of polished nickel.

A fashionable dash of color is added to its striking lines by the red wire wheels. The individual front seats, with aisle-way between, are adjustable forward or back, to suit the reach of the driver and his companion.

The rear seat is roomy for two. Front and back, four large people ride sociably in real comfort.

It has four-inch tires and cantilever rear springs—buoyant riding!

The motor is powerful, it is surprisingly economical in the use of gasoline as compared with other cars of similar size.
