WASTE IN ARMY CAMPS,

Waste and extravagance may occur in other departments of the government and may have occurred in the cantonments early in the war, but a visit to one now and an inspection of the kitchens will correct any impressions of waste that may have been pany kitchen has two receptacles for waste, one for edible waste, which is real waste, and another for unedible weighed after every meal and a report of edible waste runs high. out". But is it necessary for either to save the state or is Sen. Tillman's presence in Washington essential to the success of the government, There are any number of men in the state who would make worthy representatives in the Senate and who can be elected against ex-Gov. Blease. This latter politician cannot win ever any responsible candidate in this state if the majority of the people do not want him. That was demonstrated in 1916 when he was defeated by Gov. Manning who received support from sources that were not only lukewarm toward him but positively antagonistic. This saving of the state has been overworked. The simple question to be decided by the voters is, Who is the best man for the place, Sen. Tillman, Mr. Dial, ex-Gov. Blease or any one of numerous others? Ex-Gov. Blease may be counted out. Speculation, with the present entries, rest on Tillman and Ddal. The race has not developed far enough yet to tell of the relative strength of these two, but somebody's

oneasy in Washington. Pain Gives Warning.

The nervous system is our life-saying service and every time a nerve aches or quivers in pain it is a blessing in disguise. The first bit of toothache warns you that disease germs are attacking its structure. An ache in the head is notice that something is wrong somewhere and not always is it in the head itself. Pain is not nature's method of punishment, it is her way of warning. When you feel pain don't merely try to allay it, seek out its real cause and stop that.

BURDETTE CASE IN COURSE OF TRIAL NOW

May Reach Jury This Morning. Two Addresses have been Made.

In a quiet and unaffected manner Robert Burdette, son of J. C. Burdett, of Dials township, told yesterday on the witness stand, of the circumstanc es which lead up to his shooting of D. D. Stoddard near his home on July 24th of last year and the story of the shooting itself. The court room was airly well filled all day, the crowd eing composed exclusively of men, ith the exception of a few relatives the principals in the tragedy. The estimony, which at intervals was of morbid character, did not attract throughout the trial with little show of feeling. There was absent the atceased and the defendant's sister, the conflicting testimony which was completed in the early evening. Speeches in the jury room to await the re-open-

Maxwell

The name "Maxwell" in the automobile world has long stood for maximum efficiency, small upkeep expense and small gasoline consumption. The new Maxwells, now on the market, not only have kept abreast of past standards but have even surpassed them. In power, durability and artistic lines they are not surpassed by any car within their class.

The beauty, the roominess, the comfort, of the latest Maxwell is obvious. Its easy riding qualities, its ease of operation, and the quality of its equipment, is jest determined by

investigation and trial.

Got in touch with us --- investigate --- compare it with any car under \$1,000 -and try the car out on the road. That is the only way to pass judgment on the Maxwell, as it was built for highway, not show room efficiency. The Maxwell is mechanically RIGHT.

Write or phone for a demonstration or come in person. We have a few cars on hand now ready for delivery.
