

**DIALS NEWS.**

Dials, Aug. 26.—One of the most beautiful and impressive ceremonies that historic Dials church has ever witnessed took place Sunday afternoon before a congregation that taxed the seating capacity, the occasion being the unveiling of a service flag in honor of the boys from this church and community, now in the service of our country.

A simple but well arranged program had been prepared and was successfully rendered by the young ladies who participated. The Rev. G. H. Harley presided. To the strains of "America", the large flag bearing sixteen stars, to the mothers heart emblems of sacrifice and duty, was unveiled, the curtain being drawn in a graceful manner by little Miss Nell Harris who has two uncles in the service.

The speakers for the occasion were all present. The first being the Rev. Dave Blackwell, of Quincy, Fla., one whom Dials claims a son honored son, who made a very enjoyable talk. Mr. Blackwell was followed by the Hon. R. A. Cooper of Laurens. Mr. Cooper's address, which was replete with patriotism and service was delivered in his inimitable manner charged with all the eloquence with which he is so richly endowed, and was greatly enjoyed by all present.

The honor roll which was read by the pastor, consists of the following young men, eight of whom are overseas:

Marvin Roberson, Marvin Armstrong, Marvin Harris, Claud Arm-

**LEMONS MAKE SKIN WHITE, SOFT, CLEAR**

Make this beauty lotion for a few cents and see for yourself.

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to whiten the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well and you have a whole quarter pint of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands it should help to bleach clear, smoothen and beautify the skin. Any druggist will supply three ounces of orchard white at very little cost and the grocer has the lemons.

**Packers' Profits  
Are Regulated**

The public should understand that the profits of the packers have been limited by the Food Administration since November 1, 1917. For this purpose, the business of Swift & Company is now divided into three classes:

**Class 1** includes such products as beef, pork, mutton, oleomargarine and others that are essentially animal products. Profits are limited to 9 per cent of the capital employed in these departments, (including surplus and borrowed money), or not to exceed two and a half cents on each dollar of sales.

**Class 2** includes the soap, glue, fertilizer, and other departments more or less associated with the meat business. Many of these departments are in competition with outside businesses whose profits are not limited. Profits in this class are restricted to 15 per cent of the capital employed.

**Class 3** includes outside investments, such as those in stock yards, and the operation of packing plants in foreign countries. Profits in this class are not limited.

Total profits for all departments together in 1918 will probably be between three and four per cent on an increased volume of sales.

The restrictions absolutely guarantee a reasonable relation between live stock prices and wholesale meat prices, because the packer's profit cannot possibly average more than a fraction of a cent per pound of product.

Since the profits on meat (Class 1) are running only about 2 cents on each dollar of sales, we have to depend on the profits from soap, glue, fertilizer (Class 2, also limited) and other departments, (Class 3) to obtain reasonable earnings on capital.

Swift & Company is conducting its business so as to come within these limitations.
