**SHOE CONSERVATION**  
W. H. Kelley, a lumber salesman, of Omaha, found Neolin Soles so tough and durable that one pair of soles served on a second pair of uppers after the first pair of uppers had worn out in ten months of hard walking. And he says, "Those same soles will stand another ten months of constant daily wear."  
This is unusual service even for Neolin Soles but Mr. Kelley's experience should indicate to you a method of cutting down those rising shoe bills you have to meet. Simply make sure the new shoes you buy are Neolin-soled and have worn shoes repaired with these soles which are scientifically made to be comfortable, waterproof and exceedingly long-wearing. They are made by The Goodyear Tire & Rubber Company, Akron, Ohio, who also make Wingfoot Heels, guaranteed to outwear any other heels.

**PART OF RUSSIA IN AWFUL PLIGHT**

State Department Makes Report Public. News From Refugees.  
Washington, Feb. 28.—Additional light on the situation in the portions of Russia under Bolshevik control is given by a summary of reports obtained recently from a number of refugees who passed through Helsingfors on their way from Moscow to Stockholm. The summary was made public today by the state department because of the various conflicting accounts of conditions which have been received recently.

"The party at Helsingfors," said the summary, "was composed of French, Belgian and Italian citizens, most of them Red Cross workers. The reports all agree as to the excessive cost of all necessities and the scarcity of food. Dog meat is quoted at four rubles (\$2) a pound, horse meat at 15 rubles per pound, pork at 60 rubles and bread at 15 rubles. The country is practically stripped of all manufactured articles, especially wearing apparel, and all grain and supplies are requisitioned by the soviet government from peasants who receive nothing in return.

"Typhus is reported to be spreading, 1,000 new cases being reported at Moscow weekly and the hospitals are unable to take care of them. Lack of milk has resulted in many deaths of children from starvation. The food situation in Russia is very bad and the food is distributed in three categories, a full portion to those doing heavy work, a half portion to employees of the soviet government and private houses and general office work and one-fourth portion to people not engaged in any occupation.

The portions depend on the supply at hand, a full portion generally being one pound of bread daily. Soldiers get an army portion of two pounds of bread, half pound of meat daily, and an additional monthly allowance of two and one-half pounds of sugar and one and one-half pounds of fats.

"All clothes and other necessities can only be secured through permission of government by cards and at fixed prices.

"The rumor as to the nationalization of women is not true although such a decree had been issued by the commissair of Saratov, but was immediately cancelled by the soviet government and the commissair promptly dismissed.

"It is not known that any serious conflict exists between Trotzky and Lenine. The Bolshevik power is maintained by force of arms and terror as well as by an elaborate system of spying and the control of the population by the Bolsheviks is reported to be more effective and severe than under the regime of the czar.

"Most of the factories have been obliged to shut down and those that are still running do not produce one-third of the normal output. As a result of the closing of the factories, workmen are leaving the cities and industrial districts for the villages where the situation is equally as bad as the majority of the peasants refuse to do any more work than is absolutely necessary for their sustenance as they are required to sell all surplus to the government at very low prices and receive paper currency in which they have no faith."

**1,500,000 MEN KILLED.**

France Has Lost Equal Number Wounded.  
New York. —France in four years of conflict, to preserve her own liberty and that of the world, according to Andre Tardie, French high commissioner to the United States, has lost 1,500,000 men killed and almost as many wounded. America owes France a debt of gratitude not only for this great sacrifice, but also for the reported saving of thousands of lives in this country due to the discovery by French peasants of a perfect remedy for stomach and intestinal ailments, the ingredients of which are imported from France by Geo. H. Mayr, a leading Chicago Chemist who sells it in America under the name of Mayr's Wonderful Remedy. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

We cordially invite all of our friends to send their children to school.

After such a long delay, the legislature has increased the pensions of the old soldiers. It will meet with the hearty approbation of every patriot. For years I have availed myself of every opportunity to urge the people to a sense of their duty to make a liberal appropriation for the grand old veterans of the Civil War.

Mr. J. A. Morrison has purchased a pair of fine mules.  
Mrs. T. J. Weston, of Columbia, the accomplished daughter of Dr. J. Walter Daniel of Marion, was the recent guest of her aunt, Mrs. Dr. W. T. Jones.
