

## OLD AGE STARTS WITH YOUR KIDNEYS

Science says that old age begins with weakened kidneys and digestive organs. This being true, it is easy to believe that by keeping the kidneys and digestive organs cleansed and in proper working order old age can be deferred and life prolonged far beyond that enjoyed by the average person.

For over 200 years GOLD MEDAL Haarlem Oil has been relieving the weaknesses and disability due to advancing years. It is a standard old-time home remedy and needs no introduction. GOLD MEDAL Haarlem Oil is enclosed in odorless, tasteless capsules containing about 5 drops each. Take them as you would a pill, with a small

swallow of water. The oil stimulates the kidney action and enables the organs to throw off the poisons which cause premature old age. New life and strength increase as you continue the treatment. When completely restored continue taking a capsule or two each day. GOLD MEDAL Haarlem Oil Capsules will keep you in health and vigor and prevent a return of the disease. Do not wait until old age or disease have settled down for good. Go to your druggist and get a box of GOLD MEDAL Haarlem Oil Capsules. Money refunded if they do not help you. Three original imported GOLD MEDAL brand. In sealed packages.

# PLANTER'S FERTILIZER

## GROW BIGGER CROPS

The demand the coming year for Cotton, Corn, Grain, etc., will far exceed that of any recent years.

The half-starved peoples of Europe are even now crying out for food and clothing. And the world is depending upon the Farmers of America to supply it.

You cannot raise a 100% crop unless you have a 100% soil. Fertility is largely a matter of balanced conditions of the soil. Phosphoric Acid, Ammonia, and Potash must be present in the proper proportions if bumper crops are to be raised.

### PLANTERS FERTILIZER DOUBLES YOUR YIELD

because it contains available Phosphoric Acid, Ammonia and Potash in the right proportions.

Every bag is stamped with our Giant Lizard Trade-Mark. Look for it—it's for your protection, and better place your order for Planter's right now and avoid delayed delivery.

Ask our agent in your town for information, free advice, or prices, or write us direct.

### WELL SATISFIED WITH "FIND"

Columbus Rejoiced Over Belief That Natives He Found in America Would Make Good Christians.

Columbus landed on a small island, "one of the Lucayas, called in the Indian language Guanahani," the intrepid navigator afterward wrote. Later the island was called San Salvador, and now is known as Watling's Island.

There was discovered in Spain in 1825 the manuscript supposed to be Las Casas' abridgement of Columbus' journal of his first voyage to America, and from this we have some interesting details of the actual circumstances surrounding the discovery of the new world.

The people of the island straightway collected together when Columbus landed, according to this journal. Here follow his precise words:

"As I saw that they were very friendly to us and perceived that they could be much more easily converted to our holy faith by gentle means than by force, I presented them with some red caps and strings of beads to wear upon the neck and many other trifles of small value, wherewith they were much delighted and became wonderfully attached to us."

Columbus comments that the people appeared to him to be very poor because they went about naked. He noted that all the natives he saw were young, none being above thirty years, and that all of them had fine physique and short, straight hair. He believed they were from the continent and was of the opinion that they would make good Christians, as they appeared to have no religion at all.

### CORN COBS FOUND OF VALUE

Hitherto Waste Material May Be Utilized to Good Advantage When the War is Over.

(Prepared by the United States Department of Agriculture.)

Corn cobs—a great waste product in the world's greatest corn-producing nation—have been made to yield adhesive gum and other useful substances in quantities sufficient to form the nucleus of a profitable and important industry.

In addition to adhesive gum, experiments have produced cellulose, and glucose, both of which have many commercial uses. The glucose so produced crystallizes well, and it is believed can be used in the same ways as crystalline glucose from starch. Manufacture of alcohol by the fermentation of corn cob glucose appears practicable if sulphuric acid is obtainable cheaply.

To utilize corn cobs commercially a large and costly plant would be necessary and the bureau of chemistry of the federal department of agriculture does not advise any enterprise of the sort in wartime.

### New German Drying Process.

The so-called Krayeska method, a new means of drying eggs, fruit juice and blood, has been demonstrated before the food authorities in Berlin and found worth exploiting to a large extent. The drying is done in a large iron cylinder five meters in diameter, in which a pair of big metal wings are quickly rotating, driven by a steam turbine. The fluid is lashed to foam and dried by the aid of a hot current of air that is continually passed through the cylinder. The dried product is in the form of a powder, which will keep for a long time and can be most economically transported. The dried products go through no chemical process and are directly soluble in water. Drying plants of this type for treating about 140,000 eggs a day will be erected shortly in Berlin and Bucharest.

### War's Far-Flung Ruins.

Russian churches in Alaska have hard times making both ends meet since war's turmoil in Russia stopped the payment of money by the mother church toward the upkeep of these far-away parishes. All the churches in that section are now being supported solely by their small congregations. Many of the churches contain valuable paintings and jeweled robes.

In order to eke out his salary, one member of the Russian clergy, Father A. P. Kashevaroff, arch priest in charge of the Russian church at Juneau, took the post of inspector of customs at Hidden Inlet, near there, for the summer.

### No Mephistophelean Monopoly.

The devil has no monopoly on the pitchfork.

Rev. William Barnes Lower, pastor of the Holy Trinity Presbyterian church of Logan, Philadelphia, recently spent his vacation working on a farm near Schwenksville, Pa., and sent a message to his congregation, urging the able-bodied male members to help farmers harvest their crops.

"If we can thrash grain in the field," was his message, according to the Philadelphia Bulletin, "we can thrash the devil in the front-line trenches he is building 'round our churches."—United States Employment Service Bulletin.

### Speaking of Rumors.

According to an Amsterdam dispatch it is persistently being rumored that the kaiser is losing his mind.

Amsterdam might further startle the world by announcing a persistent rumor that there is a war on in Europe.

Or another rumor that Christmas day will come on December 25 this year.

Or a persistent rumor that water is wet.

## KHAKI SOLDIERS DID NOT LET UP

And the Nation Will Show That It Stands Behind Them in the Victory Liberty Loan Drive.

More than a million of Uncle Sam's boys are "over there" looking after the common good of the world. And they will have to stay upon the job until it is done; until things are righted again; until order is brought out of chaos.

While they are overseas they must be taken care of adequately; they must be clothed and fed and lodged comfortably. Uncle Sam estimates that it costs \$423.27 a year to equip and maintain a soldier in Europe.

Part of the proceeds from the coming Victory Liberty Loan will be devoted to caring for the "doughboys." Part of it will go into the rehabilitation fund for putting the injured soldiers back upon their feet. Part of it will go for insurance claims. The rest of it will go to meet the hundred and one other demands for this greatest of world emergencies since the dawn of civilization.

Every mother's son of them did his part, helped insure liberty and justice for the world at large and restore Uncle Sam to his rightful position in the estimation of the nations of earth.

They did their duty fully, these boys who won. They fought to the end, through fire and flood. They never talked about letting up.

This is no time for Americans to think of letting up. The nation must stand by its guns, by its records; by Uncle Sam and must make the next loan another big success.

### Resolved.

That peace will find us backing Uncle Sam as strongly as we backed him in war.

That between now and April we will lay every possible stone of the groundwork for the Fifth Liberty Loan and leave no act undone which will tend to keep alive and quicken the consciousness of the nation that savings and thrift are peace essentials.

That we will exert our efforts to stop trafficking in bonds of the first four loans and will keep our War Savings Stamps.

That we will carry out our War Savings pledge if that is unfulfilled, and make and keep new Savings pledges this year.

That we will work tooth and nail from now till the last day of the April drive to oversubscribe that Liberty Loan.

That we will finish our job.

### LIFT OFF CORNS!
