LAURENS, S. C., MARCH 26, 1919.

Get ready for the next Liberty Loan.

We agree with the suggestion made by "Citizen" in today's paper that a name in keeping with its beauty and sanctity should be adopted for the city's only resting place for the dead.

HARMONY.

The Advertiser is in perfect agreement with the idea of harmony in solving public affairs, particularly with regard at this time to the settlement of the power contract. But, it is not always possible to settle matters harmoniously when differences of opinion arise.

WELCOME HOME!

WOULD SAFEGUARD MONROE DOCTRINE

This and Jap Racial Question Before the Peace Commission.

Paris, March 22.—Amendments safeguarding the Monroe doctrine and a Japanese amendment for just racial treatment were among the large number of proposals before the peace conference commission on a League of Nations which met at American headquarters at three o'clock this afternoon under the chairmanship of President Wilson.

These and other propositions up to this time have been in a controversial state and the commission met today to decide whether they will be incorporated in the covenant. Numerically the neutrals have proposed the largest number of amendments. They are thirty amendments from the neutrals, but they are largely formal, except the Swiss amendment concerning sovereignty.

The various plans proposed for safeguarding the Monroe doctrine, however, are the chief subject of interest in American quarters.

"Too Good to Spoil."

Rear Admiral Samuel McGowan, Paymaster General of the navy, spent several days in Laurens last week at work in the cemetery. When asked by The Advertiser about Poss Poole's wonderful story printed in these columns a few days ago, the Admiral smiled and said something to the general effect that it is never good form to obtrude mere facts into any discussion, whereas some yarns are too good to spoil.

VICTORY LIBERTY LOAN FOR SIX BILLION DOLLARS

Last Financial Mile-Stone Proceeding Drive is Pressed with More than Billion in Income Taxes.

Washington, March 22.—With the announcement today that collections from the first twenty-five per cent installment payment of income and profit taxes last Saturday amounted to \$1,000,000,000 and might go higher with later reports, the last financial milestone preceding the Victory Liberty loan had been passed, and it seems probable the loan will be for approximately \$6,000,000,000.

Governors of Federal reserve banks attending a conference closing tonight were told that although official statements of the amount of the loan heretofore have referred to "five or six billions," the higher figure was nearer correct. Treasury officials today emphasized, however, the amount of the loan had not actually been determined.

Tax collections of a little more than a billion dollars, indicated the total tax yield this year from income and profits levies would be more than four billions and might reach the \$1,700,000,000 estimate of congress at the time of enacting the revenue bill. The aggregate of first installment payments will bring into the Treasury only about \$200,000,000 net at this time, however since \$800,000,000 is required to pay certificates of indebtedness.

In support of the belief the Treasury would make six billions the goal of the Victory loan campaign, officials pointed out that \$1,855,000,000 certificates of indebtedness were outstanding to be redeemed out of proceeds from the loan, and they said probably another billion must be issued before loan receipts begin to pour in. Ordinary government expenses now are running at the rate of \$1,200,000 a month, and indications now are unless the Victory loan is largely oversubscribed the Treasury will have to begin within a few months after the campaign to market new securities, selling them mainly to banks, as a means of meeting future government expenses.

Rising Sun Chapter No. 6, R. A. M.

A regular convocation of Rising Sun Chapter No. 6, R. A. M., will be held on Friday night, March 28th, at 7:30 o'clock. Important business. Members earnestly requested to be present and visiting brethren welcome. Come early. By order of M. L. SMITH, H. P. H. TERRY, Sec.

TRIBUTE OF RESPECT.

It has pleased our Heavenly Father, in His wisdom and love, to remove from our midst our beloved Brother, L. S. Cooper, whose death we deeply mourn, having been so closely identified with us in every interest. In his death Brewerton Lodge, No. 183, A. F. M., has lost one of its most brilliant stars, the wife a devoted husband, the children an affectionate father.

Bro. Cooper was only 42 years of age, and we sometimes ask ourselves, why was he taken so early in life, when we thought there was so much for him to live for; and his wife needed his companionship so much, and the little children a father's care and counsel in their immature years. But God never makes a mistake, and in the coming years we will understand.

In commemoration of the worth and loyalty of our deceased Brother, it is therefore resolved that a page in our Record Book be inscribed to his memory, and a copy sent to the bereaved family, and to the county papers for publication.

M. D. Mitchell, J. B. O'Dell, W. J. Mauley, Committee.

Would Name the Cemetery.

Now that our city Cemetery has been incorporated and new officers chosen, why can we not give some distinctive name to our city of the dead? Nearly every little hamlet in the State has a name for its cemetery, but we, who have perhaps as beautiful a place as there is in the State, has no name. At this season of the year when roses begin to bloom and the tree to bud, surely someone will be sufficiently inspired to select a pretty name for our cemetery.

"Citizen."

Clean Your Premises.

The Board of Health will soon begin inspection of premises, cellars, back yards, etc. Everybody in the city is urged to clean up, burning the brush, rubbish, rags and trash. Old cans and such waste which will not burn, if put in boxes or barrels and placed on the street, will be hauled by the city. All ponds and vessels containing water should be done away with before the early spring, when the mosquitoes begin to breed. Chicken houses, pig pens and stables must be kept clean. Unsanitary premises will be reported as dangerous to the health of the city.
