

**TRUSTEES DISMISS STUDENT PETITION**

**Delegate Committee to Make Thorough Investigation. Governor to Lead.**  
Columbia, April 25.—Trustees of the University of South Carolina in special session at the university yesterday ferret out causes incident to the general unrest at the institution and to investigate the student body, a majority of which signed a petition several weeks ago asking the trustees to remove Dr. W. S. Currell as president of the school, delegated the committee on organization of the board with power to make a thorough investigation at the university and take final action in whatever way the committee may see fit to dispose of the trouble at the institution.

The committee on organization to conduct the investigation is composed of Governor Cooper, L. P. Hollis of Greenville and D. R. Coker of Hartsville. The governor acts in place of C. E. Spencer of York, who asked to be relieved because of relationship with Dr. Currell. A section of the by-laws of the university by which the trustees adopted their resolution delegating the above committee to act reads:

"There shall be a standing committee on organization consisting of three members (of the board of trustees), whose duty it shall be to thoroughly inform themselves of the internal workings of the university, of the status and work of each and every officer and professor and teacher, of the habits and behavior of the students, of the management of steward's hall, of the condition and preservation of the property and of anything that may be for the good of the institution."

The trustees dismissed the petition of the students asking for a new president and heartily endorsed Governor Cooper's letter to the student body telling that body that the board felt capable of managing affairs at the university and that the State might

rest assured that affairs of the institution would not be slurred over. The board took the view that the governor had clearly stated matters in his letter and dismissed the petition on these grounds. The trustees made no statement as to their attitude towards the 166 students who signed the petition, but it was said yesterday that some members were inclined to take summary action against all the students.

The trouble at the university was somewhat augmented Wednesday afternoon when the president of the student body was indefinitely suspended from the institution by the discipline committee because he "presided at an illegal meeting of the student body". The students held a meeting Wednesday morning and voted to declare a holiday in order that they might see the tank parade on "Liberty day."

The discipline committee say that the president had no authority to entertain a motion to declare a holiday, and further said that the entire meeting was out of order inasmuch as no permission had been granted by President Currell to hold the meeting. The president of the student body stated yesterday that he had no knowledge of what was to take place at the meeting and merely presided at the request of other students who were already in session when he arrived at the meeting.

The discipline committee is composed of Dr. W. S. Currell, Dr. A. C. Moore and L. T. Baker. This new angle in the situation may develop some interesting sidelights when the committee on organization meets next Monday to start its final investigation, as some members of the board are said to be inclined to suspend all members of the student body absent from classes Wednesday.

The trustees are to visit the University of North Carolina May 13, 14 and 15 to study conditions there and to "get ideas" from the sister insti-

tution. All members of the board will make the visit to the Tarheel institution.

Those present at the meeting of the board of trustees yesterday were: Governor Cooper, C. E. Spencer of York, P. A. Wilcox of Florence, B. A. Hagood of Charleston, August Kohn of Columbia, S. A. Graham of Williamsburg county, Dr. W. T. C. Bates of Columbia, L. P. Hollis of Greenville and D. R. Coker of Hartsville, John E. Swearingen, State superintendent of education, ex-officio secretary of the board, was absent because of a meeting of the State board of education.

**NOW IS TIME TO BUILD HOUSES**

**More Money Available for Building Purposes Now Than in Some Years.**

This is the time to build homes, according to the consensus of opinions that are coming in to the United States Department of Labor, which is receiving many expressions of approval of its "own your own home campaign" and assurances of co-operation in its nation-wide work of stimulating construction.

It is pointed out that an abundance of employment at high wages has made the desire for comfortable and pleasant living conditions more widespread than ever before. Since economy and thrift have been preached and practiced in America, during the period of the war, there is a new desire to use money wisely.

Economists estimate that more money is available for building in the United States this year than there has been in recent years. This fact, added to the general disposition to seek a settled abiding place, after the adventures and separations attendant on war, is giving home building a decided impetus in all parts of the United States. Surveys made of the whole country show that the advance in cost of materials has not kept pace

with increases of other commodities and real estate has not risen in price. Moreover, there is a disposition among those who finance building projects to make easy terms for those which is acknowledged to be the most satisfactory of all investments.

The rise in rentals and the shortage of more than half a million houses, owing to the suspension of construction during the period of the war, furnish a sufficient reason for the consideration of building a home. In 40 cities now listed in the Division of Public Works and Construction Development of the department's Information and Education Service, intensive campaigns are in progress and all these have as their object the starting of building projects at the earliest possible dates this spring.

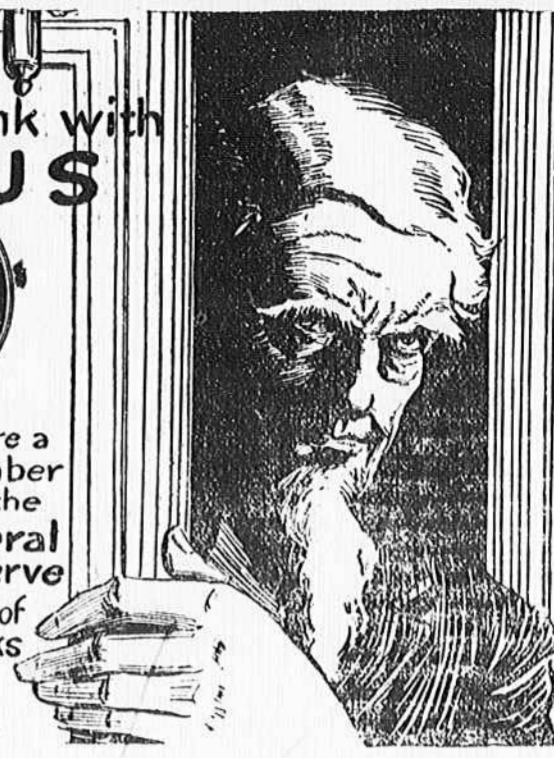

**GIRLS! HAVE A MASS OF BEAUTIFUL HAIR, SOFT, GLOSSY, WAVY**

**A small bottle destroys dandruff and doubles beauty of your hair.**

Within ten minutes after an application of Danderine you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.

Get a small bottle of Knowlton's Danderine from any drug store or toilet counter for a few cents and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.
