**PEACE TREATY COPY**

PRINTED BY SENATE

(Continued From Front Page.)

promoting its adoption by this country. I became convinced, too, that these gentlemen were interested in promotion of the league of nations for private reasons."

Under questioning, the Idaho senator added he had obtained this information together with the knowledge that a copy of the treaty was in New York, from sources which he could not reveal. He then suggested the calling of Messrs. Morgan, Davison, Lamont, Warburg, and Schiff, saying he connected them with the existence of treaty copies in New York "by a combination of circumstances only."

The name of Mr. Vanderlip was added to the list on suggestion of Senator Williams, democrat, of Mississippi, and the subpoenas are ordered unanimously on the motion of Senator Hitchcock of Nebraska, senior democrat on the committee who introduced the resolution authorizing the inquiry. On the motion of Senator Fall, republican of New Mexico, the committee by unanimous vote also invited Mr. Polk to appear before it.

Senator Lodge next made a statement saying that he, too, had derived his information about the treaty copies from sources he could not reveal. He had been shown the document by a friend, he said, and had "never heard of the treaty being in the hands of financial interests." He continued that he had made no inquiries as to how his friend obtained it.

Acting Secretary Polk, hastening to the capitol as soon as he heard of the committee's invitation, arrived just before Mr. Lodge had completed his statement. In response to questions Mr. Polk told the committee he had received at various times about thirty copies of the treaty, the first one about May 19th, by special courier, then ten more in the same manner and then a package of additional copies in the state department's confidential mail. Exactly how many copies this package contained he could not tell, he said, as the seals had never been broken.

"All these were placed in my safe and held subject to further orders" continued the secretary, adding that they had been examined by no one except himself and his secretary.

Asked whether there was any possibility that copies had been obtained from the state department he replied: "Positively no chance whatever."

Senator Hitchcock presented to the committee the cablegram from President Wilson in which the latter commended the Nebraska senator for introducing the investigation resolution and expressed a hope that the inquiry would be "most thoroughly prosecuted." The message dated June 7, did not refer to the senate resolution asking for the treaty text and at the White House Secretary Tumulty said he thought it probable this request had not reached Mr. Wilson when he cabled.

When the committee adjourned the date of the next meeting was left to Chairman Lodge who said tonight there would be no session tomorrow and possibly not until Thursday. The subpoenas ordered must be served personally in New York, he said, and the committee probably would not be reassembled until some of the financiers called were ready to testify.

**Look for the Large Chance.**

The opportunity that is bigger than you are cannot help you, no matter how close it comes. To be worth anything, a chance must fit. Instead of simply waiting for your opportunity, grow up to it. Big people do not need to put up with small openings, and little people find it impossible to fill big ones. If you are growing all the time, and fitting yourself for the larger chances, you need not worry for fear they will fall to present themselves.

**Wheat and Flour.**

No wheat thousands of years old has ever been known to germinate, many yarns to the contrary notwithstanding. Baking tests have also been made by the department of agriculture, showing a distinct inferiority of the Alaska wheat flour as a bread producer.

Owings, a street through to Farley Avenue and make a subdivision of lots to be sold probably at auction in the fall of the year.
