NOT OPPOSED TO WORLD COTTON CONGRESS

Wannamaker Sends Message to New Orleans Man Defining Attitude of Subject, Reports Circulated of His Opposition.
 New Orleans, July 25.—Cotton producers will not oppose the world cotton conference which is to be held here in October, according to W. B. Thompson, of New Orleans, late today in making public a telegram from J. N. Wannamaker, president of the American Cotton Association.
 The Wannamaker telegram was sent from Atlanta today after a two-day conference there of the cotton association. It follows:
 "We regret exceedingly that the impression has been formed that we are fighting the World Cotton Conference. We have not pitched any fight on the conference. However, as a result of your telegrams, the entire matter has been adjusted."
 It was reported that the association was suspicious of the coming world conference in regard to lowering the price of cotton.
 Although it was reported that the board of directors adopted a resolution that no member of the American Cotton Association should at this time become identified with the World's Cotton convention, President Wannamaker in his communication to Mr. Thompson, who was active in the organization of the association, referred to a resolution only which was for confining efforts of the organization to a membership campaign and which gave notice of the decision to drop any talk in opposition to the world conference.
 Word was received here today by Mr. Thompson that President Wilson had signed a joint resolution authorizing invitations to other nations to send delegates to the cotton conference.

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers

Don't suffer! A tiny bottle of Freezone costs but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet, then lift them off.
 When Freezone removes corns from the toes or calluses from the bottom of feet, the skin beneath is left pink and health and never sore, tender or irritated.
