## REPORT ON COTTON BEING QUESTIONED

Association Calls on Congress to Investigate Figures of Last Year.

Columbia, Oct. 4.—J. Skottowe Wannamaker, president of the American Cotton Association, said last night that the association would ask for an investigation by congress of the government report on cotton issued Thursday. This action, he said, would be taken as a result of urgent requests received by the association, not only from the producers and business interests in the South, but from other interests in the various sections, including the cotton exchanges. The requests, he said, had come from various sections of the country.

"The association has been urged from every section," said Mr. Wannamaker, "to take the necessary steps to have resolutions passed by congress providing for an investigation as to the indicated yield shown by this report. The association is now making a painstaking investigation throughout the entire belt as a result of these complaints and will lay the information which it obtains before congress."

"The government report issued Thursday gave the condition of cotton as 54.1. The condition of the crop on the same day last year was given at 54.4. The indicated yield for this year, according to the government report, is 158 pounds lint cotton per acre. Last year, when the condition was given as being the same as this year, the indicated yield was given as only 137 pounds. Why the difference? Regardless of the fact that the report shows serious damage from boll weevil, boll worms and insects, it gives the indicated yield as being greater than last year's. The government report appeared this time in somewhat changed form, the indicated yield being given by states. The indicated yield for South Carolina is given as 211 pounds per acre. We know absolutely that this is wrong. A canvass made by our association shows this to be an error.

"A canvass made by the association throughout the belt shows that cotton is opening prematurely, that the bolls are undersized. The lint shows a marked decrease.

"In justice to the farmer, the manufacturer and the consumer, an investigation should be authorized by congress. We do not charge that the department of agriculture would intentionally overestimate the yield. We have not, however, the slightest doubt but that an overestimate has been made. Had the correct indicated yield been given, based upon the acreage shown by the department after deducting for abandonment of 1,570,000 acres, leaving total acreage of 32,390,000, the highest estimate possible under the existing conditions, with diseased plant, ravaged by insects, premature opening, etc., the indicated yield could not have exceeded 9,775,000 bales at the outside, exclusive of linters, even with a very late frost.

"With representatives through the length and breadth of this entire belt, we are in position to give first hand information concerning the crop and base our statement upon actual facts. We shall use every effort in our power to have this error corrected, and in the meantime we feel convinced that if the department itself will make a canvass, it will detect the error indicated and take necessary steps to correct the same.

"We are writing every member of congress from the South urging that they insist upon this investigation, and we call upon cotton producers all over the South to do likewise."

## KING ALBERT CHANGES PLANS FOR TOUR

Engagements After Boston and Buffalo Cancelled. Rest in California.

New York, Oct. 3.—Because of the illness of President Wilson, King Albert of Belgium has decided to cancel all his engagements in connection with his tour of the United States after those in Boston and Buffalo up to October 14.

From Buffalo the royal visitors will go to some point in California and remain there until he is scheduled to visit San Francisco on October 14. His schedule after that date stands tentatively.

The announcement of the change in the plans was made at 7 o'clock tonight by Breckinridge Long, third assistant secretary of state, who has charge of the Belgians' tour of the country.

"Because of the president's condition," said the statement by Mr. Long, "his majesty has seen fit to cancel all of the engagements planned for him up to at least the 14th, when he would have and still expects to be in San Francisco. The only exceptions relate to Boston and Buffalo where he is due Sunday and Monday, respectively. The proximity of these engagements is such that his majesty feels he can keep them, provided the conditions of the president does not get worse, rather than disappoint the people of these communities. From Buffalo his majesty will proceed directly and immediately to a place in California which will be announced later.

"His majesty has expressed his earnest desire to proceed to Washington to pay a visit of courtesy and respect to President Wilson and has said he would have so proceeded even if he could have remained only five minutes if he had not been advised by the president's physician that he would not permit him to see Mr. Wilson.

"His majesty has decided that, owing to the condition of health of the president he does not care to go to a place of amusement and consequently has cancelled his engagement to go to the Hippodrome tonight."

King Albert has been depressed because of President Wilson's illness ever since he received the news by wireless on board the George Washington while on his way to the United States. Almost his first words upon landing were of deep regret at Mr. Wilson's condition and a heartfelt hope for his early recovery.

While the condition of the president's health is the impelling motive for the change in the itinerary of the royal party, it is probable some modifications would have been made in the schedule under any circumstances. After two days of receptions and sight seeing in New York, which might be expected to be an example of what would follow throughout the trip to the Pacific coast and back, it was felt by the king, it was said, that the strain would be too great for Queen Elizabeth. The 19-day trip as it had been planned allowed no over night stops along the way.

All the members of the royal party were frankly tired tonight. Even the staff of officers who have accompanied them did not deny it and the youthful Duke of Gradant smiled happily when their hotel was reached after an eventful day with only a couple of hours off for rest.

The program of the afternoon was a novelty even for a monarch. He was made a citizen of New York, at the city hall soon after noon and three hours later was in the Sheep Meadow of Central Park reviewing 25,000 school children who had gathered there to welcome him. It was an entirely successful party for every one concerned. The king and his consort seemed to enjoy it as much as the children.

## PALMER TELLS OF GERMAN ROBBERY

Attorney General Tells How Germany Got Property with Worthless Currency. Duplicitly Shown in Dealing with America.

Kansas City, Oct. 3.—How Germany confiscated American properties in Rumania by compensating the private owners in "worthless stage money" was revealed by Attorney General Palmer in an address here today before the Missouri Bar association. Extracts from the official orders of Gen. von Mackensen, commander of the German forces in Rumania, carrying out the scheme by which practically all mineral and other properties in Rumania owned or controlled by the countries at war with Germany were confiscated, were read by the attorney general. These, he said, constituted "very striking evidence that Germany has not told the truth with respect to the treatment of American property."

Because it was believed conscription would lead to wholesale concealment of goods and supplies, the German government, Mr. Palmer said, decided to "purchase" what it desired to take from Rumania, and for that purpose authorized the issuance of notes by a German bank in that country

which were established as legal tender by military order, and a heavy penalty provided for non-acceptance. These notes as placed in circulation in exchange for perfectly good commodities were "secured" by the deposit of German marks at the Reichsbank in Berlin, and the same contemplated that Rumania should be forced to assume the new currency and thus release the deposit to the German purchasers who made them.

"It was this worthless stage money" Mr. Palmer said, "that the consideration for American properties was payable, and as a consequence of this scheme Germany obtained such properties for nothing."

Mr. Palmer recalled that such transactions were expressly ratified in the Bucharest treaty, which Rumania annulled, however, when the changing fortunes of war made it possible.

In view of the treatment of American property in Rumania and the uncertainty as to what "the Germans really have done to American properties in Germany," it was this country's obvious duty when the treaty of peace was written.
