

**SOUTH CAROLINIAN
WINS HIGH HONOR**

Captain Donaldson Second in Air Race, Native of Greenville.
Mincola, N. Y., Oct. 20.—South Carolina captured second honors in the trans-continental air flight and return, when Capt. J. O. Donaldson landed at Roosevelt field at 10:30 o'clock today, and winner of the army air race from this place to San Francisco and return having been Lieut. B. M. Maynard, of Wake Forest, North Carolina, who reached here Saturday afternoon at 1:50 o'clock.
Captain Donaldson, who made this 5,400 mile journey in a single seated, SE5 airplane, is a native of Greenville, S. C. He was in Europe 14

months as a member of the American general headquarters squadron and also saw service with the British army near Dunkirk.
Captain Donaldson took part in seven of the major operations of the American army and while flying over Douai shortly after the Chateau-Thierry drive was attacked by three German planes. He brought down two of them but was captured by the third, later, however, escaping to Belgium.
Another of the Mysteries.
One of the mysteries of life is how a boorish man can keep right on observing the ways of gentlemen and never acquire any of them for himself.—Detroit Free Press.

**INDIGESTION NOW
BOTHERS WILSON**

President Had Slight Digestive Trouble Yesterday, Better Otherwise. Latest Development not Regarded Serious.
Washington, Oct. 19.—Having obtained relief from the prostatic glands, which Mr. Wilson was the victim of, he is now suffering with slight indigestion, Rear Admiral Grayson announced tonight, and said that his condition was unchanged.
Dr. Grayson issued the following bulletin from the White House tonight:
"The President had a slight digestive disturbance today. Otherwise his condition is unchanged."
The President's general condition was regarded as satisfactory, notwithstanding the slight attack of indigestion. Until midday Dr. Grayson and the physicians assisting him found in the examination of their patient every evidence that Mr. Wilson was more than holding his own and the development after noon was not regarded as serious or as any indication that the President's general condition was worse.
It was said, however, that any incidental ailment tended to increase nervousness and to that extent retarded a recovery.
The President has been permitted to sit up occasionally and has insisted at times that he be permitted to attend to some work. His physicians have insisted that for the time being he must content to wait. Callers are not permitted to see him, but numerous reminders of their visits are sent to his room, one today was an armful of chrysanthemums personally delivered at the White House by three enlisted men of the army and a sailor, accompanied by an attendant from a nearby military hospital where they are patients.

**AUSTRALIANS ARE
NEAR REVOLUTION**

People of Northern Australia Cry "Taxation Without Representation."
Melbourne, Australia, Oct. 18.—Citizens of the northern territory of Australia, complaining as did the American colonists of "taxation without representation," have determined to eject the territorial government established in that part of the commonwealth. They demand the institution of a representative government and the right to vote.
These decisions were taken at a citizens' meeting held at Port Darwin, the principal harbor of the territory, at which a resolution was adopted, declaring that the system of administration of the territory by an advisory council had proved valueless. The citizens demanded the resignation of Judge Bevan and of the secretary director of the territory, R. J. Evans. A second resolution requested those officials to leave the territory by the first steamer in order "to avoid a revolution."
The citizens of the northern territory complain that, although paying taxes, they possess no votes and now demand a provisional government.
The northern territory, a scarcely settled region in northern Australia with an area of 523,629 square miles, and a population excluding aboriginal tribes of less than 5,000, was formerly a corporate part of the state of South Australia, but was surrendered by the South Australian government to the commonwealth January 1, 1911, and has since been governed under an appointive territorial administration.
The coastal regions of the territory have a tropical climate, but in the interior is a table land, rising gradually from the coast to a height of about 1,700 feet. Parts of this table land are excellently adaptable to grazing and the white inhabitants and about one-half of the 5,000 non-aboriginal population are principally engaged in cattle raising.

**EASES A COLD
WITH ONE DOSE**

"Pape's Cold Compound" then breaks up a cold in a few hours.
Relief comes instantly. A dose taken every two hours until three doses are taken usually breaks up a severe cold and ends all the gripe misery.
The very first dose opens your clogged-up nostrils and the air passages in the head, stops nose running, relieves the headache, dullness, feverishness, sneezing, soreness and stuffiness.
Don't stay stuffed up! Quit blowing and snuffling! Clear your congested head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, contains no quinine. Insist upon Pape's.

POPULAR SPRINGS NEWS.

Poplar Springs, Oct. 20.—The school at this place opened this morning with an enrollment of about eighty pupils. Miss Marie Mitchell, of Honea Path, who has been the principal for the past two terms, will hold the same position this time and Mrs. H. O. Walker will have charge of the intermediate grades for the present and Miss Marie Eledge, who taught the primary grades last term has charge of the same department this time. We hope to make this the most successful year in the history of our school, but if we do there will have to be thorough co-operation among patrons, teachers and pupils.
There will be an all-day meeting at Poplar Springs church next Sunday, in the interest of the 75 million campaign. The following churches are expected to take part: Union Princeton, Mt. Gallagher and Mt. Olive. We trust these churches will turn out and co-operate in this meeting.
Mr. Broadus Bagwell and Miss Edith O'Dell were married the 12th inst. at the home of the bride's parents, Mr. and Mrs. Jeter O'Dell. The Rev. Jas. P. Coleman officiated. We extend our congratulations.
Mr. J. A. Simmons and family were the guests of Mr. and Mrs. T. T. Wood Sunday.
Mr. and Mrs. P. L. Abrams, Miss Annie and little Misses Myrtle and Margaret Abrams visited Mr. and Mrs. J. P. Simmons Sunday.
Messrs. James, Nathaniel and Lewis Davis spent Saturday night and Sunday with their uncle, Mr. Jas. P. Davis at Watts Mill.
Miss Mary Abrams visited her brother, Mr. T. G. Abrams, Sunday.

BOLL WEEVIL SPREADS.

Line Now Runs Through Calhoun Falls, Columbia and Sumter.
Clemson College, Oct. 15.—During the last two weeks no boll weevil maps have been issued by the South Carolina Crop Pest Commission owing to the fact that the line would not have been good after twenty-four hours. Requests for maps, therefore, have been answered by sending to those correspondents the various points in the state through which the weevil line passes according to the last telegraphic report from the inspector.
The line at this time runs through Calhoun Falls, through a point about ten miles above Columbia and Sumter, and no one knows how much further this line will have advanced by the time this report reaches the readers.
The conditions for weevil migration have been the best possible, due principally to the fact that cotton stopped fruiting, and since the squares formed the weevil's preferred food, migration began in search of squares.
Permits for the shipment of seed and hulls have been withheld over a wide latitude in the eastern part of the state. The commission fears to go as near the line as has been customary on account of the great activity of the pest and the necessity of using every precaution to protect free territory which would not be reached by the weevil this year. It is for this reason that the commission has been so conservative in issuing permits for shipments to the mills in the northern part of the state.
Preaching at Gray Court.
The Rev. C. T. Squires will preach at Dorroh Presbyterian Church, Gray Court, next Sabbath afternoon at 3 o'clock. Sacrament of the Lord's Supper will be administered.

The Story of a Turret Captain
Promotion in the Navy comes quickly to those who qualify for higher ratings. In March 1899 A. P. Nilsson enlisted in the Navy as an Apprentice Seaman, 3rd class. In April 1907 he was rated Chief Turret Captain. His pay today is \$165.76 per month.

A man's life—among men!

Reel them off—"Rio", Gibraltar, Ceylon, Yokohama—all the great ports of the world—are they only places on the map to you—or are they ports where you've gone sailing in from the high seas with every eye along the shore turned admiringly on your big ship—your ship! Every ocean has a United States ship sailing for some port worth seeing.
If you've any call in you for a full life—join, and color all your years ahead with memories of things worth seeing—with knowledge worth having—with an inexhaustible fund of sea tales and adventures picked up ashore and afloat that will make you a well-companioned man in any company.
Work?—sure, and a man's work it is, among men.
Play?—well, rather, with a bunch of men who know how to play. These comrades of yours carry in their ears the sounds of great world cities, of booming guns, of swashing seas—sounds you will share with them and that will never die away.
And when you come home, you'll face life ashore with level eyes—for Uncle Sam trains in self-reliance as well as self-respect. The Navy builds straight men—no mollicoddles.
Enlist for two years. Excellent opportunities for advancement. Four weeks holidays with pay each year. Shore leave to see inland sights at ports visited. Men always learning. Good food and first uniform outfit free. Pay begins the day you enlist. Get full information from your nearest recruiting station. If you do not know where the nearest recruiting station is, ask your Postmaster. He knows.
