

You Do More Work,
 You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

CREDIT GHOST WITH WRECK

Devon People Believe Sight of Spanish Flag on British Ship Angered Admiral Drake.

Anyone who knows the villages of the west of England will be aware that they are a fertile soil for all manner of superstitious beliefs. And the process of creating new legends has evidently not yet come to an end, if we may accept a statement made at a recent women's institute meeting at Exeter, at which various speakers recounted the traditions of their respective localities. A few years ago the battle ship Montague was wrecked on Lundy island as she was entering the Bristol channel in a fog. The people of the neighborhood, we are told, have no doubt that she was lured to her doom by the spirit of Sir Francis Drake. She happened to be flying the Spanish flag in honor of the marriage of King Alphonso and Princess Ena. This the proud ghost of Devon's great seaman could not brook, and he made her pay the penalty by running her upon the rocks.—Manchester Guardian.

Easy.
 "New, children," the teacher said, "suppose we wished to go to Calcutta, how would we proceed? You tell us, Tommie?"

"I'd get on the train and go to New York," Tommie responded promptly, then paused.

"Yes?" the teacher encouraged.
 "Then I'd get a steamship," Tommie answered and sat down.

"But you haven't told us the route you would follow," teacher protested. Again Tommie rose.

"Oh, I would not butt in on that," he declared. "I'd leave that to the ship captain, 'cause he'd likely have been there before, and, besides, I believe in leaving all technical matters to experts."

Cat Rules the Roost.

Gold Hill, Ore., has a cat that has the distinction of "ruling the roost."

Several months ago a half-starved and wild kitten made its appearance in a pen of chickens at a home in the suburbs and fed with inmates of the enclosure. It has become quite docile since but never comes within reach of a person, still feeds with the chickens, which have a fond attachment for it, sleeps in the nests at night and during the daytime occupies the nest while the hens are laying.

Recently the cat repelled a skunk that attempted to invade the henry and caused it to be treed by the house dog, which held it at bay till morning, when it was killed. The fur netted the boy of the family \$5.

FOUND MILLIONS FOR OTHERS

Men Who Discovered the Famous Comstock Lode Profited Little by Their Great Luck.

The famous Comstock lode, greatest of silver deposits, was discovered in 1859 by three prospectors, Pete O'Riley, Pat McLaughlin, and "Old Pancake" Comstock, while washing gravel for gold. They were in hard luck. Needing water for their rockers, they dug a hole four feet deep and came upon a bed of sulphide of silver. Not knowing what it was they tried it for gold, with highly satisfactory results, though cursing the "infernal blue sand" that clogged their primitive apparatus.

The blue sand was an outcropping of the wonderful lode, one vein of which, 300 feet wide, came afterward to be known as the "Big Bonanza," yielding ore that was nearly half silver. From this source were derived the multimillions of Mackay, Flood, O'Brien and Fair—the last-named being a young mining engineer, while the other three were everyday miners. The discoverers sold out for small sums. "Old Pancake" blew out his brains; O'Riley went insane and McLaughlin died a poor man.

World to Be His Parish.

A Scottish parson, Rev. D. A. G. Malr, is giving up a comfortable pastorate, and, like John Wesley and St. Francis, is going to make the world his parish. In other words, he intends to become an itinerant preacher, wandering up and down Scotland. In the winter he will take up quarters in one of the poverty-stricken parts of Glasgow, where he hopes to spend his time in study and ministering to the wants of people in his neighborhood. He has no private means. "It is God's work," he says, "and I rely on God's promises."

"One of the experiments in the Gospel that we have never tried is that of evangelical poverty as a holy vocation."

"What do you mean?"
 "Since the stocking-up process, he makes now for the cellar."

Wants Trees With History.

If you know where there is a tree with a history, the American Forestry association, at Washington, D. C., wants a report on it with a picture for its hall of fame. The association is anxious to find trees with a history, rather than trees whose only claim to fame is their size. The Dumont Kennedy Elm, at Crawfordsville, Ind., is reported as being larger than the elm at Huntington, which has held first place as to size for some time. The Wye Mills oak, near Eastern, Md., is credited with being 51 1/2 feet in circumference.

The New Loat.

"The second-story man is going out of business."
 "What do you mean?"
 "Since the stocking-up process, he makes now for the cellar."

FINANCIAL CRISIS

SEEN BY GILLET

Speaker of National House Says Nation Faces Worst Panic in Its History.

Springfield, Mass., Feb. 8.—The United States is facing the worst financial crisis in its history, declared Speaker Frederick H. Gillett, of the national house of Representatives, this afternoon in an address here before five thousand persons. The present high cost of living, he said, is due largely to the greatly inflated conditions, due to the floating debt of \$1,000,000,000 in treasury certificates, and the principal means of bringing it down is by thrift on the part of the public with the alternative that this country will face a panic similar to that of 1893. It is up to the public, he said, to practice due cares, eliminate luxuries so that the present conditions may be bettered.

Like the problem of years ago, when the government was forced to fight trusts, the speaker said that today congress faces a new question, "a question whether the combination

of the employed are not more threatening to our business life than that of the employers."
