CONSPIRACY CHARGE AGAINST COAL MEN

Indictment Brought in Indianapolis Court Naming Many Operators and Miners.

Indianapolis, March 11.—An indictment charging conspiracy in violation of the Lever fuel control act and the federal criminal code, naming 125 coal operators and miners as defendants, was returned in federal court here late today by a special grand jury which has been investigating the coal inquiry since December 17, 1919. More than half of the defendants are operators, it is said.

Bond was filed by United States District Judge A. B. Anderson at \$10,000 in some of the cases and at \$5,000 in others. The defendants will be arraigned on May 5. Names of those indicted will not be made public until they are arrested. It is learned that many of the charges have no connection with the bituminous coal strike. It was learned that practically all facing charges are residents of the central competitive field.

MR. DODSON WARNS USERS OF CALOMEL

Says Drug Acts Like Dye mite on Liver and You Lose a Day's Work.

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tonic—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tonic, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tonic instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tonic acts better than horrible calomel your money is waiting for you.

EXPRESS CHARGE

MAY BE GREATER

American Company Would Raise Ante. Must Spend Big Sum.

Washington, March 13.—Increased express charges, ranging from 10 to 75 per cent, and estimated to yield \$25,000,000 additional revenue annually were asked by the American Express company in a petition filed today with the interstate commerce commission.

Increased cost of conducting its business as well as the urgent need for more complete facilities and equipment was given by the company as grounds for asking additional revenue. Expenditures of "many millions of dollars" was necessary, the petition said, and additional funds could not be obtained under the present rates.

The company estimated its deficit for 1919 at \$22,036,000 for the last six months of 1918 at \$15,723,000. A deficit "even greater than for the corresponding period of 1910" was declared probable for January and February of this year.

While explaining that previous rate increases added approximately \$12,000,000 to the annual revenue, the company said this money was given immediately to employees in the shape of increased wages. Granting of extra wages for overtime on the basis of an eight hour day was said to have resulted in a monthly outlay of \$1,022,000 as compared to less than \$50,000 before the eight hour day and overtime pay were given.

PAIGE

The Most Beautiful Car in America

The Ideal Five-Passenger Car

Those who know the lofty purpose which inspired the building of our new Paige Glenbrook do not wonder that this Light Six model so quickly gained the distinction of being the ideal five-passenger car.

Our one great aim was to make the Glenbrook so obviously superior to any other car of its class that it would be recognized at once as such.

In building it, therefore, we made no compromises. Beauty, comfort and mechanical excellence all had to meet the high standard of perfection which we had established as the ideal toward which we were striving.

The best evidence of the success of our efforts is the Glenbrook itself.

Powered with a six-cylinder motor —of original Paige design and built in the Paige shops—and equally well equipped in body and chassis, this latest member of the Paige family has brought to American motorists new standards of dependability and economy in five passenger motor cars.

See the Glenbrook—and ride in it. You will then have first-hand knowledge of the qualities which have justly entitled this new Paige model to be called "the ideal five-passenger motor car".
