Turn Waste Grease Into Real Money!

Red Devil Lye Does It!

Save kitchen scraps, bones, bacon-rinds, plate-scrappings and pan-grease. They are worth real money. Make soap from them. It is easy with Red Devil Lye.

Simple, easy directions, plainly printed on each can, tell how to make soap worth 80 cents to a dollar from every canful of Red Devil Lye. The canful costs only a trifle—but the soap is better than you can buy! Your household waste-fats are worth big money. Use them!

One Can Makes
 Twenty Big Bars of Soap

Each can of Red Devil Lye is condensed power that will convert the grease you save into ten or more pounds of purest soap fit for all kinds of washing and cleansing. Red Devil Lye has such enormous strength that it is by far the biggest value for the money. Make soap with it once, and you will be glad you learned of such an economy! Home-made soap contains the natural glycerin and is free from the adulterants and fillers so common in factory made soaps.

Handiest sifter-top can keeps the finely-powdered Lye at its full strength, ready for use without any waste. Your grocer sells Red Devil Lye. Look for the striking Red Devil's head on the label.

TARHEEL MINERAL WEALTH

North Carolina's Production Valued at \$8,000,000.

Charlotte, N. C., Aug. 28.—North Carolina's production of minerals during the year 1920 was valued at more than \$8,000,000, according to information given out today at publicity headquarters here of the Made in Carolinas Exposition, based on compilations furnished by Dr. Joseph Hyde Pratt, director of the North Carolina Geological and Economic Survey. Dr. Pratt, who is organizing with notable success a great exhibit showing the diversity and value of the natural resources of the state, plans to make possible a broad study of the state's mineral resources by exposition visitors.

The production in mineral wealth for 1920 shows a tremendous increase over 1900, when the total value of such products was only \$1,604,078. The figures exceeded the \$2,000,000 mark for the first time in 1902 by just \$3,000, but dropped back in 1903 and 1904 to \$1,900,000. In 1905, an increase of \$500,000 was shown, and the total for 1906 showed another increase of \$600,000, the \$3,000,000 mark being exceeded by \$7,000. A slight increase was shown in 1907, but the following year a reduction of about \$85,000 was shown, and the totals fluctuated around the \$2,550,000 total during the next five years, the total of 1912 falling to \$2,514,000. An increase of \$1,300,000 was shown by the total of \$3,879,000 for 1913, with slight decreases being shown for 1914 and 1915. The total of \$4,746,000 for 1916 represented an increase of \$1,200,000; the total for 1917 was \$5,192,000; 1918, \$6,457,000. With some figures yet lacking, the 1920 total stands at \$8,051,000, and Dr. Pratt expects the final total to be about \$8,250,000.

The figures given represent the production of granite, sandstone, marble and other forms of limestone; brick, tile, pottery, pottery clay and kaolin; sheet and scrap mica; sand and gravel; gold, silver, copper, lead, zinc, iron, manganese, feldspar, talc, soapstone, mineral waters, corundum, emery, mill-stones, chromite, barytes, quartz, graphite, coal, peat, tin ore, monazite, zircon, rare earth minerals, including samarskite, uranite and columbite; precious stones, including amethysts, garnets, rubies, sapphires, aquamarine, beryls, emerald beryls, emerald matrix, rhodolite, smoky quartz, rutiled quartz and moonstones.

HULL LORD MAYOR SENDS CONDOLENCES TO CITIZENS OF U. S.

Hull, Aug. 27.—A message expressing sympathy of the municipality and people of Hull to the citizens of the United States and the relatives of the Americans who lost their lives when the ZR-2 was destroyed, has been sent to George Harvey, American ambassador to Great Britain, by T. B. Atkinson, the Lord Mayor.

"Your Excellency," the Lord Mayor said, "I desire on behalf of the inhabitants of this city to express to you their great sympathy in the terrible loss of life occasioned citizens of the United States through the accident to airship ZR-2. While mourning our own loss we do not forget the losses of our American allies. These losses, too, in many cases are personal to many of our inhabitants, who, during the somewhat lengthy sojourn of your airmen at Howden, learned to know them as friends and to respect them as brave and capable men."

TWO IN FLORIDA SHOT FROM AMBUSH

Robbery Supposed to Have Been Motive. Much Money Missing.

Tampa, Fla., Aug. 28.—Rube Jones, 45, of Port Richey, former marshal of Tarpon Springs, and Bert Scott, 39, also of Port Richey, were shot to death from ambush at Stevenson's bend, near Weechiwathee springs in western Hernando county, 18 miles from Brooksville, just before nightfall last night.

Robbery was the motive, apparently, as Jones was known to carry a roll of about \$2,000 in cash. This money and a large diamond ring which he wore on his left hand were taken. A diamond stud in his shirt was overlooked as well as \$34 which he had in another pocket.

Sheriff Cobb at Brooksville stated tonight that it is his belief that two, possibly three men, had part in the ambush and murder as 14 empty shells found on the roadside where the ambush occurred were of three sizes 12 and 16 gauge shotgun and 32 and 20 rifle. Fifty-eight bullets pierced Jones' body, most of them made by buckshot. Scott's face was fairly blown away.

No Worms in a Healthy Child
 All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks, will enrich the blood, improve the digestion, and act as a general Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

MARRIED FOUR HOURS, DIES

Woman Becomes Wife and Widow in Brief Time.

Atlanta, Aug. 29.—Four hours after she became a wife, Mrs. Otto Rehm was a widow when her husband died about 1:30 o'clock Thursday morning after a fall at the Terminal Station.

The bride was Miss Emma E. Venable of 286 Gordon street. Mr. Rehm arrived in Atlanta from New York about 6 o'clock Wednesday evening. At 9:30 they were married by the Rev. Richard Orme Flinn at North Avenue Presbyterian Church, and afterwards they went to the bride's home for a wedding supper.

About 12:30 o'clock they started to their hotel, Mrs. Rehm said, and went by the Terminal Station that Mr. Rehm might get a package he had left there when he arrived earlier in the evening. He left her in the waiting room and when he failed to return for half an hour she was informed that he had fallen and injured himself. He died without regaining consciousness before an ambulance arrived. They were to leave on their honeymoon trip Thursday morning.

The cause of Mr. Rehm's death was not determined. The only witness was Claude Harper, a negro porter, of 169 West Hunter street. Harper said he saw Mr. Rehm walk into the men's lavatory at the station, apparently normal, when he suddenly threw up his hands and fell over backwards. A gash of about an inch long in the back of his head was caused by his fall to the floor and the embalmer at Patterson's undertaking establishment to which the body was taken, said the skull appeared to be fractured. Whether death was caused by a heart attack or apoplexy or resulted from concussion of the brain after a slight fainting spell caused him to fall will be investigated by coroner Paul Donohoo Thursday.

Mr. Rehm's home was in Brooklyn, N. Y. He was Pullman conductor on the New York-New Orleans Limited on the Southern Railway and was widely known to travelers between New York and Atlanta, the extent of his run. He spent much time in Atlanta, where he became acquainted with Miss Venable. He was 41 years old and is survived by his widow, his father and two sisters, who live in Brooklyn. Mrs. Rehm said the body would be taken to Brooklyn for interment, probably Friday.

FINAL SETTLEMENT

Take notice that on the 5th day of October, 1921, I will render a final account of my acts and doings as Guardian of the estate of William A. Babbs, in the office of the Judge of Probate of Laurens county, at 11 o'clock, A. M.

All persons having claims against said estate will present them on or before said date, duly proven, or be forever barred.

O. G. THOMPSON,
 Probate Judge.
 August 31, 1921. 7-5-A

Add Warm Water and Serve

THAT'S how easy it is to make a perfect substitute for whole milk with Purina Calf Chow.

Whole Milk
 1 Gal. contains—
 7 lbs. water
 1 lb. dry matter.
 Costs—16c to 50c.

Purina Calf Chow
 1 Gal. (Prepared) contains—
 7 lbs. water
 1 lb. of dry matter.
 Costs—5c to 6c.

About \$4.00 worth of Purina Calf Chow will feed a calf for the first two months. What are your calves worth at birth? What would they be worth two months later? Figure your profits. If you raise blooded calves you can cut the cost. Purina Calf Chow will take the place of nurse cows for blooded beef calves. You can feed it dry at five weeks. Let us prove to you that "Calf Chow" pays big dividends. See us or phone.

You'll enjoy the sport of rolling 'em with P. A.!

FIRST thing you do next—go get some makin's papers and some Prince Albert tobacco and puff away on a home made cigarette that will hit on all your smoke cylinders!

No use sitting-by and saying maybe you'll cash this hunch tomorrow. Do it while the going's good, for man-o-man, you can't figure out what you're passing by! Such flavor, such coolness, such more-ish-ness—well, the only way to get the words emphatic enough is to go to it and know yourself!

And, besides Prince Albert's delightful flavor, there's its freedom from bite and parch which is cut out by our exclusive patented process! Certainly—you smoke P. A. from sun up till you slip between the sheets without a comeback.

Prince Albert is the tobacco that revolutionized pipe smoking. If you never could smoke a pipe—forget it! You can—AND YOU WILL—if you use Prince Albert for packing! It's a smoke revelation in a jimmy pipe or a cigarette!
