### LAND SALE State of South Carolina, County of Laurens.

In Court of Common Pleas.  
J. W. Todd, Plaintiff,  
against  
Sam A. and Joe W. Williams, De-  
fendants.

Pursuant to a decree of the Court  
in the above stated case, I will sell at  
public outcry to the highest bidder, at  
Laurens, S. C., on Salesday in  
November next, being Monday the 7th  
day of the month, during the legal  
hours for such sales, the following de-  
scribed property, to wit:

1st.—Lot of Sam A. Williams.—All  
that certain piece, lot or parcel of land  
situate, lying and being in the City of  
Laurens, County and State aforesaid,  
containing one-quarter of an acre,  
more or less, and bounded on the north  
east and south, by lot of Joe W. Wil-  
liams, and on the west by the Lau-  
rens Oil Mill and being the lot con-  
veyed to Sam A. Williams by Joe Wil-  
liams on the 3rd of November, 1908,  
by deed recorded in book 23, page 63.  
2nd.—Lot of Joe W. Williams.—All  
that certain lot, piece and parcel of  
land situate, lying and being in the  
City of Laurens, County and State  
aforesaid, containing one and one-  
fourth acres more or less, bounded on  
the north by lands now or formerly  
belonging to T. J. Buckett, on the east  
and south by lands now or formerly  
belonging to Mrs. H. G. Todd, and on  
the west by lot of Sam A. Williams, and  
Laurens Oil Mill. It being all the  
property conveyed by Mrs. H. G. Todd  
to J. W. Williams, by deed dated the  
3th of May, 1908, which is recorded in  
Deed Book 26, page 12, office of the  
Clerk of Court for said county and  
state. Any person desiring to bid on  
the above property, other than the  
Plaintiff, shall be required to make a  
deposit with the clerk of court, of  
not less than \$50 on each lot at the  
time of and before the said property is  
bid off as evidence of good faith in  
the bidding.

Terms of Sale: Cash. Purchaser to  
pay for papers and stamps. If the  
terms of sale are not complied with,  
the land to be re-sold on same or some  
subsequent salesday on same terms,  
at risk of former purchaser.

### LAND SALE State of South Carolina, County of Laurens.

In Court of Common Pleas.  
Robert L. Lewis, et al, Plaintiff,  
against  
Henry Posey, et al, Defendant.

Pursuant to a decree of the Court  
in the above stated case, I will sell at  
public outcry to the highest bidder, at  
Laurens, S. C., on Salesday in  
November next, being Monday the 7th  
day of the month, during the legal  
hours for such sales, the following de-  
scribed property, to wit:

All that tract of land situate, lying  
and being, near the Town of Clinton,  
in Laurens County, South Carolina,  
containing one hundred and forty-four  
acres, more or less, and bounded by  
lands of John H. Young, the estate of  
Berry Bailey, deceased, and Geo.  
W. Young, on the south by lands of  
George W. Young and on the west by  
lands of L. M. D. Young. The said  
land to be sub-divided into two or  
more tracts and will be sold in sepa-  
rate tracts and then sold as a whole,  
the highest bid to be accepted. Plats  
of the division of said land will be at  
the office of the Clerk of Court and  
also exhibited at the time of the sale  
for the information of all parties.

Terms of Sale: One-half cash, bal-  
ance to be paid twelve months from  
date of sale; the credit portion to be  
secured by bond and mortgage of the  
purchaser over the said premises, bear-  
ing 8 per cent interest from date, with  
leave to purchaser to pay his entire  
bid in cash. Purchaser to pay for pa-  
pers and stamps. If the terms of sale  
are not complied with, the land to be  
re-sold on same or some subsequent  
salesday on same terms, at risk of  
former purchaser.

C. A. POWER,  
C. C. C. P. and G. S., Laurens, S. C.  
Dated, this Oct. 10, 1921. 13-31-A

## SLEEP IN CHURCH

"Forty Winks" Under Happiest  
of Conditions.

Idea Seems to Appeal With Consider-  
able Force to Writer in Loui-  
ville Courier-Journal.

Cool, cavernous, well-ventilated,  
cushioned churches are fine places in  
which to snatch 40 winks of sleep.  
But for the disposition of mean-  
natured persons to speak unkindly of  
one who sleeps in church the invita-  
tion of a Louisville minister to sleep  
in his church during his sermons  
might jam the building Sunday morn-  
ings, making sleeping in a pew as  
comfortless as sleeping three in a  
bed.

Those who are not sensitive to un-  
kind, un-Christian, criticism can en-  
joy sleeping in church and going home,  
as the pastor says, "refreshed and  
declaring the sermon and the theology  
fine."

Sleep in itself is the supreme  
realized experience of the average  
work-ridden, worry-bitten, dog-tired  
human being, declares a writer in the  
Louisville Courier-Journal. It pro-  
vides all of the refreshment of the  
bath without the labor of tubbing and  
rubbing. Sleep is more reconstruc-  
tive than a drink, and it is an anti-  
toxin, whereas the drink may be, now-  
adays, cold poison procured by  
bribery.

The poets, many-voiced, silver-  
tongued, have smitten the lyre and  
sung the delights, the uses, the magic  
of sleep. The philosophers have point-  
ed out to the weary, to the disillusion-  
ed, the "poppied ways of sleep."

Sleep paroled the prisoner whose  
days are spent in penal servitude and  
whose nights are spent in a cell, mak-  
ing him as free and as light-footed as  
Ariel.

Sleep suspends the life sentence of  
the man who is in the clutches of in-  
curable illness and beckons him to  
the ruddy experience of youth and  
health.

The jilted lover sleeps and knows  
the happiness of love requited.

The bankrupt sleeps and experi-  
ences the dignity and the power that  
wealth showers with barbaric hand  
upon the merchant princes of the gor-  
geous west, along with pearl and  
gold.

The widow, gray, bent, old, child-  
less, a victim of poverty and lonel-  
iness, sleeps and is again the bride  
whose slippers feet are at the gates  
of Elysium.

"Sleep" is found, in any book of fam-  
ilar quotations, between "slander"  
and "slavery," from both of which it  
provides respite, and next to "smiles,"  
near "solitude" and "song," and "sun-  
shine." But it is found nowhere in  
happier circumstances than in church,  
somewhere between the announce-  
ment of the text and the pronounce-  
ment of the benediction, for sleep's  
embrace upon the eyelids of the weary  
falls more softly and sweetly when it  
comes "like Diana's kiss, unasked, un-  
sought," than when it responds to such  
advances as getting into night-clothes  
and into bed.

Sleep in church is at its best when  
the church is made of logs and stands  
in a wood. The preacher is long-  
winded. The squirrel barks, the blue  
jay chides, the leaves rustle outside  
the windows. As the parson thunders  
out damnation in mid-discourse the  
meat of the argument goes to your  
wakeful neighbor while you "eat in  
dreams the custard." Even in town,  
with the jangling noises of the streets  
invading the edifice, there are rare  
sweetness and solace in the nature of  
a minister who invites the weary to  
come to the church and enjoy a nap,  
for which he promises, generously, to  
provide the lullaby.

### Chilean Fruit in America.

An experimental shipment of grapes  
was sent to New York with a view of  
ascertaining whether a market could  
be found in the United States for the  
product of the Chilean vineyards. The  
grapes were shipped in cold storage and  
are reported to have arrived in  
excellent condition and to have been  
sold at highly satisfactory prices. It  
is reported that another shipment is  
planned as soon as arrangements can  
be made. The experiment is of par-  
ticular interest, since it is possible that  
the exportation of fresh fruit from  
Chile to the United States might be-  
come very profitable, providing that  
shipping facilities were available. Chile  
produces fine fruit of almost  
every variety known to the temperate  
zone and it ripens during the winter  
months in the United States when the  
market would be at its best.

### Flies Spread Plagues in Russia.

Spread of dread diseases in Russia,  
is due to swarms of flies and gnats.  
At the Pan-Russian health congress at  
Moscow Health Commissioner Samajko  
presented a sensational report. Plague,  
he said, was rapidly spreading in  
southeast Russia from Persia and  
Siberia, cholera was raging in the  
southern and middle governments, and  
there was hardly one part of Russia  
unaffected by malaria. This alarming  
condition of things he attributed to  
enormous swarms of flies and gnats,  
which were the disease carriers.

### By Way of Proof.

It is being insisted upon that col-  
lege students of today are not nearly  
as great fools as their great-grandfa-  
thers, who graduated. It must be so.  
Nobody today tries to get a cow into  
a chapel or upon the roof of the dormi-  
tory.—Minnneapolis Journal.

### HARDING ANSWERS

#### WILLIAMS' CHARGE

Reply Made to Criticism of Former  
Comptroller. Salaries Not High.

Washington, Oct. 15.—The federal  
reserve board does not regard "the  
salaries paid the governor of the New  
York Federal Reserve bank and the  
federal reserve agent as being exces-  
sive," Governor Harding of the board  
said in a letter to Chairman Anderson  
of the congressional agricultural com-  
mittee, made public tonight.

"No one familiar with the qualifica-  
tions of these gentlemen, their long  
experience in banking, their estab-  
lished position in the banking com-  
munity before the federal reserve  
bank was organized, the magnitude of  
their responsibilities and the oppor-  
tunities constantly afforded them to  
make other and more profitable en-  
gagements," the letter added, "would  
assert for a moment that they are  
being paid more than they are worth."

Governor Harding explained that  
the letter was not a reply to the re-  
cent senate resolution requesting data  
on the salaries paid New York federal  
reserve bank officials but was intend-  
ed to deal more specifically with criti-  
cisms of John Skelton Williams, for-  
mer comptroller of the currency. The  
board's answer to the request of the  
senate, he added, "would be forwarded  
next week." He requested, however,  
that the letter be made a part of the  
commissions' record and that the com-  
mission make public its finding with  
respect to the charge made by Mr.  
Williams in the controversy which  
began some months ago.

Included in the letter was an an-  
alysis of the salaries paid the New  
York bank officials and a comparison  
of the salaries with those of bank  
officials carrying similar responsibil-  
ities. The letter also embodies the  
minutes of a meeting of the reserve

board of which Mr. Williams, as  
comptroller, was a member, which  
showed that Mr. Williams voted for  
increasing the salary of Governor  
Strong of the New York bank from  
\$30,000 to \$50,000.

"It will be noted," the letter added,  
"that the minutes show that Mr.

Williams voted affirmatively on 60 per  
cent of the salary increases includ-  
ing those which he now criticizes, and  
that he did not vote against any of  
them but was absent from meeting  
when the other 20 per cent. were vot-  
ed.

Secretary McAdoo, who as head of

the treasury was chairman of the re-  
serve board, also was on record as  
favoring the salary increases, and in  
a statement to the board said, accord-  
ing to the minutes, that such salaries  
should be made sufficiently attractive  
to induce capable and efficient men to  
take up the work.

# ESSEX

Men said these things of it==  
(When it cost \$420 more---When it was three years less mature)

"Absolutely the brightest, liveliest little engine I ever found in an American car"---S. F. Edge in "The Auto Car," London.  
"A colossal revelation of the value Americans can offer at its price"---E. N. D. in "The Auto," of London, Eng.  
"Its transcontinental record is not merely a record---it's a miracle"---From "The Car," London, Eng.

### Best on the Market

"I have driven my Essex 48,000 miles  
without replacing over \$50 worth of  
parts. I get about 17 miles to the gallon  
of gasoline, and about 150 miles to the  
quart of oil. It has been more than sat-  
isfactory in every way. The best car on  
the market."

H. E. PUGGELLI,  
131 N. Main St.,  
Springfield, Mass.

### Good as Ever After 20,000 Miles

"The Essex which I bought from you  
in March, 1919, has now traveled over  
20,000 miles. From all present indica-  
tions the car is perfectly good for 20,000  
or 30,000 miles more."

WILBUR F. BEALE, President  
Manufacturers National Bank,  
Cambridge, Mass.

### After 40,000 Miles

"My Essex, a 1919 model, has been  
driven over 40,000 miles, including three  
trips between Detroit and New York.  
The flexibility of the motor is always  
a source of amazement to those who  
drive with me."

L. C. HANNEN,  
Detroit-International Co.,  
Detroit, Mich.

NOW YOU GET THE

# New Improved ESSEX

Better in every respect---and for less money

Imperfectly as it describes the new Es-  
sex, the praise of those who own the  
former model will still give you some  
idea of the superiority to expect over  
any other light car, or any within hun-  
dreds of dollars of its cost.

They will tell you of a car that gives  
performance like the high-priced cars.  
That is so reliable that it rarely needs  
even minor service attention. That is  
so enduringly designed and built that its  
performance improves for thousands and  
tens of thousands of miles.

But, remember, they will be describing  
the former Essex. In the new Essex are  
advantages that no owner of a former  
Essex knows. None can tell you of these.  
It would be impossible to adequately de-  
scribe all the advancements. Chiefly  
they consist in the refinement of every  
part of the car to fulfill the utmost pos-  
sibilities of its former design, proclaimed

here, in England and in Europe the fin-  
est of its type ever conceived.

### How it Is Improved

Even small annoyances, not important  
except as they require time to correct  
them, are eliminated in the improved  
Essex design.

For instance, you will hardly know  
there is such a thing as a spark plug in  
the new Essex. It is unlikely, in all the  
time you drive the car, you will ever  
need to touch a plug.

By merely using an oil can with rea-  
sonable frequency you will hardly ever  
need enter a service station.  
That is merely another improvement of  
design, which further underwrites the  
reliability for which Essex is best known  
to its owners.

Carbon trouble, which all motorists know,

is so greatly minimized in the new Essex  
that you will run two or three times  
greater mileage between attention  
periods.

The new Essex gives far greater gaso-  
line mileage—an average of 5 to 7 miles  
more per gallon.

Endurance, too, is increased. Of course,  
all moving mechanism will wear. It is  
not claimed for the new Essex that it  
will not. But you escape the greatest  
factor of costs. Where wear inevitably  
occurs, Essex has increased resistance  
to the highest point. But also, it is so  
designed that the small part actually  
receiving the wear can be replaced sim-  
ply and inexpensively, preserving per-  
fectly the costly part of the unit. Only  
a few of the highest priced cars share  
these features. In cars lacking them,  
equivalent wear would mean the costly  
replacement of the entire unit.

To Really Judge it You Must See it and Try it---Do So Today
