Colds & Headache

"For years we have used Black-Draught in our family, and I have never found any medicine that could take its place," writes Mr. H. A. Stacy, of Bradyville, Tenn. Mr. Stacy, who is a Rutherford County farmer, recommends Black-Draught as a medicine that should be kept in every household for use in the prompt treatment of many little ills to prevent them from developing into serious troubles.

THEDFORD'S BLACK-DRAUGHT

"It touches the liver and does the work," Mr. Stacy declared. "It is one of the best medicines I ever saw for a cold and headache. I don't know what we would do in our family if it wasn't for Black-Draught. It has saved us many dollars . . . I don't see how any family can hardly go without it. I know it is a reliable and splendid medicine to keep in the house. I recommend Black-Draught highly and am never without it."

At all druggists.

Accept No Imitations

TELL your dealer you want to see a Fisk Tire beside any other he offers you. He has it in stock or can get it. See for yourself what the Fisk Tire has to offer in extra size and strength, how its resiliency compares when you flex the tire under your hand, how the depth of the non-skid tread looks beside other treads. **This is the way to buy tires!**

There's a Fisk Tire of extra value in every size, for car, truck or speed wagon

WEEVILS ALREADY APPEARING

County Farm Demonstrator Finds Great Number of Them in Travels Over the County.

"In my travels over the county I am finding a great many boll weevils on the small cotton," said County Farm Demonstrator C. L. Vaughan, yesterday.

"It is natural for them to start this early and there is no use of the people becoming alarmed for we have them and have plenty to go a great deal of damage this year. The weevils don't do very much harm now, only kill a great many of the buds.

"A great deal of the cotton is dying from too much rain and cool nights but you will very seldom find a stalk dead from the weevil injury. The weevils are just sucking the sap now in order that they may live and puncture and lay their eggs in the squares.

"Many of the people have already started picking off the live weevils and it is a very good practice for every one killed now will mean more cotton made this year.

"It has been estimated that a pair of weevils and all their progeny in one season will produce twelve million, that is if all were to live but the Lord is with us and nature kills millions for us, if it didn't it would not be possible for us to make a boll of cotton.

"Every man has a chance to make a little cotton but he will have to do his part toward fighting."

YEARLY HONOR ROLL

Supt. Gasque Announces Yearly Honor Roll of Local Schools.

Supt. H. W. Gasque has announced the yearly honor roll of the local schools, as follows:

Eleventh Grade—Rebecca Adams, Allie Gosnell, Eula Mae Martin, Louise Smith, Grace Taylor, Sarah Eliza Swygert.

Tenth Grade—Sarah Katherine Barksdale, Roy Gaston, Winifred Sitgreaves.

Ninth Grade—Janie Holmes Davis, Mary Goodwin, Paul Philpot, Sarah Senn.

Eighth Grade, A Section—Willie Kate Baldwin, James Machen, Pascal Miley.

Eighth Grade, B Section—Frank Roper, Elizabeth Thompson.

Eighth Grade, C Section—Cothran McCravy, Miller McCuen, Perrin Wright.

Seventh Grade, A Section—Legare Blackwell, Collyar Barksdale, Sara Cheek.

Seventh Grade, B Section—Annie Power, Gertrude Templeman, Margaret Wasson.

Sixth Grade, A Section—Mary Ball, William Crews.

Sixth Grade, B Section—Bruce Thompson, Harriett Todd, Martha Power.

Fifth Grade, A Section—None.

Fifth Grade, B Section—Irene Todd, Mary Dell Rowland.

Fourth Grade, A Section—None.

Fourth Grade, B Section—Louis Wham, C. T. Squires, Jr.

Third Grade, A Section—Emily Babb.

Third Grade, B Section—Margaret McCravy, Louise Taylor, Clemigene Teague.

Second Grade, A Section—Dorothy Humbert, Martha Susan Briggs, James Davis, Charles Crews.

Second Grade, B Section—Mary Elizabeth Squires, Maudaline Sullivan.

First Grade, A Section—William Bolt, Maurice Cannon, William Hipp.

First Grade, B Section—Rachel Norwood, Frances Putnam, Laura Madden.

Laurens Mill School

First Grade—None.

Second Grade—Loree Busby, Elvira Cannon, Beulah Davis.

Third Grade—Elmer Davis.

Fourth Grade—None.

Professor Nystrom's Figures

Professor Nystrom figures that out of each dollar that a consumer spends with a mail-order house, twenty per cent goes toward the cost of the mail-order house and ten per cent for the cost of mail-order transportation, a total of thirty per cent. Out of every dollar spent at a local store, twelve per cent is for the wholesaler's post, two per cent for transportation and sixteen per cent for the retailer, a total of thirty per cent.

Thus the costs of doing business are the same, but the mail-order method has three distinct disadvantages for the consumer: (1) Interest is lost on money paid in advance. (Where one mail-order house sometimes receives more than one million dollars in a single day the interest on this money for the time prior to the receipt of the goods is considerable). (2) Delay in receiving the goods and in exchanging goods. (3) Impossibility of examining merchandise previous to receipt of goods.

SAVE YOUR OLD SHOES

Don't throw them away when you can save the price of a new pair by having them repaired here in the modern way. Remember, our service isn't that of an ordinary cobbler. It is by the highest type of Shoe Repair Machinery made. Our work is like that turned out by the factory.

No matter in what condition your shoes may be, we can fix them for you and return them to you looking almost like new. Costs are so low in comparison to the price of a new pair.

Laurens Street, Next to Blakely's Market

**More than a Gasoline—
a Scientifically Balanced
Fuel for Your Motor**

WHEN we introduced our improved, balanced gasoline last year the response of motorists was enthusiastic. It needed but a brief trial to become established with thousands of new friends. They have stayed with "STANDARD".

In the manufacture of this gasoline we combine the most desired properties from the crudes to give you quick starting and maximum mileage.

When your gasoline is right—and lubrication properly cared for by Polarine—you should not find

1. Chronic overheating
2. Valve seats pitted with carbon
3. Gummed valve stems
4. Uneven running, caused by cylinders missing
5. Contamination of the lubricating oil in the crank case
6. Necessity for frequent carbureter adjustment
7. Vile odor from the exhaust caused by incomplete combustion or wasted power
8. Spark plugs fouled.

Look out for these symptoms. "STANDARD" MOTOR GASOLINE will help you in avoiding them. Use a good oil—Polarine.
