

Garden & Household. FEBRUARY, 1885.

Calendar table for February 1885 with days of the week and dates.

PROFITABLE FEEDING OF COWS.

When milk is sold at high prices near cities, it may pay a dairyman to over feed his cow with brewer's grains and articles of the kind, to stimulate milk production...

hard pan, over which ferns, weeds, and aquatic grasses run riot during the whole summer. Is it not time the bottom was knocked out of it...

A WOMAN MAKES POULTRY PAY

Farmers do not appreciate chickens at near their full value. I have only a rough board hen house, twelve by sixteen feet, with strips of clap-board over the cracks to keep the wind out...

GRINDING THE CORN TOO.

The shell corn costs, on an average, one and a half to two cents per bushel where the most approved implements are on hand for that purpose.

HOW MANY ACRES IN THAT FIELD?

If one asks how many acres there are in any one of our fields, nine out of ten of us will say: "Oh, about—acres." This guesswork is one of the serious defects in our practice...

MORE BRAIN-POWER ON THE FARM.

About the best use a farmer can make of himself is, to devote the long winter evenings to an increase of his mental activity. Farms differ in their productiveness, mainly according to the amount of intelligence that is brought to their cultivation.

Saved Her Life! BRIDGE, McIntosh Co., Ga. DE J. HEADFIELD—Dear Sir: I have taken several bottles of your Female Regulator for failing of the womb and other diseases...

Costly they call it, say they can't buy it, but not expressed in fancy, rich, not gaudy. For the apparel of the man...

Atlanta Druggists.

We began handling B. B. B. from its first introduction, a few months ago, and have never heard a word of dissatisfaction expressed relative to its merits...

Office of Jacob's Pharmacy.

Six months ago we had no demand for B. B. B., but now our retail demand is such that we are forced to buy in two lots...
