It would seem from the following from the Greenville News of the 13th. that the little curiosity found at the C. & G. R. R. depot at this place some ime ago, of which mention was made last week, was a harmless little thing common to railroad men. Strange that ione of the railroad men here recognized the use of the little curiosity : "A young colored railroad man who

ives in West Greenville read the story printed in the News of yesterday of the liscovery of a mysterious instrument in Newberry which excited the minds of the people there and was at last safely buried in the bed of a creek by a can-Embroidery Patterns, Stamped, at tious citizen. He recognized the infernal machine by the description and was mightily amused by the auxiety and wonder it caused in Newberry. It is nothing but the signal torch now in common use on all railroads. In its complete form it is about the size and shape of a common Roman candle and provided at one end with a sharp spike so that it will stand when dropped from cross tie. A little glass cone inside the tube is broken by a slight shock and the liquid in the cone on coming in contact with a powder under it bursts into flame with a noise like that caused by the firing of a small pistol. Then the tube burns ten minutes, showing red fire, and goes out. A thousand of them might be fired at once in Newberry without disturbing the peace of the

I would like to see a good county or even township organization of farmers for the ourpose of discussing matters pertaining to the farm, such as reading essays, giving experiences and giving a general interchange of ideas on the different methods of cultivation, and everything pertaining to the farm, but let it be free from politics. He did not believe in making a political movement out of it, but if it would take into consideration such matters as looked to the bettering of the condition of the farmers, giving them improved methods, it would be of benefit to the farmers.

Mr. Robert B. Lyons says: name was on the call is und the farmers' convention, but do not claim to be a farmer now, but if I were engaged in farming I would attend the convention for I cannot see any harm in it.
