B. WEST, EDITOR. State Normal Institute con at Columbia, commences July nd continues four weeks, and on 8th the State Association cons in the same city. We comend Mr. Coward highly for making such a wise selection of instructors. The faculty urges upon the teachers to attend, from the fact that if they do not, the probability is the opportunity will be cut off after this year. I would urge upon the teachers to attend, for without the new methods and better ideas we are behind the times. One great thing we need is for men and women to adapt themselves to the new order of things. It is too often manifest in our county teachers' association, that the larger number of our teachers care nothing about receiving or trying to impart any new ideas. They seem to think, "well I am in the country, and the old method will do as well as the new, the people out here won't know any better." The sooner such teachers are out of the school room the better it will be for the children, parents, State and themselves, for they are betraying their trust. It would be better for our ex teachers' spokesman to offer twenty-four hours to such to leave the county. Our professional teachers are but few. Any one who can get a certificate can keen a school, but not any one who can get a certificate can teach a school. Teaching is a professional work, and those who teach should study it. The doctor is not admitted to practice until he has studied the profession. The lawyer not admitted to the bar until he studies the profession. But the school keeper graduates in the same class with the one who aims to be a doctor or a lawyer. The doctor or lawyer must study up in other things before he is allowed to go into his desired field, but the school keeper goes out at once to keeping school, and calls himself a school teacher. Others go out and say, I am teaching, but as soon as any thing else turns up I am going to take hold of it, for that is just what I am waiting for. Some States only want those for teachers in the common schools who are graduates from normal schools. Already are the examination papers asking you about attending some normal institute; you may answer none. But ere long the time will come, when the words of Cromwell will be given to those who attend none: "get you gone, and give room to other men;"—not twenty-four hours to leave in. but at once. Some of the teachers were saying they believed Newberry could support the institute. If they think so, and want it, they can have it to come. The only thing needed is to go down and represent your county in a large number. The State has asked for each county to meet some time previous to the 6th of July to impress each other with the idea of attending the institute. As our president is likely to be away soon, and the vice has gone, I thought it well to urge upon each teacher of the county to meet at our regular meeting place on the first Saturday in July, (3rd) at 10 o'clock a.m. Hope and think the

The educational bill which has been pending for some time, I fear will be a failure. Congress may fail to pass it, but the time will come when the nation will repent such actions. We regret the indifference of our National Legislators in touching a measure so fraught with good to the whole people. Opposition may suit the supposed strict constructionist now, but opposition must be changed to support, or else a misrepresented public will demand the reason why. The hope of the country depends on such wise moves as that the educational bill. We must lucate our boys for manhood, girls r womanhood and both for human-On these depend the hope of e country.

The commencements of our best hools in the Sou h have passed off th success, viz: Biddle, Classin, len, and Zion Wesley. Each turned t a number of graduates to go out "teach the young ideas how to oot." The two last named are the ly ones of the kind in the South i president and entire faculty of own color. We would be glad to tain the names of the graduates of h school; we have only been sucsful in obtaining those of Zion sley, viz: Messrs. G. C. Hood, E. Sloan, M. A. Davis, E. J. lie Houser, L. E. Tyler, B. A. Johnson and L. D. Merritt. They leave the school with the idea, "its best to do or die."

Any one wishing to contribute to the column will please do it through the editor at Phifer's, Newberry County. I am now at this place teaching the "banner" school of the

Three of our teachers, Dr. McMorris, C. W. Whitmire and F. L. Hicks are to take schools in other counties. We are pleased to say they are worthy of trust.
