

The Herald and News. PUBLISHED EVERY THURSDAY AT NEWBERRY, S. C. TEACHERS' DEPARTMENT.

As Is the Teacher, So Should be the Pay.

Of the three thousand eight hundred teachers in this State now, how many are prepared to command, that is, to earn, \$50 a month if it were offered to-morrow? We know that many teachers do not earn the money they now receive.

At a meeting of the board of trustees of the Helena high school the same teachers were chosen for another session, as follows: Arthur Kibler, principal, and Miss Beulah Greneker, assistant.

Many schools in the lower portion of the county began the summer session on last Monday or will begin on next Monday.

Programme for the association at Prosperity will appear next week. [The Teachers' Column was crowded out last week and the articles published this week were intended for last issue.

Frank Leslie's Popular Monthly for July. The Constitution of the United States is just about a century old, and it is certainly reasonable to tell us who were the men who made it, and how it was made.

The school room is evidently no place for a bungler and a botch; but it is a singular fact that many a man who will carry a plowpoint five miles past a poor workman to place it in the hands of one skilled in sharpening such instruments, in order that it may guide itself, will entrust the mental plowpoint of his child to the hands of those unskilled, who can only hammer and batter and twist it out of shape and ruin it for both time and eternity.

The Teacher is nearly right: Skilled and trained men and women are what we need, and when the people of the country see that these are at hand the salaries are sure to rise.

Teacher's Association. The Teacher's Association met on last Saturday at the usual place. The meeting was not as well attended as it should have been, but this is nothing unusual.

The Eclectic for July. Has a fine steel engraving as a frontispiece, being the beginning of a new volume, the 46th. It is almost superfluous to enlarge on the general excellencies of this publication, containing, as it does, month by month, the choicest selection from the foreign, specially the English, magazines and reviews.

Published by E. R. Pelton, 25 Bond Street, New York. Terms, \$5 per year; single numbers, 45 cents; trial subscription for 3 months, \$1. Eclectic and any \$4 Magazine, \$8.

The Advantages of an Education. From the Philadelphia Record. Had Craig Tolver been educated it is probable that his lawless and criminal energies would have found vent in such a transaction as that of the Fidelity bank of Cincinnati, or in wrecking a railroad corporation.

An End to Bone Scraping. Edward Shepherd, of Harrisburg, Ill., says: "Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity know it. I have had a running sore on my leg for eight years, my doctors told me I would have to be amputated."

If You Want a Good Article Of PLUG TOBACCO, ask your dealer for "Old Rip."

Very Slow Poison. Rife whiskey kills quick according to the prohibition papers; but New England rum is very slow poison. An exchange says: "The oldest man in New England is Charley Neal, of Searsmont, Me., who is 107 years old. It is recorded that he has chewed tobacco for 100 years and drank New England rum for nearly as long a time; that he voted for Jefferson the first time he was a presidential candidate, and has been a Democrat from that day to this."

A Terrible Surgical Operation A FATAL MISTAKE. The Cleveland (Ohio) Press, of February 2nd, 1883, published an account of a fatal surgical operation which caused a great commotion among medical men throughout the whole country.
