NEWBERRY, S. C.

THURSDAY, MARCH 8, 1888.

ONE YEAR. The present proprietors have had charge of the HERALD AND NEWS just one year to-day. On the 9th of last March they brought out their first paper. It has been to them a year of hard work, but amidst this toil they have had much to encourage and to stimulate them to renewed efforts. With no capital but the little brains and muscles we possessed, it was with some misgiving that we undertook the work. But the people of Newberry have been kind to us. Our business in all departments has grown and we are adding new subscribers every week. There is room for more names on our list, however, and those who are not subscribers should lose no time in having their names placed on the list. We celebrate this, our first anniver-

sary, by presenting the HERALD AND News this week in an entirely new dress. We hope at an early day in the future to make other improvements in

Being naturally modest, we do not often speak of ourselves, and have no promises to make, only to say that if hard work and close attention can give the people of Newberry a good newspaper we propose they shall have it in the HERALD AND NEWS.

The Greenville News came to us on last Thursday in a new dress and an enlarged form, and with Mr. A. B. Williams again assuming editorial charge. We are delighted to see this improvement in our Greenville daily. Greenville is an enterprising and progressive city. Mr. Williams is an able writer, and we hope to see the Greenville News prosper.

There is but little doubt that there will be two State Conventions held this year-one some time in May, to elect delegates to the National Convention, which meets in St. Louis, June 5, and another later on, to nominate a State ticket. The suggestion comes, that one of these Conventions be held in the upcountry. Columbia, of course, don't like this, and the Register kicks. We take the suggestion to be a good one, and we would beg to favor that the latter Convention be held in Greenville this year. Make an experiment of this in the departure from the custom heretofore prevalent. It might prove a

THE DUDLEY CASE.

A Confession of the Conspiracy to Defraud Insurance Companies.

[Special to the Chronicle] Charleston, S. C., March 3.-The fa-

mous Dudley insurance case came to an unexpected end to-day. Two of the three conspirators made a confession before the coroner's jury, admitting that the whole thing was a job to swindle the insurance companies of \$10,000 insurance money. The job was put up by Mary Dudley, a negress, and Dr. Jas. P. Bond and Thomas Bond, the latter being the agent of the insurance companies. They procured a corpse from the potter's field, dressed it up and passed it off as the husband of Mary Dudley, whose life was insured in the United States Mutual and Travellers' insurance companies, both "accident" companies. The confessions were made by Henry Mathews and Frank Evans, two negroes who snatched the body and assisted in the subsequent burial. The verdict of the coroner's jury was as

COLUMBIA, March 6.—The case against vagrant wife beaters and other petty offenders; third, the establishment of a Louisa Burt, all colored, for the murder county criminal court for the trial of of Jake Burt, also colored, a mute, was en, at Piedras Negras, Mexico, in re- petty offenders. There is already a law tried in Edgefield this evening. The on the statute books authorizing the evidence was entirely circumstantial. After proving that Jake's dead body was found buried thirty yards from his house, his hand and heels protruding from the ground, the State only connected the prisoners with the crime by showing that they were the last ones seen with the deceased on Sunday night, the fourth of December, 1887, the night that he was killed. His skull was fractured in two places by blows from an axe. The jury now has the case under conideration.

A Report on "Trusts."

ALBANY, March 6.-The general laws committee of the Senate, which has been taking testimony in New York and elsewhere recently, on the subject of "trusts" of various kinds, made its report to-day. The report says: "However different the influences which gave rise to these combinations may be, the main purpose of the management and the effect upon the public the same, to wit, aggregation of capital, power of controlling the manufacture and output of various necessary commodities, the acquisition or destruction of competitive properties, all leading to the final and conclusive purposes of annihilating competition, and enabling combinations to fix the price at which they would purchase raw material from the producer, and at which they would sell the refined product to the consumer. In any event the public at each end of the industry, producer and consumer, is, and is intended to be in a certain sense, at the mercy of the syndicate,

Debate on the Pension Bill. WASHINGTON, March 6.-The Senate at 2 p. m. took up the pension bill, the question still being on the amendment of Wilson to insert the words "from the infirmities of age." After brief speeches by Berry, Manderson, Sherman, Teller and Beck, Ingalls, the presiding officer, having called Platt to the chair, proceeded to address the Senate, the galler- said County, during the legal hours of es being crowded to their full capacity. He said that considerations of deco-

rum and propriety (perhaps excessive and over-strained) had deterred him from participation thus far in the debates of the Senate. He had, therefore, been surprised one day last week on returning to the chamber after a brief absence, to learn that the Senator from Missouri, (Vest), had referred to him in terms not complimentary, in a debate in which he had taken no part, intimating that the people of the District of Columbia were incapable of disinterested patriotism, and that the sordid plunderers.

Spreckles to fight the Trust,

[Special to the Baltimore American.] PHILADELPHIA, March 4.—Claus Spreckles the Millionaire sugar king of he Pacific slope and the Sandwich Islands, arrived here last evening. comes to establish a big sugar refinery in the east, and to fight the gigantic sugar trust. He proposes to crect his new refinery either in New York, Philadelphia or Baltimore, whichever city ofclaimed that it belonged to her. The fers the best advantages. Mr. Spreckles in a talk with the American correspondmoney found on Jackson was part of ent spoke favorably of Baltimore as a good site, but said he had not yet settled upon either city. He will probably pay Baltimore a visit shortly, and earn of its advantages. Philadelphia proposes to make a contest for the big onimercial plumb. Business men of this city are courting the sugar king, in the hope he will locate his proposed refinery here. Said a Philadelphia business man to-

lay: "If Baltimore wants this refinery they'll have to beat Philadelphia." "So long as I live," said Mr. Spreckles last night, "I will never go into any 'trust.' I will erect a refinery either here in New York or Baltimore, and I will carry it on with my own capital and I defy any trust to break me up.
