The following negro loafers were up before Trial Justice Blease on last Wednesday, on the charge of vagrancy : Will Marshal, Simon Thompson, Dave Gallman, John Davis, Marion Thompson and Seth Ward. They all gave bond for good behavior for one year, and upon payment of costs were discharged. On Monday another warrant was sworn out against Melissa Fair, and she likewise gave the bond and paid the costs and was discharged. The arrests have had a very good

A CONTEST FOR A PRIZE.-Juno, Venus and Minerva had a contest for the prize of beauty, and the critic Paris awarded the prize to Venus. So perfect was she that Momus, god of mirth and she made a noise in walking as she retired from his presence. Had she lived in the present age and favored us with a sitting for one of those silent, life-like portraits, with our fine scenery for a back-ground, and unique accessories for relief, it would have saved her the satire of even the mirthful Monrus, as the picture would have been an improvement on the original, without the noise. By the way, we have just re-ceived a very fine lot of the latest style of combination picture frames from card size to 25x30 inches.
