We think the resolution adopted by the convention on Saturday a good one, or that part relating to primary elections being put under State control. Our Legislators should think of this and at the next session of the Legislature if we are to continue to have primary elections for nominating candidates, let us have a statute on the subject.

The annual reports of the president and treasurer of the Building and Loan Association, show the association to be in good condition and a good institution for Newberry. The stock seems to be worth a little more than 40 per cent. its par value. It has been a great institution for Newberry. We would be glad to see a little more building going on.

Dr. Jas. McIntosh in his annual report as president of the Building and Loan Association, states that of the 57 loans showing on the treasurer's books 45 are to stookholders secured by mortgage and pledge of stock, and 2 loans to stockholders with personal security. This is a good showing and proves that the association is doing good for its own

and another candidate to be voted for at this time which makes it doubly incumbent upon all the voters turning out. County pride should bring every Democratic voter in the County to the | the claims of two candidates for Conpolls next Tuesday. The nomination of a Solicitor of this Judicial Circuit has been referred to the primary, and Newberry has a candidate in that race -Col. Osborne L. Schumpert. He was a gallant soldier in the war though but a boy. For twenty years he has done noble service for the democracy, working with untiring energy and signal ability in whatever position he was placed. He is a true and tried son of Newberry. An able advocate, learned in the law, he would make a Solicitor of whom all Newberry would be justly proud. Then let us, every man, turn | the hotel at Warrington. Each candiout and cast a vote for O. L. Schumpert for Solicitor. If we ever expect to have anything outside our county we | Hughlett took the \$2,000 and Dryden must pail together, and now is one rushed down the stairs and ordered the time we should do it. There are three other counties in this Circuit, Laurens, Spartanburg and Union. Laurens has a candidate, Sportanburg has two candidates, and Union's candidate, Col. David Johnson, jr., has withdrawn solid vote in his own county, his chances are good for the nomination.

We hope our people will take interest enough in this election to turn out, and have county pride enough, if nothing more, to vote for their own home man, toss up was to take his choice. AT THE MERCY OF THE TRUST.

The Jute Manufacturers have the Farmers by the Throat-No Help for Them.

[Special to Register.]

Just now the Cotton Bagging Trust is a most fruitful theme of conversation on 'Change. It may be as well for the readers of the Register who make cotton to understand the situation. Some farmers in their just indignation against this most outrageous imposition are resorting to all sorts of devices to do without jute bagging. There is, however, no help for them except in Congress. They are obliged to use jute bagging or withhold their cotton from market. Of course, those who can sell their cotton to the local factories can bale it as they please, but cotton which is sent to any seaport must be baled in jute bagging.

A case in point occurred here to-day. Eight bales of cotton baled in what is known as gunny bags were rejected by the shippers as unmerchantable. The man who shipped them will have to pay for their rebaling here, and so will every other farmer who ships his cotton to a port not baled injute bagging. If any factor writes to a farmer to send his cotton along in any kind of covering, the farmer, if he is wise, will not do it. In order to be shipped, cotton must be baled in jute bagging, and the farmer need not be told that he has got to pay for the bagging, whether he knows it or not.

The jute manufacturers have the farmers by the throat and there is no help for him. The talk about pine straw bagging is purely ephemeral. A very good article of the kind is manufactured at Wilmington, but one factory can hardly supply material enough The writer of the article published in The farmers' only hope is in Congress. and that by reason of its illegality its my hands, not necessary to mention, that while there is dissatisfaction at levied and paid into the Treasury of the Register in regard to the County If Congress would come to their help result is not binding and of force upon and this is the way he repays them. The Which is published by placing jute bagging on the any Democratic voter of Newberry Misrepresentation is not the weapon of many rumors as to corruption in it are free list, there might be some hope of relief; but in order to afford any relief the action must be prompt and quick. There does not seem to be any proba-

bility of it, however. This is the situation plainly stated, and it would be as well for farmers to stare it in the face. It is pretty hard lines that the whole agricultural com-munity of the South should be at the mercy of a combination composed of a dozen manufacturers, but it is one of the inevitable results of the protective tariff. The squeeze, it will be remembered, was not thought of until jute was put on the free list in the Mills bill. That frightened the manufacturers. They saw in it the possibility of new factories springing up and of bagging going down in price, and then they vote polled at this time so as to get the combined. The only remedy is to adwill of the majority. Two of the most mit jute bagging free, and until this is done the farmers will have to submit to the squeeze unless they can afford to

hold their cotton.

But there is another race to be run | The Unique Way in Which a Deadlock Was Broken in Missouri.

> St. Lous, August 30.—The represen tatives of the voters of the Seventh Missouri Congressional District decided gress in a unique but not popular way last night. The District is known throughout the State as the Deadlock District. There is always a fight among the Democrats and always a "deadlock." The usual thing happened this year. There were four candidates for the place now filled by Mr. Hutton. R. H. Norton of Troy and Judge Robinson of Franklin were the strongest in the Convention, but neither had enough

votes to secure the prize. One hundred ballots were taken Tuesday and Wednesday. Then Nat. Dryden, a friend of Norton, and Sol. Hughlett, representing Robinson, decided on a plan to kill the deadlock. Accompanied by the two candidates, they repaired to a room in date put up \$1,000 in the hands of a stakeholder. A silver dollar was produced. Dryden flipped it in the air and Chairman to call the Convention to order. It was called forthwith, and

Robinson turned his votes over to Nor-

ton and nominated him.

The stories about the money differ. Some claim that when the agreement was made to "flip' for the nomination there was a supplementary agreement from the race. Col. Schumpert will that the winner should pay the expencarry nearly all of Union, a fair vote in | ses of the loser's preliminary campaign, Laurens and Spartanburg, and with a estimated to be \$1,000. Another version is that the \$1,000 put up by each side was in the nature of a forfeit to abide by the decision of the toss up, and to turn over delegates enough to nominate, and a third version is that each side put up \$1,000 to make a pot between which and the nomination the winner of the son deny that there was any cash feature about the affair. Among Norton's delegates, as the facts came out, there developed a feeling that the convention had put before the voters a man heavily

There may be other meetings similar to this one, as a feeling of unrest | people! and indignation is wide-spread among many of the people of the county. Mr. Samuel Duncan was made chairman of The resolutions below, introduced by perate in their utterances, but a spirit of earnestness characterized all that racy has never been disputed, but they, with hundreds of others, good citizens and Democrats of the county, feel that a great wrong has been committed, and they say to the few who are the main perpetrators of these unjust proceedings: "Thus far have you gone and no further must you go." They believe fraud and corruption have been practiced within the party in order to defeat those who have always been true to the party, and they simply intend not to countenance such any longer—

nor allow it. After the adoption of the following resolutions the secretary was requested to have the same published in the News and Courier and the three county papers, and to furnish along with them a statement expressing the feelings and this State just as competent and as de- is as follows: sentiments of those composing the

meeting: WHEREAS, At the recent primary election, held in the county of Newberry, on the 28th day of August, A. D. 1888, in the grossest and most willful violation of all the precedents, rules and regulations of the Democratic party of Newberry, persons of the negro race, with irresponsible vouchers, minors, non-residents, drunken persons and other illegal voters were all ordered to a ticket for delegates. A ticket was vote, and fraud and corruption were practiced in the purchase of voters, and voting the ballots of voters, and likewise intimidation and force were exercised in various ways, but especially in the free use of intoxicating liquors, thus accomplishing the complete destruction of all the sacred honor and former purity of the Democratic party, and traducing its good name in the county of Newberry; therefore

County. Resolved, That in the adoption of these resolutions we declare it to be our purpose to tenaciously adhere to the Democratic party, and to act within its lines, and in all our efforts and works under the same, our object is and shall be to effect the purification and purgation of the Democratic party of Newberry County of the vicious influences and practices used by the successful

party at the late primary election. Resolved, That we hereby demand and urge that the Hon. J. A. Sligh shall make a public exposition of all the actings and doings of those who have been instrumental in perpetrating the fraud upon the party at the late primary election.

SAMUEL DUNCAN, Chairman. J. S. WHEELER, Secretary.

A Letter from Hon. J. A. Sligh. To the People of Newberry County A great many of my supporters in the recent Primary Election expected and even demanded me to contest said

election. Now, since the time has elapsed for making such contest before the Executive Committee, they demand of me that I shall, in justice to myself and them, state my reasons for not appealing to said committee.

I fully realize that the opportunity before me for doing good to the whole County is a grand one, but I also realize that the responsibility resting upon me is indeed great.

In a short time I will give the reasons why I did not refer this whole matter to the Executive Committee for its decision, and I will also give my views on

the whole matter.
Irregularities of the grossest kind have been committed, and the Democratic party cannot remain still and allow fraud and corruption so glaring to go unrebuked. There may have been some irregularities, some instances of fraud, committed by my friends, but I do not know nor have I heard of a single instance. I know instances in which my friends discouraged the use of whis key and money in buying votes, as well as voting negroes, non-residents and minors. If there are such cases of fraud on our side, I for one say let them be shown up. The party, the friends of good government, cannot wink at such, but should openly stamp their disapproval upon all such methods of carrying an election within the Democratic party. A contest between brother Democrats should not be carried on by the use of whiskey, illegal and fraudulent votes and by voters in a beastly

state of intoxication. I am glad to give it as my opinion that but comparatively few Democrats of the county were guilty of such outrageous acts on the day of election, and that the sober, good and patriotic people on both sides disapprove of such conduct.

My appeal, therefore, shall be made to the people, and the protest that I shall offer in behalf of honest elections shall come before them; for they are generally right in such matters.

I with many others, firmly believe that, according to the righteous verdict of the people, the legal and qualified voters of the county, I have been nominated for the Senate, and this too after a heated contest in which every advantage was taken of me by false reports, by intimidating voters, by denving me in an indirect way the privilege of speaking to many of the people of the county, and by every false pretense that could be practiced. Indeed the treatment I received from those who were determined at all hazards to defeat me was the treatment at one time given to the radical and corrupt

leaders of the Republican party.

The true, honest, decent and reany effort looking to this end. spectable Democrats of the county should not and will not countenance such conduct towards any respectable memberment of the party for the grati-

which the Executive Committee in the others wish to accomplish is the puri-

Good and sufficient reasons why you should purchase your clothing at the emporium of fashion, where you canalways find a large and carefully selected stock of tailor-made garments that are cut, made and finished equal to the best of custom work. I guarantee to you a perfect fit, and the texture of all garments to be as represented.

Another reason is that you have the advantage here that you would not have at a tailor's is, you can come here and make your selection of a suit and udge the pattern when it is made up, and if the first suit does not fit you can try until you are satisfied; on the other hand you cannot tell how a suit is going to make up from piece goods; often it is not satisfactory to the purchaser; if it fits he is obliged to take it; then, again, the delay in making a suit or altering a misfit, which will never fit afterwards, thus you see you have none of these objections here. You will find garments made of the best of imported goods and merchant tailors' patterns. This stock embraces a vari-

ety of styles and sizes. I have extra sizes, longs and fats, to fit all shapes of

riety of men's shoes, both fine and medium grades, in all sizes, which I guarantee as represented. I have always on hand a large assort-

ment of trunks, valises, and tourists for ladies and gentlemen, in all grades and prices. This line has become quite popular with the public; it is the largest line that is carried by any house in the State. I have all the latest improvements that is made in these goods. Call and see what I have, and if you need anything in these goods I am satisfied you will make your purchase here. There are other reasons too numerous to mention here. Reading appreciated by an inspection of my immense stock, hoping you will do so at your earliest convenience. You will feel at home here, and everything you purchase is reliable and will give you perfect confidence in what is told you
