Postmaster General Dickinson's Eulogy on the President.

DETROIT, MICH., September 26 .- The campaign in this city was opened tonight by the Democracy with a big demonstration in honor of the visit of Postmaster Dickinson, Gen. John C. Black, Ex-Senator Joseph E. McDonald and other distinguished guests. At 8 o'clock a parade, composed of numerous ward clubs, first voters, visiting delegations, etc., was reviewed from the balcony of the Russell house, and then the guests were driven to the rink, where they were greeted by an audience that filled every inch of available space.

Postmaster General Dickinson was the first speaker. He said he had unexpectedly been called upon to preside at this great meeting. He had told the committee of arrangements that it would not be just to the other guests for him to make any extended remarks. He would be in Michigan two weeks during the campaign, and all his friends would have an opportunity of hearing him on the issues of the campaign. The committee, however, had insisted that he should say something about the President, and this he would proceed to do. He said:

I have been asked to tell you something of the President, and in the brief time remaining to me I can say but very little of what is in my mind and heart on the subject. In the first place he has been, all the time, since March 4, 1885, President of the United States; no usurption of executive priveleges, no pruning of the powers of the people's chief magistrate, no encroachment upon the official rights of the chosen of sixty millions of free men, have been tolerated or permitted; several early attempts of the kind were resented with power and virile force, respectfully borne in mind by the upper House of Congress. His rugged, masterful personality since he took his seat, his robust patriotism, like the heart of a system, has sent a vital current of health giving honesty pulsating through all the arteries of the public service. "Public office is a public trust" has not, as used by him, been merely a smooth phrase, catch-words of the stump and canvass. Consistently squaring his official action by the spirit of the maxim, as by the commandment, he has made it the rule of conduct, practical, of every day use in all public business in every department, and in all highways and byways of executive and ad-

ministrative action. In the political atmosphere of the capital the President was for a iong time a phenomenon, a puzzle and an enigma to those accustomed to the old conditions. It is said that at one time | Produce Exchange, was announced on in the history of Zululand there was an abnormal season of rainy weather; the heavens were overcast for weeks and months, and life had settled down to accommodate itself in its ordinary avocations, to the change. Suddenly one day there was a remarkable appearance in the West; a light like fire streaked up to the zenith and down to the horizon from a common centre. The king and court, awe-stricken at what seemed portent, summoned the wise men from all over the land to interpret the sign or to account for it. Some gave one explanation, some another; some said that it was the beginning of the end of the world; some that the moon had fallen. At last, in the confusion of the counsels and contradictory theories, a plain old fellow from the backwoods came along, took a look at the wender and said: "Why, its just simply goin' to clear off," and that what they saw was the oldfashioned, familiar God's sunshine, and a glimpse of the blue vault of

Dickens tells us that at one time there was great excitement among the learned men of England over the discovery of strange figures and characters upon fragments of stone which came to light in some excavations. Archæologists, students of Roman antiquities in Britain, scholars and readers of ancient Egyptian inscriptions, Sanscrit scholars and others gathered from far and near to view and, if possible, decipher this message from the pre-historic age. not known until the builtin issued I recovered from the shock such a sight Allison, a furniture dealer. The piston Scholars quarreled; theories conflicted; this afternoon. several societies went to pieces for opinion's sake; the world of culture was in an uproar, when a very common person came along, looked over the fragments and broken letters, changed them about, made the pieces fit and spelled "Tom Nokes, his mark." And so the politicians of the country, accustomed to perverted statesmanship and perverted methods, and perverted polices-those who were trained for a generation to consider public men and politics as the game of gamesters-did not at first make out this President of ours. As he started on his way the to the match. Mrs. Heindel is a beau- possible and make one supreme effort heaviest losers. The damage to the street, whose suspension was announced Senate attempted to crowd him. The chariot of the American house of lords drove against him and was ditched. COLUMBIA, S. C., September 27-Twenty out of twenty-three members show that the past week has witnessed put in the field.

A committee of nine members, one from each Congressional district, and two at large, was appointed to name an electoral ticket. They reported the following: At large, E. M. Brayton and T. B. Johnson, 1st district, E. A. Webster; 2d, E. J. Dickenson; 3d, R. R. Tolbert; 4th, F. A. Saxon; 5th, H. L. Shrewsbury : 6th, E. H. Deas : 7th, Z. E. Walker.

Dickenson, Saxon, Shrewsbury, Deas and Walker are colored, but a faction of the State committee were much dissatisfied because four white men had places on the ticket and the report provoked strong opposition, W. D. Crum and R. C. Browne, of Charleston, were candidates for the electoral board and made a bitter fight against the adoption of the report, laying great stress upon the fact that Charleston was unrepresented on the ticket. The discussion lasted for hours, but the report prevailed at last, and the persons named were chosen. The colored Charlestonians were almost angry enough to bolt. A committee consisting of Brayton, Miller, Swails and Heriot was appointed to wait on Govquest him to give the the Republicans representation on the county boards of

An Ostrich Race.

Cleveland as Texas is.

A writer in the Providence Journal gives some interesting facts in regard to an ostrich from near Los Angeles, Cal., owned by Dr. J. C. Sketchley. He has sixty acres devoted to ostriches, having imported thirty pairs of these birds directly from Africa, landing them at Galveston, Tex. He also brought with them four Madrasese men and women; these people being thoroughly familiar with the habits of the ostrich. Their food is corn and alfalfa, the latter a kind of California grass. of which at least half a dozen crops are mountains in the country are covered frequently cut off the same ground in one season. These ostriches weigh from 300 to 400 pounds each. The male bird is black and the female gray, and they are valuable chiefly for their feathers, the finest of which sell for \$4 apiece, according to this account, while good common feathers bring \$200 a pound. The price of a full-grown pair of birds is from \$700 to \$800, and young birds, six months old, cost from \$150 to \$200. They are a very long-lived creature, sometimes reaching the age of eighty years. The article closes with the following account of an ostrich At a command from the doctor, one

of the Madrasese keepers opened the door of one of the pens, and, in response to the doctor's call, two superb caressing the gentle creatures for a few moments, he showed them a handful offigs, of which they are extremely fond. Two of his men then restrained a signal from the doctor, the birds were ed to me these birds covered fourteen feet at every stride. Like the wind they came, their great necks stretched forward and upward to their utmost with a motion similar to that made by came, their speed increasing with every moment, till I was almost terrified lest they should run us down, feeling certain that we could not withstand the of us, when he turned his head, and, seeing that his competitor was considceived his reward in figs and caresses.

A lady tells They were afraid of the fever contagion increased his lead till within a few feet of a visit to far-off "Tangier," the town so much so that when they left Birthat England once held, and which mingham, the gentleman purchased would even now be an important hold eighteen first-class tickets for himself erably in the rear, he slackened his beside Gibraltar. "Three Days on the and wife, thereby securing the exclupace, and, jogging up to the doctor, re- Summit of Mont Blanc" gives a picture sive use of the car for the trip: In that of what our martyrs for science, even stately and reserved but doubtless perin these days of modern improvements, fectly safe style they made the journey, are compelled to endure. The stories while the ordinary passenger rolled and adventures in the number are all along in crowded cars subject to the

BOSTON WOMEN WILL VOTE.

the Polls.

From the New York Herald.

Boston, September 26.-Women are flocking to the City Hall for the purpose of being assessed, as a pre-requisite to voting, in such numbers as to utterly overwhelm the assessor's force.

Nothing like it was ever known. At the present rate the total at the close next Monday night will reach 12,000. The greatest previous number was less than two thousand.

ALL ABOUT THE SHOOLS.

The cause of it all is the agitation which Justin D. Fulton and his coterie have stirred up over the public school juestion. The law provides that female citizens may vote for school committeemen in all town and city elections provided they are assessed, pay fifty cents poll tax, and are registered. The city elections in this State all come in December, and it is against this day that all this preparation is making.

Swinton's history, with its paragraph about the sale of indulgences, was tabooed by the school committee early in the summer, and a high school teacher, who had commented on the subject in a manner which wounded the feelings of his Catholic pupils, was transferred to another post of duty. The agitators including some of the most prominent clergymen in the city, seized upon this as an evidence of the Jesuits' alleged determination to wreck the American public school system, and a campaign started which is resulting in this rallying of the women in defence of what they consider their imperilled

The watchword, as given by one of the speakers at the great Faneuil Hall meeting in June, was: "No more Catholics in the school board, no more Catholic teachers in the schools."

Meetings are held nightly all over the city and in the suburbs, at which Protestant women are urged to register and vote, and the result is something vonderful.

THE OTHER SIDE

Archbishop Williams. O'Reilly, of the Pilot, and Editor Maguire, of the Republic, look upon this crusade with equanimity, confident that such intolerance will only injure ts abettors. They are outspoken against retaliation and advise the women of their church to abstain fromenrolling themselves, preferring to let the storm blow itself out. Certain Democratic politicians have, however, taken a different view of the situation. and within the last few days Celtic and Italian faces have begun to appear in the throngs about the assessors. Today it was estimated nine Catholic wo-

men were assessed to every Protestnat. KNOW THE ROPES.

Women of all classes crowd the corridors and stairways. Some of them ern Missouri. The indications are that have their babies in their arms, others are apparently out shopping. Still morning in the States of the Ohio others more strong minded are election-Valley, and that light frosts will occur eering. All are apparently in dead in exposed places in the Northern por- earnest. The innocent creatures don't all seem to know the difference besee, also in the West portion of North | tween assessment and registration. Carolina and Virginia and in the in- From the nature of the case it is fair to terior of the Middle Atlantic States presume that the vast majority of the Protestent women will be able to meet all the tests of the registrars, but the foreign born women may find it difficult to satisfy the naturalization laws. A deal of bad blood is being stirred up over the question, and the municipal election will probably be the most

> THE REGISTRATION GOES ON. Boston, September 28.-There were

bitter in the history of Boston.

5,247 registered to-day, against 4,120 yesterday. Total number of women registered to date 17,617.

ACCIDENTS IN ANDERSON.

An Infant Fatally Scalded-A Little Boy Hanged in a Cotton Weighing Rope.

ANDERSON, September 27 .- Miles H. McGee's eight month's old infant was scalded to death yesterday morning. Mrs. McGee put it down on the floor in front of a fire, where a kettle of hot water sat, and stepped out. She heard it scream out and ran to it to find its lower parts so burned by the hot

A three-year-old son of John Patterson was found yesterday in the cotton house hanging in the rope where they weighed cotton, cold and stiff in death.

They Took a Whole Car.

[Greenville News, September 26.]

One of the passengers on the north bound Air Line passenger train Monreturned last night, and to a Daily News reporter he told of a remarkable and the Piedmont escarpment.
