

The Herald and News. For The Herald and News. From Beyond the Mississippi. PLACEMEN, LA., July 2, 1889.

ELBERT H. AULL, Proprietor. W. P. HOUSLEY, Editor. NEWBERRY, S. C. THURSDAY, JULY 11, 1889.

We publish this week a short editorial from the News and Courier in which it is said that a refinery for working the crude cotton seed oil is wanted in this State.

That is what we want, and the time to build it is now, before all the mills that have been built were either built by it or are now controlled by it.

While on this subject we would like to ask, what has become of the effort to build a mill in Newberry? Are our people afraid of the trusts, or do they think we do not need any money invested in such manufacturing enterprises as cotton seed oil mills, or do they think it best for the farmers and the town to let the cotton seed be shipped away and the meal shipped back to us for fertilizer.

That road congress. The Columbia Register claims to have advocated the holding of a road congress some years ago, but does not care who is the originator of the movement, just so the congress is held.

Any change in the road law or system of working the roads is to be presented to the Legislature it is time the plans were maturing so that our legislators could be studying the suggestions and be prepared to discuss them and offer other suggestions and improvements.

But to the congress. We would suggest Greenville as a good place to hold this congress, and some time in August as a good time.

A relic of barbarism. People who stop to consider the actions as men must sometimes ask themselves whether we are fully civilized or not, even with all our boasted civilization.

Benediction.—Rev. J. D. Huggins. After the exercises were over ice cream was furnished and all had a pleasant time.

County Alliance. Election of Officers.—Other Matters of Importance.—Arrangements for Farmers' Institute in August.

We take the following account of the meeting of the County Alliance from the Press and Reporter. The meeting was held at Prosperity on last Friday.

The following is a list of the most important committees appointed: 1. On weighing cotton.—one member from each Alliance with John B. Felles as chairman.

On the establishment of warehouses and on the days on which Alliance cotton shall be sold.—J. A. Slight, Jos. L. Keitt, R. T. C. Hunter, J. P. Crosson, W. C. Slight.

On co-operation.—H. H. Folk, chairman. On the appointment of Executive Committee.—John W. Scott, B. B. Schumpert, G. D. Hentz.

On the holding of the Order.—R. T. C. Hunter, H. H. Folk, J. A. Cromer. On the following committee was appointed to see what arrangements can be made for fertilizers for another year: J. F. Banks, J. A. Slight, W. B. Boines.

The following preamble and resolutions were adopted: 1. That this County Alliance endorse and sustain the action so taken and adopt cotton tagging for the present crop, and that we at once proceed to ascertain the amount which will be needed for sub-alliances and authorize our trade houses to send in their order to the company authorized to manufacture such tagging.

2. That as our efforts are in favor of all farmers out of, as well as in our Order, that we secure as far as we can their co-operation in this endeavor to punish or destroy a Trust that has oppressed us to the extent of its power, and would still oppress it possible.

3. That we will not regard as friendly to our interests any merchant who handles Jute Bagging, except so far as the amount of cotton bagging made in this county is concerned.

Fourth of July Among the Colored People of Newberry. To Editor of The Herald and News: There is a "trifle" saying among them "Snowed under in July." It fully illustrates the condition of the Anti-Whit-mirre faction in the Post-office fight.

Henry Kennedy, the Hamilton of the Republican party in this county, gathered his clans from the outlying posts and as proscribed by the press some time since "there was music in the air." A big demonstration was proposed by the Anti-Whitmirre, when they expected to have a brass band from somewhere in the rural district, discoursing such natural airs as "Rockaway," "I'm a get you hair cut," &c., &c., &c.

The following officers were elected to serve from July 1, 1889, to July 1, 1890: W. B. Boines, President; J. L. Keitt, Vice-President; John R. Banks, Secretary; W. B. Boines, Treasurer; J. W. Scott, Lecturer; J. N. Calmes, Assistant Lecturer; J. F. Quattlebaum, Chaplain; Sidney Knight, Doorkeeper; B. H. Poyner, Sergeant-at-Arms; J. A. Cromer, Treasurer.

On the establishment of warehouses and on the days on which Alliance cotton shall be sold.—J. A. Slight, Jos. L. Keitt, R. T. C. Hunter, J. P. Crosson, W. C. Slight.

On co-operation.—H. H. Folk, chairman. On the appointment of Executive Committee.—John W. Scott, B. B. Schumpert, G. D. Hentz.

On the holding of the Order.—R. T. C. Hunter, H. H. Folk, J. A. Cromer. On the following committee was appointed to see what arrangements can be made for fertilizers for another year: J. F. Banks, J. A. Slight, W. B. Boines.

3. That we will not regard as friendly to our interests any merchant who handles Jute Bagging, except so far as the amount of cotton bagging made in this county is concerned.

4. That we do not see on foot some plan by which Alliance men may procure fertilizers for crops of 1890 on the best possible terms, so that if satisfactory terms cannot be secured then we will firmly resolve as a unit not to use cotton fertilizers for the present year, and we refuse to receive fertilizers unless put up in cotton sacks.

The Johnsons' Losses. A Careful and Conservative Estimate Values the Property Destroyed at Between Eight and Nine Millions.

Johnson's, July 8.—Secretary Davies, of the board of inquiry, has made a compilation of the losses, reported and estimated, which the levee has caused. There is a very conservative estimate placed upon all losses by the board. In determining the losses allowance has been made for property that has been saved, land raised, and the like.

Aggregate of local commission's estimate of loss in classes 1, 2, 3, 4, and 5 is \$4,701,941. Total number of cases in these classes is 3,741. The levee is estimated to have destroyed 1,100,000 bbls. of cotton. The total loss is \$1,100,000. The total loss in Class 6 is \$1,100,000. Number of cases 41. Average loss \$2,200. Aggregate loss of Class 6 is \$90,200.

On the following committee was appointed: 1. On weighing cotton.—one member from each Alliance with John B. Felles as chairman.

On the establishment of warehouses and on the days on which Alliance cotton shall be sold.—J. A. Slight, Jos. L. Keitt, R. T. C. Hunter, J. P. Crosson, W. C. Slight.

The Congaree Bridge. Getting Ready to Open Water Navigation Between Charleston and Columbia.

The correspondent of the Sunday News at Columbia sends the following: It was to day learned that Capt. Abbot, chief of the United States engineering corps for this State, has written to parties in the city that he proposes to open the Congaree river for navigation up to Grandy as soon as the Congaree Bridge is recognized by the Government as a draw bridge, which Capt. Abbot says he cannot accept in its present condition.
