THOS. Q. BOOZER,

The Change not to be Made. It had been reported for some time that the train now run on the Greenville and Columbia Railroad between Prosperity and Anderson would on or about the first of October be extended and run to Columbia and Seneca. It is now reported that this was all newspaper talk and that the railroad officials know nothing of it. The railroad officials say that the train as now run does not pay expenses. It was hoped that the train would run from Columbia to Seneca and that it would be made a mail train. It seems to us that it would not cost the railroad much more and certainly would be more profitable and a great convenience to the travelling public.

We would be glad to see the change made and have the train made a through train. Now is Columbia's opportunity to bestir herself and induce the railroad officials to run the train through. It would be a great convenience to Col-

The fall session of Newberry College began yesterday morning. All the professors were present and this week will be taken up in the examination and classification of students. The enrollment will reach one hundred by Monday next. We are glad to know that the prospects for berry College is doing a good work and should receive the hearty support from theran Church in the South.

Her Prayers Useless. An Augusta family was about to move down the river into what was reputed to be a malarial country. In the family was a little girl. She, like her mother, did not care particularly about making the trip. She was saying her evening prayers at her mother's knee the night before her departure. After finishing those she had been taught, she surprised her mother by adding, with paculiar emphasis, "Now, doodbye, Dod, to-morrow we are doing to

Sleey Hollow." The pathos of this leave-taking would have lost its import if that family had brought with it a supply of Dr. Westmoreland's Calisaya Tonic. As an antiperiodic and stimulant, and as an eradicator of malarial poison and safeguard against its inroads, it is the medicine of the age. No family in malarial districts can afford to be without it. For sale by Robertson & Gilder.

To Editor of The Herald and News: -If I can understand Mr. Haskell's position it is just this; any way to beat Tillman; an appeal to the negro vote to beat Tillman. Tillman cannot be eaten without this. It may be that he is worse than Chamberlain. It may be that his nomination is a disgrace and shame to the State. It may be that his election would be rubbing it in. All this may be true. But still it is a fact actively engaged in the practice of medicine in Newberry for more than half a century. His health now is comparatively good. From Judge O'Neali's annals of Newberry we learn that a second primary that may be true. But still it is a fact that he is the choice of a large majority of the Democratic party. Would it is well to divide the Democratic party—to appeal to the colored vote to defeat a man who is objectionable to a small, and only a small majority of that party? We think not. We do not like Ben Thiman. We think his speech made on the reception of his nomination was shameful and disgraceful to the man. But the majority have nomi-
