THE STATE ELECTION.

As stated last week the election in this State, on the 4th inst., was the a disturbance of any character is reported. Upon this fact we may congratulate ourselves. Not that we feared and the city of Newberry that we any serious trouble, but during the should have better accommodations in whole of this year we have had a most exciting campaign and many people did not know exactly what to expect. The negroes behaved admirably. They recognized the fact that this was a to the town and a credit to the railwhite man's fight, and, as they had no ticket in the field, they attended to their daily business and did not bother with the election. Very few of them turned out to vote at all.

Another fact, which is a matter of congratulation, is the success of the regular Democratic ticket, by an overwhelming majority. This is evidence that the integrity of the party is maintained and the white people of the State are going to stand together.

Judge Haskell and his ticket take their defeat in good spirit and accept the result as it has been declared at the ballot box.

The vote polled was very light, not being much over half the Democratic vote of the State. Exact figures cannot yet be given and will not be obtained until after the official count is made. The total vote, however, in round numbers is about 50,000, of which the regular ticket received about 40,000, and the Haskell ticket received about 10,000, making Tillman's majority House. about 30,000.

Now that all is over, we hope to see such action on the part of both factions as will get them back together and that by the time another election comes around we may present an unbroken and united frout.

Let the past bury the past, and let all of us look hopefully to the future performing our parts manfully and as the duties present themselves in the present. There is no use arguing and disputing over what might have been.

If we look back too much at the rocks over which we have stumbled we may get a much harder fall over some rock just ahead of us which we cannot see. Then let us keep our eyes to the front ever pressing onward and upward. Six out of the seven Democratic Con-

gressmen have been elected by large majorities and it is thought Col. Elliott is also legally elected.

The thing to do now is to go to work and develop the resources of our State and keep her moving forward in the march of progress. There are great things in store for the South and there is no better place in all this Southland than within the borders of South Caro-

THE GREAT DEMOCRATIC VICTORY. The Democracy has swept the whole country like a tidal wave. It was an uprising of the people. The Demo-

cratic party is the poeple's party, and the people generally mean business. The next Congress will be so largely Democratic that the Democrats will have a quorum, and some to spare, if no Republicans are present at all.

This throws upon them a very great responsibility, and they should be conservative and make no mistakes, for the big battle is to be fought in 1892.

According to the figures of the New York Sun the Republican party has never been so small in Congress since it assumed that name in 1854, as it will be in the next Congress. In thirty-five years of its existence only once before have there been less than 100 Republicans in Congress, and that was in the Thirty-fifth Congres, to which 92 Re- lady of Fairfield County, for which publicans were elected in 1856. The party started in the Forty-fourth Congress with 108 members. This year 94 Republicans have beed elected to the Fifty-second Congress. Never since the Republican party was organized has either party controlled the House by such a majority as the Democrats will have in the next Congress. "In the Forty-third Congress the Republicans had 198 Representatives. In the Fortyeighth the Democrats had 200. In the Fifty-second Congress, according to the latest figures, there will be 238 Democrats." This is the first time in the history of the government that so great a change has been made in the political complexion of the House by a single election.

The Democratic majority will be something like 144.

The Alliance in the West played an important part in securing this large Democratic majority.

In Kansas, for instance, the Republican farmers made a square fight against the Republican party and imbibed the principles of Democracy, and a legislature opposed to Senator Ingalls has been elected.

McKinley, the author of the tariff bill, has been defeated.

The results are glorious for the

Democrats everywhere. It is an uprising of the people against a government of monopoly and tyranny. It is an uprising of the people for the inauguration of those principles which are in the interest of the people as against combinations. These principles are found and taught and practiced in the Democratic party and hence the results. The people will turn aside from any political party and

the business interests of the country. We trust the present election means a burying of sectionalism and old animosities and prejudices, and that the whole country will begin an era of unprecedented prosperity.

Hon. Clark Howell, of Atlanta, &a., has been elected Speaker of the Geor- Edgefield County, and will move on it gia Legislature. THAT UNION DEPOT.

We thought that by this time work would have been commenced on that union depot that we are to have at Newberry in the near future. It is very much needed. The accommoda-

tions are not what they ought to be. We understand from the officers of the C., N.& L. R. R. that they are ready to begin work on the union depot, but can get no answer from the Richmond and Danville folks as to when they

We can see no reason for delaying this work, especially when the Richmond most quiet and peaceful ever held. Not and Danville folks need a passenger depot as bad as the C., N. & L.

Then it is due the traveling public this line.

We hope these two roads will get together and put up at an early date a union depot that will be an ornament

THE CAPTURE OF CONGRESS.

The Democrats Will Control the Next House with 144 Majority Less than 100 Republicans Elected.

The election for representatives in the fifty-second Congress, which meets in December, 1891, resulted in a superb victory for the Democrats. The Republican majority of 24 in the Fiftyfirst Congress has been overwhelmed and the Democrats come to the front with a majority of 144, if not more, as the official count in several districts will probably increase it. The Republicans will certainly have less than 100 men bers. The Democrats will have solid delegations from fifteen State. In the Fifty-first Congress they have solid delegations from five States.
