OLD THANKSGIVING FUN. Talmage Recalls a Thanksgiving of His

NEWBERRY, S. C.

Boyhood.

T. De Witt Talmage, D. D., in Ladies' Home Journal.] How my mind is crowded with Thanksgiving memories! On no other day does my memory become such a eidoscope, and as I sit here in my arkened room and write, almost every minute the scene changes. I give to the kaleidoscope of memory a turn, and there they are, natural as life, around the country hearth on a cold winter night. I hear the hickory fire crackle, and see the shadows flit up and down he wall. Games that sometimes wellnigh upset the chairs-"Blind-Man's Buff," "Who's Got the Button," "The Popping Corn," "The Molasses Pudding," and the witch stories that made the neighbors' boys afraid to go home after dark. Hickory nuts on one dish, roseate apples on the other. The boisterous plays of "More Bags on the Mill," "Leap Frog," "Catcher," around and around the room until some one got hurt and a kiss was offered to make up the hurt, the kiss more resented than the hurt. High old time! Father and mother got up and went into the next room because they could not stand the racket. Then, instead of compunctions of conscience, a worse racket. The mothers and wives came in the afternoon, all wrapmed up from the cold, and their feet on foot-stove. When they got warm d took out their needles and sat wn it was a merry group and full of ews. Once in a while a needle would lip and make a bad scratch upon the character of some absentee, but for the most part it was good, wholesome talk. And in the evening when the young people came and the old people were in one room and the young people in another, in the latter there was some lively stepping, while the black boy played "Moneymusk"; even grandfather in the next room, who had distributed many tracts on the sin of dancing, was seen to make his heel go. It seemed to me a great fuss and a great gathering to get one quilt made. But the fact was, that good neighborhood was quilted, warm sympathies were quilted, life-time friendships were quilted, and connubial bliss was quilted. And they stayed late. And such plays as you had in that back room when you joined hands, and one of the loveliest stood in the ring! What a circumference to what a centre! But now the scene is fading out. The old fireplace is down, and the house is down with it. One of those boys went to sea and was never heard of. Another became squire in a neighboring village. Another went to col-

Despite Wall Street's Flurry.

The Manufacturers' Record of November 15, says: The excitement in Wall Street, if long continued, would necessarily have an injurious influence upon all lines of business in all sections of the country, but as trade and manufacturing interests everywhere are prosperous, it is not probable that the stock jobbing operations of New York will have more than a temporary effect upon general business. Under any circumstances, though, the South is in a better position to stand even a panic than any other section. It has gathered big crops that will aggregate in value for the year nearly \$1,000,000,000, its cotton alone, including the seed, counting up this year between \$450,000,000 and \$500,000,000, every dollar of which it will draw from the North and Europe. Its farmers are practically out of debt, and many of them have a good surplus; its manufacturing interests are prosperous, and its railroads are crowded with freight traffic. The whole South is advancing rapidly, and if dependent upon its own financial resources could stand the strain far better than the West. But the enormous shrinkage in stock values in Wall Street will tend to drive money from that center of wild speculation to safer investments in Southern development and manufacturing interests. The decline

in 23 stocks on the New York Exchange since November 1 represents a \$100,000,000, and the people who have seen fortunes swept away like this will prefer to put their money elsewhere in the future. The daily accumulation of wealth in the United States is enormous, and it must find a field of investment somewhere. Driven from Wall Street speculations, and no longer finding any profitable openings in the West as in former years, it must inevitably turn to the South, Thus, instead of Wall Street's flurry injuring the South, it will help to drive a still larger volume of money this way. The past week shows continued activity in the organization of industrial enterprises and of townbuilding companies. Salem, Va., leads off with an appropriation by the several land companies there of \$500,000 in cash to secure the establishment there of a rolling mill, cotton mill, car works and other enterprises; in Buena Vista a \$1,000,000 company has been organized to build basic steel works, and three improvement and building companies with an aggregate capital of \$300,000 have been started in the same place; Glasgow has organized a \$100,000 car works company; Norfolk, with three land improvement companies a capital of \$700,000; Wheeling, W. Va., is to have new steel works; at Vicksburg, Miss., a \$600,000 phospate company has been chartered, and at Aberdeen, in the same State, a \$50,000 machine shop | FIRE, CYCLONES AND company; at Algiers, La., a \$75,000 brewery will be built ; Bessemer, Ala., has organized a \$100,000 pipe manufacturing company; Baltimore, a \$200,-000 company; Bartow, Fla., a \$50,000 manufacturing company; Blacksburg,

S. C., a \$40,000 stove foundry; Rusk,

Texas, a \$500,000 company to build au iron furnace, and Rogers, Ark., a \$40,-000 ice factory. These enterprises, scattered all over the South, show how widespread is the activity that is seen from Maryland to Texas. Without any fictitious speculation or wild booming the South is steadily pressing forward, building new towns, new railroads, new factories and furnaces, and everywhere shows evidence of activity

and prosperity.

The following is an extract from a letter written by the World Renowned Evangelist:

"I returned from Tyler, Texas, on the 12th inst. I find my wife has been taking Royal Germetuer to the GEEAT UPBUILDING of her physical system. She is now almost free from the distressing headaches with which she has been a MARTYR for twenty years. Surely it has done wonders for her! I WISH EVERY POOR SUFFERING WIFE HAD ACCESS TO THAT MEDICINE."

Rev. J. B. Hawthorne, Pastor First Baptist church, Atlanta, Ga., was cared of a long standing case of Catarrh. His wife had been an invalid from nervous headache, neuralgia, and rhoumatism FOR THIRTY YEARS, scarcely having a day's exemption from pain, After taking Royal Germetuer two months, he writes: "A more complete transformation I have never witnessed. EVERY SYMPTON OF DISEASE HAS DISAPPEARED. She appears to be twenty years younger, and is as happy and playful as a healthy child. We have persuaded many of our friends to take the medicine, and the testimony of all of them is that it is a great remedy." catthy child. We have persuaded many of our joints to take the medicine, and the testimony all of them is that it is a great remedy." Dr. King's Royal Germetuer is a boon to omen. It builds up the strength, increases the petite, ands digestion, relieves them of the twise of disease, and insures health. It is an infallible cure for Rheumatism, Nendria, Paralysis, Insomnia, Dyspepsia, Indistion, Palpitation, Liver, Bladderand Kidney isenses, Chills and Fevers, Catarria, all Blood diskin Diseases, Female Tropbles, etc.
