A Great Offer for the Ladies. Common sense and good judgment are the qualities for which our American ladies are noted. When they find any article which will add to the comfort of their homes or to their personal appearance they speedily adopt it, being quick to discover the superiority of the new over the old. It is to this trait that the firm of A. McDowell & owes the wonderful success of their French Fashion Journals among American women. Whenever these Journals are critically examined their superior merit is at once recognized. They not only give the styles one month earlier than the American Fashion Journals; but the variety, originality, and practicability of those styles lift them so far above all others, that they are now recognized as the of Crackers, &c., Atlanta, says Liberty Standards of Fashion for this country, as they have long been in France. "Seeing is Believing."

And a good lamp must be simple; when it is not simple it is not good. Simple, Beautiful, Good—these with the Rochester " & words mean much, but to see "The Rochester" will impress the truth more forcibly. All metal, tough and seamless, and made in three pieces only, it is absolutely safe and unbreakable. Like Aladdin's of old, it is indeed a "wonderful lamp," for its marvelous light is purer and brighter than gas light, softer than electric light and more cheerful than either.
