OUR PROSPERITY LETTER.
Prosperity, May 16.—Mr. Henry Summer, an aged citizen, is quite ill. Maj. Jacob Eiting, whose life was saved a few weeks ago, has recovered sufficiently to walk out on the streets.

The majority of our people are opposed to Sunday trains, but like Sam Jones, if his Satanite majesty were going his way he would ride rather than walk.

Keneth Baker, the cotton buyer, leaves for Charlotte tomorrow to take in the Charlotte Exposition. He will return after a week's absence, and buy more fine cotton at 7 cents per pound.

The only newspaper read here today, Monday as well as at all other other points on the C. and G. railroad and its branches, is The State. Truly The State is a new paper, and every body who wants fresh news, and news ought to subscribe for The State.

Yesterday Drs. O. B. Mayer assisted by E. A. P. and J. R. Langford performed an important operation on the person of Mr. Henry Summers. The patient was suffering with a prostate gland which fills nearly the entire cavity of the pelvis, and from which death would have followed very soon.

Trade is as good as usual at this season of the year, notwithstanding the depressing continued cries of certain people. I do positively assert, without fear of being called a visionary, that our people as a class, and as a general rule, are in a more prosperous and better condition to-day than they have been since the war.

Miss Anne Leese Day, of Chappells, paid her friends a flying visit last Monday. Prof. Wms. Welch, of Columbia, is on a visit to his parents.

Mr. Salter of Newberry has purchased and is improving the cottage formerly owned by Mr. John Sheppard. Mr. T. P. Lane returned to Columbia Monday after a pleasant stay at home for a few days with Mrs. Lane and the children.

Mr. J. T. Bagwell occupies the cottage vacated by section-master Byrd. He also has charge of the track between the village and Prosperity. We hope that the moderate shower of rain last week, which was of great benefit to the growing grain and vegetable alike, may be followed by other needed and refreshing showers.

For the first time in forty years a mail and passenger train passed over the Columbia & Greenville Railroad on Sunday. Now that the management has seen fit to depart from the good old ways of Judge O'Neal, and with it will go the beautiful little grove of original forest trees, unless it be presented to the village.

To those of Miss Eloise Welch's friends who did not read between the lines or by inference that she took the first prize, it was quite a triumph for Miss Eloise for she had been at Columbia Female College but one year. And though in a class of sixteen bright girls, who were reaching for figures thought to be placed beyond their reach, she was the only one who secured the excitement or disappointment incident to the contest, she reached the "Paradise" heights. Yes, Miss Welch won the first honors of her class.

Deaths.
Mrs. J. Z. Salter received a letter on Monday announcing the death of her uncle Mr. Wm. Sheppard, of Osteen, Fla., on April 20th, aged 61 years. He was a native of Newberry and a veteran of the Mexican war.

THE RISING OF THE RIVERS.
Furling Rescue of Fourteen Persons From a Perilous Position on an Island in the Missouri River.

NEW ORLEANS, May 16.—At 2 o'clock this morning Bonnet Carre levee, thirty-three miles from the city, gave way, and the indications are that a most disastrous overflow will be the result. From the best information received so far, the break is in the lower end of Bonnet Carre levee, and in the extreme end of Charles parish, about thirty miles above the city.

SAVED FROM A WATERY GRAVE.
ST. LOUIS, May 16.—The Madison levee gave way yesterday afternoon, and thousands of acres of farm land are now flooded. Fourteen men, women and children, all residents of Mullanphy island, thirty-six miles from St. Louis, were saved from a watery grave by a volunteer corps of prominent citizens of St. Louis.

ANOTHER BAD BREAK.
GREENVILLE, MISS., May 16.—The crevasse near Gaines Landing on the Arkansas side of the river, is 650 feet wide, and the water is flowing through at a depth of about fifteen feet. No lives have been lost. No attempt will be made to raise a crop of cotton in the flooded territory. So far the water to the end of the break have proven futile.

HOUSES FLOATING DOWN STREAM.
ST. LOUIS, May 16.—The Mississippi has about reached its crest and is not expected to rise more than five or six inches more. Reporters stationed on the Merchants' bridge in North St. Louis have seen several dead bodies floating in the water. Most of them have evidently come a long distance. It is now a common sight to see small houses and various articles of furniture traveling past.
