There is more Catarrb in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pro-nounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires cousttutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. F. J. CHENEY & CO., Toledo, O.

They telegraphed from Don- Tuesday, except the week which innald's, where they overtook her, that it | clades the State campaign | meeting at Newberry on August 18. That week there are only two meetings. The meetings were put together this way at the suggestion of Mr. Sligh who expects to be a candidate, for he said he thought it would be better for the candidates and give them more time at home.

Mr. Sligh then announced that Mr. Kibler was present and wished to make Arthur Kibler was elected chairman a request of the committee in reference to prohibition.
On ...otiou of Capt. Folk, Mr. Kibler

was permitted to make his statement. Mr. Kibler felt obliged for the privilege, and simply desired to request in behalf of the prohibitionists, that the Jones, D. B. Wheeler, J. C. Neel, and committee appoint one manager at each box who favored prohibition. They did not care whether he was for Sheppard or Tillman. The State Exceutive Committee had recognized prohibition and they felt encouraged to make the request.

Mr. Capers moved that the request be granted. Mr. Sligh thought the committee should first decide whether they would agree to the contract entered into be-tween Sheppard and Tillman on the subject of managers. And Mr. Capers

withdrew his motion.

Mr. Sligh said he didn't know whether he was familiar with the agreement or not and asked Mr. Hunt to state the agreement, which he

Mr. Folk moved that we adopt the suggestion or request of the candidates. Mr, Caldwell: "I would just say these few words. It seems to me such a fair proposition that the committee will not refuse it. We arebrotches ini nterest, brothers in blood and brothers in the wrong is politically wrong, and pro-ceeded to show the moral wrong of the furture of our country, and this is the only thing that will prevent censure hereafter. Every difficulty will be removed. Everything com's before this committee and if there is any irregularity this committee can make the proper corrections. It is sound political wisdom to adopt this suggestion." Mr. Capers: "The question comes up, is it necessary for us to act on this now! If we postpone this matter all the county papers will have the agreement this week, and all the members could read and study over and think about

Mr. Sligh: "I agree with Mr. Capers. It is not absolutely necessary to a point managers at this meeting, and it t is adopted whom will we appoint? After the thing goes on awhile men will be pronounced in their views and we can better select managers."

Mr. Sligh then moved to postpone the matter to a future meeting.

Mr. Hunt: "I haven't a copy of the rules, but it is my understanding that it is imperative that managers be appointed at this meeting. I feel very much in favor of postponing, but there is no way around it except to take a re It was found that the rules made it

Mr. Liunt: "It is another thing whether we will adopt the request of Sheppard and Tillman. If we agree to-day to adopt the suggestion we can act more intelligently in the appointment of managers, if we know we are to have two managers. Sheppard and Tillman." Mr. Capers: "I think we had better wait and confer. I read in The State this morning-a paper I don't often read-that it advises that they wait in Richland in the matter of appointments, and I think we had better wait a little. Men ought to read the agr e- at ment and digest it.'

The Herald and News, man here offered to procure the agreement which he did and it was read from the Register. It is as follows: AIKEN, S. C., July 6.—The next primary will be as fair as both sides can make it, as will be seen from the fol-

lowing agreement entered into by the candidates of the two factions: We, the undersigned candidates for Governor, hereby request the Democratic Executive Committee of each and every County in the State to so divide the Board of Managers (including the clerks of each board) of the primaryelections to be held on the 30th day of August, 1892, as to give each of the factions of the Democratic party in the State equal representation on said board. And we further request that each faction shall have the right to recommend two men from each club to the Democratic Executive Committee of each County; and that the same be appointed upon the Board of Managers for the club for which they are

B. R. TILLMAN. J. C. Sheppard. Mr. Hunt: "We all know here to-day whether this request is fair. We all know whether or not we can endorse it. Every man here knows in his heart whether this thing is wrong or not. We are all men here who have worked together before, and will act together when the heat and smoke of this campaign is over. Each faction here to-day can act 'ogether. It is no secret as to which faction I belong, and that it is in the minority in this committee. We are at the mercy of the majority. I believe there has always been absolute fairness in the primaries in this county. In 1888 the executive committee permitted the two candidates for the Senate to suggest a manager each for each of the precincts. We ought to decide this question to-day, so that each faction can act intelligently in the ap-pointment of managers at the adjourncause there seems to be some doubt.'

We talked the matter over this morning and the opinion is that the request is a fair one. We are going to adopt this request. I believe that our side i willing to do anything that is fair We don't intend to do anything else. No man is more willing to do the fair thing than I am. I have always done the fair thing, and exposed the wrong-doing it, even if I had to do so on the stump. Look at the state this morning. I'm told that It is false, and if Mr. Keitt was here I could prove it by him that I oppose the Third party. Yet still some dirty fellow has gone and published it that I am a Third party man from some remark I have made an especial effort to quell this very Third party idea.

Mr. Sligh, continuing, "We want to a fair and we intend to be fair. We

will be particular to get good men, and there is not a man that deplores this thing more than I do. The Edgefield meeting was a disgrace. I don't say here who is responsible for it." Mr Hunt: "I will say just here that the executive committee had absclutely nothing to do with appointing managers of election for the general

election. That was the business of the commissioners of election." Mr. Sligh: "I will then excuse the executive committee but not the commissioners of election. It the committee to-day were to refuse this request I would not excuse them. But all these things will come up on the

stump." Mr. Caldwell then offered the following resolution which was adopted: "Resolved, 1st. That the Executive Committee of the Democratic party of Newberry County hereby adopt the suggestion of the Democratic candidates for Governor, that there be an equal division of the several boards of managers for the primary election between supporters of the respective candidates, and hereby decide to carry

that arrangement into effect.
"Resolved, 2nd. That the said committee take recess until 6th day of August at which time the appointment of managers for the primary election will be made in conformity with the said suggestion and the foregoing reso-Intion.

Mr. Capers then moved that one of the managers or the clerk shall be in favor of prohibition and it was adopted. The rules adopted by the State executive committee were then read and adopted as the rules to govern the election in this county. The Herald and News has already published these rules but will publish them again next week.

The question of club rolls and membership in clubs being necessary to vote, were discussed but no definite action taken. It seems to be the opinion that membership in clubs should not be required as an essential to voting. and Mr. Sligh offered a resolution to that effect but withdrewit, to await action by the State committee. It was adopted as the sense of the

committee that under the Constitution Trial Justices are to be elected and at the next meeting arrangements are to be made as to judicial districts, &c. Mr. Caldwell voted against this as he opposes the election of Trial Justices. Mr. Sligh tendered his resignation as chairman, which was accepted, and offered the name of Mr. G. A. Mills as the member from his club. The club had not acted but he felt sure it would

elect Mr. Mills. Mr. Hunt nominated Capt. H. H Folk as chairman. Mr. Bedenbaugh nominated Mr. H H. Blease. Mr. Folk asked to withdraw his name and Mr. Blease was elected. On motion the committee then took

The total assessed value of personal property the present year is \$87,430 less than last year. That apparently looks like there has been decrease in the assessment over last year. But in last year's as-sessment was included the unlawful assessment of the National Bank Newberry by which it was raised \$80,000. Then the land loan associations were assessed last year at

\$50,700, which is not on the books this year. If this amount had been included this year the total assessment in No. 1 would have been \$908,825, and with the land loan associations the total for the county would be \$1,623,870, which really makes a total increase of \$43,270 for the county in the assess-

The figures are interesting, and will show how property has been valued for the purposes of taxation.

There has been no return nor assessment of real estate this year. Still there has been a slight increase, owing to improvements.

Some folks will not go to the postinvitations to big dinners on that holy day; and, while feasting on rich dishes prepared on Sunday, whisper into each others' willing ears the Saturday night misdeeds of their wicked friends. I suspect there are very few real Christians left. The most of them are one or yet to come.

There are many things that are not

sinful at which some people hold up their eyes in holy horror-and then sin more glaringly themselves. It seems to me that a man who will not ride on the train or read a newspaper on Sunday should be a pure County Commissioner at the approachman in all other respects. His Sunday meals should be cooked on Saturday. With the exception of attending all the services of his church, or "going about doing good," he should stay at home on that day and remember to keep it holy in more ways than one. It is a good thing to be a Christian in the high conception c: the word. A Christian is one who is genuinely modest, unassuming and unaffected; naturally sensible; seeing and doing the right consistently; not proud and vain and haughty; caring not for show and effect; but kind and good; forget-

ting and forgiving; and tender, loving, gentle and true. NEEDLE. Stockholders' Meeting.
