### "THE STATE DEBT IS SAFE."

"We are confident that Governor Tillman will be able to place the new State bonds. It is too early yet to give the details. These will be made public in due time.

"It is enough just now to know and say that the syndicate which will place the securities is composed of New York, Baltimore and Richmond banking houses which have made a specialty of Southern securities for the last twentyfive years. It is evident that they know a good thing when they see it."

The above is taken from the editorial column of the News and Courier of yesterday.

Every one hopes that the State debt will be easily refunded and at the lowest possible rate of interest. And so far as we are concerned it will be gratifying news to us to hear that Governor Tillmen has been successful, and we Ath Carolina readers.

Editor Gantt has been chosen messenger to carry South Carolina's electoral vote to Washington. It is a the years to come. pretty fat job, meaning something over \$200 for the trip to Washington. It does look to us that a longer South Carolina resident might have been selected. But then it is all right. Editor Gantt has done good work for the "dominant element."

Mr. James G. Blaine has been quite sick for a long time and the last news was that he could not last many hours longer. Though a Republican he was one of the great men of this age.

The vote in the electoral college will be: Cleveland 277; Harrison 145; Weaver 22. Cleveland's plurality 132 and a majority of 110.

The Columbia Evening Record will be sold on Saturday to satisfy a mortgage. We regret that the Record has been forced to the wall, but it continues publication and we believe could be made a good paying investment. Columbia needs and will support an afternoon paper.

Mr. Thomas J. Kiernan, who made communistic speeches in Columbia two years ago and was rewarded by appointment as trial justice in the city of Columbia, has gone back to the railroads and secured his old position as engineer. He was defeated for trial jus- and Mr. Gantt was elected by one vote the administration seemed to only, the remaining five voting for him.

Meat is high, and cotton comparatively at a good price, and there is a surplus of neither staple. If the Southern farmer must pay a high price for meat, he would better keep the cotton surplus down and try to raise his own meat. Last year a farmer in Newberry County raised ten hogs that weighed two hundred and fifty pounds each, and they were just one year old. Raise your own meat, and have a surplus of

Men who are not simply seeking their own advancement, but port: men who have the brains and the nerve, the patriotism and the statesmanship, to do that for this good old State which will be for her advancement and progress, and that will, at the same time, have due regard for all her interests.

Statesmanship has about played out in this day. There is scarcely a higher motive now that actuates most of our so-called statesmen than to seek their own preferment. Self first and all other things afterwards seems to be the motto of most of the present-day statesmen. A great pity it is so.

Read : "Three years ago, as a result of catain, I entirely lost my hearing and was deaf for more than a year. I tried various things to cure it, and had several physicians attempt it, but no improvement was apparent. I could distin-guish me sound. I was intending putting myself under the care of a specialist when some one suggested that possibly Hood's Sar-saparilla would do me some good. I began taking it without the expectation of any lasting help. To my sarprise and great joy I found when I had taken three bottles that my hear-ing was returning. I kept on till I had taken three more. It is now over a year and I can hear perfectly well. I am troubled but very little with the catarth. I consider this a remark able case, and cordially recommend "Three years ago, as a result of catarrh, 1
