It is very strange what silly and unheard of rumors and reports some people can originate. Senator Butler such measure, or to take a decided side or the other.

THE RACE QUESTION.

The race question is getting a good deal of attention just now. It is a big question and is going to be more serious as the years go by. Many plans and theories have been advanced on the subject and many solutions have been suggested. What will be the outcome we will not pretend to say. Thomas Jefferson said in 1821: "Nothing is more certainly written in the book of fate than these people (the negroes) are to be free; nor is it less certain that the two races, equally free, cannot live in the government." What are you going to do with

them? If it were practicable we believe the best solution would be for them to be in a State to themselves. (We would say to the Greenville News, Mr. Calhoun, and Mr. Graves that we do not claim to have originated this idea.) But in order to do this it will have to be a gradual process.

The best plan just now is to let them alone. Give them their rights under the government and justice before the courts and not bring them in as a factor in our politics. If the white people will keep united, the negro will not be a disturbing element.

We do not believe in the amalgamation idea or theory.

The Columbia State says that those opposed to the present administration will have no candidate for Governor next year, it matters not whom the other faction may put up. We do not know upon what authority The State makes this statement. It is entirely too soon to be discussing gubernatorial possibilities. What we would like to see would be no more March convenand open fight in the primaries. Let anybody who feels inclined make the canvas and let the Democrats say by their votes which one they prefer, |. and then let such one be the standard bearer of the Democracy. In this way we might get the present factional campaigns on the plane of prejudice and passion. We then might be able to secure the best fitted man for the calibre statesmen and coat tail swingers, for they would hardly know upon whose coat tail to swing.

. We do not see why the A'liance of Newberry should desire to go to Georstruct them. We were of the opinion cussing it and talking wisely about it gia to get a Third party advocate to inthat the rank and file of the Alliance in Newberry were Democra's.

All our Congressmen, including the Alliancemen, attended the Democratic cancus for the secection of officers of the House on last Saturday night. That is right and proper, but the ques-

The Herald and News would like to in the next campaign for State offices, see the law given a fair show, now that but it can have nothing to do with the it is the law, but this uncalled for treatment of the constables will give material for the campaign next year.

If you read what the advocates of free silver have to say, you are forced would be very foolish to tie on to any to conclude that the country will go directly to the demnition bow wows if stand against it. He wants to deal it is not given the free coinage of silver. with National questions and not to On the other hand, if you read what mix with our local fights either on one those have to say who are opposed to Colts army revolvers, great big ones. it you inevitably conclude that if the Sherman law is repealed and a dollar's worth of silver is put in a dollar the country will start on such an era of financial prosperity as was never witnessed in its history. We must admit that we do not feel able to solve the difficulty, but it does seem that the opinion of those who have made the subject of finance a study ought to be taken for something, especially when they have no office in view. We take the opinion of all politicians with a grain or two of allowance. We would ike to know what is the objection to putting a dollar's worth of silver in a dollar. We are told that the silver men, as soon as they are paid for their bullion in treasury notes as required by the Sherman law, turn right around and exchange these notes for gold, as they are permitted to do under this law. Why should they want to do this? We would like also for some advocate of free silver to tell us what benefits will accrue to the South from the free coinage of silver on the present

Congress is going to do about it. The Populists in every quarter are making attacks on Mr. Cleveland. Some of them are very silly and slanderous, but we suppose Mr. Cleveland will survive them as he did the resolutions of Mr. Latimer in the South Carolina May Convention. We do not know what Mr. Cleveland may recommend in his message, but we have never seen any utterance of his which could be interpreted to mean that he did not endorse the platform of the Democracy adopted at Chicago. That, it seems to us, ought to be the test of his Democracy. Those who do not endorse that platform should hie themselves without delay tions by either or any faction, but a free to the shades of that party that has a drunkards have been getting their platform to suit them, and not be calling themselve: Democrats.

will give his decision. THE CONSTABLES ARMED

Governor Tillman Gives Them 44-Calibre Army Pistols and Intreats Them to Shoot-The Dispensary Rules Amended.

[Special to News and Courier.] COLUMBIA, Aug., 4 .- Governor Tillman has opened an ordnauce department for the State constabulary. He says that he is tired, very tired, of having State officers insulted and that unless it is stopped somebody is going to get hurt. There is a drawer full of 42calibre revolvers with which the taniing is to be done. Just as the newspaper men were about to leave the Executive chamber Governor Tillman got up and walked over to a cabinet and opened a drawer. In it was a lot of belts; then another drawer was opened and in it were a lot of late When Governor Tillman was asked what they were for he replied: "Look at Sections 517 and 518 and you will

see."
"How many have you, Governor," I asked. "Ob, all we need. They won't rotten-

egg any more State constables. "Is that what they are for?" "That's one thing they are for. I'm going to see that they are not ill-treated. I'm going to issue instructions that they should use them whenever it is

Then I asked Governor Tillman if he had enough pistols to go the rounds, and be replied: "There are a great many constables

who are not doing any arresting; but there are plenty more where these come

Just as the reporters were going out Governor Tillman remarked, pointing to a small wooden box, "That is a box of catridges. It was suggested that Governor Till-

man was trying to scare people by the newspaper accounts, but he promptly

"I'm going to issue orders for the first one of them to shoot when he is struck. I'm not going to allow the State's con-stables to be made dogs by the barkeepers and their tools. There has got to be a stop put to this business." The pistols were secured upon a re-

quisition upon the Adjutant and In-spector General. Governor Tillman seems to be very much in earnest and he is going to do everything in his power to see that the constabulary has as pleasant a time as possible while undergoing the unpleasant duties they have undertaken. The constables at Sumter and Charleston will no doubt be among the first to be supplied with these miniature Gatling guns. Constable Efficit is in the city, presumably to get instructions Governor

Fillman says he has a number of cases on hand in which no arrests have yet been made.

PATCHING THE RULES. The State board of control seem to think that advantage has been taken of them under the "rules and regulations" now in force. The chief trouble seems to have been that minors and liquor through the instrumentality of some broker who probably worked for a percentage of the whiskey purchased. Another trouble seems to have been with physicians who, out of kindness or otherwise, have given certificates upon which the dispensers had to open

Governor Tillman and Attorney-General. Townsend to-day prepared the following rules, which are to go into immediate effect:

COLUMBIA, S. C., August 4, 1893. The following additions to the rules governing dispensaries have been adopted by the State board of control. They will be posted in each dispensary and will be obeyed accordingly:

Rule 4th amended by adding: "Applicants must state in request for liquor for whom and for whose use the same is required." And whenever an application is falsely made for the use of a "minor," or a "person who uses intoxicating liquors to excess," a warrant will be sworn out by the dispenser against such person under Section 19. Rule 1st amended by adding: "Coun-

ty dispensers will not be governed by a physician's certificate in making sales at night, but their knowledge of the ness Dispensaries must not be opened after hours except in cases of bona fide illness requiring liquor as a medicine. sidered before filling it."

DOWN ON THE PORTNERS. Governor Tillman seems to be glad that he has been able to at last capture is in the keg just so long as it is marked "beer." While talking about the matmuch salicylic acid that it was not most of the other beers, he said.

If You Will Ask

DEFENDS SENATOR SLIGH.

Bachman Chapel on the Observer-He Defends Railroad Commissioner Sligh from the Criticisms of the Observer-It Was Known that Mr. Sligh Was Going to the Senste to Help Him be Raillroad Commissioner.

MR. EDITOR: Owing to my absence from home for a few days, I am forced to hand in my letter a week later than I expected. Now, in the first place, want it understood that while I propose to put in a few thoughts on an article which appeared in the Newberry Observer of the 13th ult., under the headline "What Did It," I am not seeking a controversy, or any abuse whatever; neither am I trying to anagonise the Observer or any other journal. While I always like to see peace and harmony prevail, still I want to see fair play dealt out on both

The Observer says that its editor took no part in the last primary and that he did not even vote: therefore, it cannot be said that he is biased or partial in anything he might say of the not say that the Observer is biased in the matter, but am perfectly willing to let its words speak for themselves, and

then let the people be the judge.
As to the defeat of Dr. Wyche, this s nothing more than I predicted when I first saw the early date fixed for the special election, which forced the primary upon the farmers when the pressure of farm work was so great that even one-half of them did not have time to read a newspaper, and therefore would not know when the primary election would come off. As proof of this, I asked one of our best citizens, on Sunday previous to the election, if he was going to the election, and he answered: "What day does it come off?" I then asked him if he took a paper. He answered: "Yes, I take The Herald and News, and Press and Reporter, but I have not even had time to open my papers for the past

The Observer says that most of those who stayed at home the 28th of June because they were not much concerned about the election, and that had they gone to the polls they would have divided their votes in about the same proportion between the two candidates. Now, the above-mentioned man, after being informed of the date of the election, went to the polls and voted for Wyche. There were also two others living within less than a \$210. mile of this man who have told me since the election that if they could have possibly got to the polls they would have voted for Wyche. Now this not only happened in this section. but the same thing happened all over the county. I think this is evidence enough of the cause of Dr. Wyche's

few weeks."

Now, gentle reader, let us notice the secret of the Observer's article. It is not to show up the cause of the defeat of Dr. Wyche. Oh, no, It is ust one of those old thunderbolts at he Reform party. In plain evidence of this, it struck the Hon. J. A. Sligh, who is well known to be one of the driving wheels of that party; and to dislocate one of those wheels simply means to stop the whole machine. How inconsistent is the Observer in

aying "if Mr. Sligh had been considering the wishes and views of the people who elected him Senator and the faction to which he belongs, more than his own pocket book, it seems to us he would have been willing to hold on to the small salaried office, where he could carry out the wishes of his constituents by voting for Tillman."

Now I pull off my hat to the world in contradiction to this, for I think I know what I am talking about when say that there was scarcely one of Mr. Sligh's friends that did not know ne was a candidate for Railroad Commissioner at the time they voted for him for the Senate; and they are still proud to say that he has been promoted o this position.

But anything to down Sligh seems to be the full intention of a great many people who oppose the Reform movement. And what a great pity it is to see a journal that has been esteemed so highly as the Newberry Observer, come out with such a flimsy argument. But it is said that we poor farmers don't know any better any now-we even havn't got the courage of our own convictions-therefore it is a very easy matter to mislead such a set of people. So it has been, and so it would be if it were not for just such men as the Honorable J. A. Sligh. Long live such men as Mr. Sligh, for ne has always been at the front in the nottest of the fight. He has stood like s stonewall in the interest of the Farmers' movement and Reform party; waile he has been defeated, yet he has stood as firm - a rock. I have lived within seven miles of Mr. Sligh, not only since he entered the arena of politics, but for the past twenty-five years, and have known his qualities well; and I can truthfully say, from an unprejudiced heart, that he is one of the truest and most liberal men I have ever seen. As a statesman he has fought for his people like a hero; as an Allianceman he has done the same, and as a faithful minister of the gospe his works have followed him.

Yes, I said the Observer was inconsistent in saying what it did about Mr. Sligh, and I never propose to make accusations unless I am able to substautiate the same.

I remember very well when Judge Cothran ran for Congress in 1886, and at the same time clinging to a judge ship. The Observer must have thought then that it was right for a man to think more of his pocket book than of the ones he represented, for the Observer fully endorsed Cothran, out of the five candidates that were running at the same time.

Well, we must not think hard of the Observer for swallowing Cothran, for Cothran belonged to a different family than that represented by Mr. Sligh. Yet the Observer is not biased or par ial in anything it may say in this matter simply because its editor did

not vote. I know that when the Observer cannot answer an argument successfully, he tries to get out of it by saying he doesn't care to thresh old straw, and gives other equally thin excuses when he is cornered; so I expect him to try the same game on ine. But this won't work worth a cent, Mr. Editor, the people can see through all such flimsy and lame excuses.

Any man with common sense knows that in the late election for Senator from this county every available Conservative vote was polled, and that enough Tillman voters stayed away from the polls on account of the grassy condition of their crops to defeat Dr Wyche; whose defeat was thus brought about, but made more certain with the . collections a specialty. Tillman voters who supported Mr.

New York, July 10, 1893. RECEIVED from the Equitable Life Assurance Society of the United States, FIFTY-TWO THOUSAND EIGHT HUN DRED AND TWENTY-ONE DOLLARS AND FIFTY CENTS, in full of all claims, in-cluding profits, under Policies Nos. 211,-432 and 212,944, on the life of Charles A. Dana, now surrendered, said policies being in favor of himself and not

assigned. Charles A. Dana. This receipt furnishes an admirable text for the following remarks:-

1. It illustrates the fact that men of affairs-shrewd business men-at financial centres believe in the life assurance issued by the

2. It illustrates the fact that under the Equitable's Tontine plan of assurance the policyholder need not "die to win," but, at the end of a stipulated number of years, is given his choice of continuing his assurance, or of realizing on the investment and making any desired disposition of

its cash value. 3. It illustrates the value of life

assurance per se. But the Tontiue policies of the Equitable have other advantages. For example, Mr. Dana was given the choice of a number of methods of settlement; the following are

two of them:-1. Instead of drawing the cash, he might have converted his policies into an annuity which would have given him an annual income, for life, of over \$8,000. Or

2. He might have continued his assurance under the following favorable terms: (a.) His future premiums

would have been reduced by annual dividends declared hereafter. by the Society; while (b.) The amount of his assu-

rance would have been increased from \$50,000 to \$89,800. An Equitable Policy is exactly

adapted to your wants. Write for rates to
