Highest of all in Leavening Power.-Latest U. S. Gov't Report,

the full text of the presentment of the Grand Jury, though our synopsis last Burnings in this section are becoming too uncomfortably common. If it is the work of an incendiary there is the opera house on Friday afternoon of need for some heroic measures to find of this week at 4 o'clock. To His Monor, I. D. Witherspoon, Judge Presiding: The Grand Jury would beg to report that they have examined and returned all Bills handed them by the Honorable Solicitor.

We have examined all the public offices and find the offices and all records well and neatly kept. We commend highly the efficiency of the him out and to deal to him such punishment as his diabolical work de-

mands. We have examined all the public offices and find the offices and all records well and neatly kept. We commend highly the efficiency of the County Clerk in keeping the records in most convenient order and also well arranged. The same may be said of the Probate Judge and his office. The offices of 'Auditor and Treasurer have been lately investigated by the Comptroller General and by our Foreman, as required by law. Every thing was then found to be correct, and all amounts received and paid out were properly accounted for. The office of the School Commissioner was found well arranged and he has made all reports required by law. The papers and books in the County Commissoners' office also are well kept and are in proper order. In examining the accounts paid for supplies furnished the paupers, we are of the opinion that an exhorbitant price has been paid for much of those supplies. This matter should receive the careful attention of the Commissioners.

The committee who visited the Poor House report that not one of the repairs and improvements recommended in our lest report have received any attention from the Commissioners. The recommendations in our last report twere ments recommended in our lest report have remuch needed, not for show, but for the comfort of the keeper and family and of the unfortunate inmates. We would again recommend that a raised on the place, and the provisions used for the immates. There are some buildings near the old poor house that could be removed at little cost and be made to answer those purposes. The committee found (12) twelve immates, two white On Sunday night the residence of

meat house and contents and two buggies were also burned. There was no insurance. They estimate the total loss at \$,2500. The house was a very good two-story frame building. Mr. Will Hayes would have lost all of his household goods but they were

the inmates. There are some buildings near the old poor house that could be removed at little cost and be made to answer those purposes. The committee found (12) twelve inmates, two white and ten colored. All looked as if they were receiving the best care and attention, clothing all neat and clean, and the same may be said of the rooms. The kitchen and dining room are too open, they should be ceiled at once. Comfort as well as health require that this be done.

At the Jail we again find that the recommendations of our last report have been utterly ignored, we repeat those recommendations, and urge that the work be done. There are glass out of windows in the Jail; in the kitchen one sash is entirely gone from one of the windows. There are two leaks in the roof of the Jail needing repair. The ditch spoken of in our last report is yet badly needed. This ditch should be of such width and depth as to be able to cerry off all the water falling on the lot. The good of the property as well as health require that this should be done. The top of one of the chimneys of the Jail has been blown off; this should be replaced. All the cells are neat and clean, and the prisoners look as if they had received every care. We feel it our duty to make these suggestions of repairs at the Poor House and Jail because they are public property, the repairs are greatly needed, and we would ask that the Commissioners be required to show cause. still at the depot. Gov. Tillman, we hope, will offer a good reward for the capture and conviction of some of the incendiaries and possibly a good square conviction and execution will act as a wholesome lesson to others, who may have an inclination in this direction, not to do so. There seems to be little doubt that this was an incendiary fire.

ANOTHER GREAT BARGAIN FOR THE PUBLIC.

and we would ask that the Commissioners be required to have this work done, or that they be required to show cause.

A portion of the road from Kempson's Ferry toward Bush River is in bad condition, not having been worked this year. There are several small bridges in No. 4, made of small pine poles, that are dangerous to persons passing. These bridges should be repaired.

In Township No. 11, at Brooks' branch, there is a large and dangerous hole washed out that is dangerous and should be repaired at once, being impassable.

Times are dull and news scarce. The weather for some days past has felt more like March than November. Mr. J. S. Spearman has been reappointed postmaster at this place. Mr. and Mrs. J. C. Reeder, of your city, have been visiting the latter's mother, Mrs. Julia Mathews. Mr. Parker, who has been night op-

He goes to Waterloo where he has accepted work for the coming year. We hope he will find his new field a pleasant one, and that his labors will be crowned with abundant success.

The hot supper last Friday night was a complete success. Everybody lenjoyed it, and as a result over \$35.00 was realized, which will be appropriated to fitting up the school building at this place.

A difficulty occurred on our streets last Friday afternoon, which came near terminating very seriously. Mr. Will Duncan and a negro, Chas. Copeland, had a dispute over some money which the negro owed Mr. Duncan, whereupon Copeland drew a pistol and fired twice, one ball passing through Mr. Duncan's arm, inflicting a flesh wound. Clerk and Treasurer shall be paid a Mr. Duncan returned the fire, the ball stated salary instead of a commission. This change, in our opinion, should be penetrating the upper part of Copeland's bowels. Mr. Duncan's wound, although a painful one, is not danger-At any rate there are matters of suf- ous, and it is hoped that he will be able to return to his place of business ficient importance to the town to bring in a few days. The negro's wound is a serious one, but it is now thought that he will recover.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live bet-ter than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.
