A NEW METHODIST CHURCH.

A New Start to be Taken-The Members Getting Interested-There is Certainly Need to go to Work.

That Newberry needs some new church buildings scarcely needs to be stated. It is certainly a self-evident proposition and needs no argument to establish it. That the church mem-bers are amply able to build them we do not beleive any one will seriously question. Whether they are willing to make the sacrifice necessary to do the work is another question. We would be very glad indeed to see some new church buildings begun and com-pleted. The Methodists and Lutherans both have very beautiful building lots and all that is needed is the building. Last Sunday the Methodist congrefrom the building committee, which we give below. As will be seen, work, or effort, has been suspended, but from what we can gather the sentiment of the membership now is to resume effort and begin work during the present year. All that is needed is to make a beginning and the work will be done. We hope the start will be made and possibly it will be a stimulus or encouragement for the Lutherans to do There is no town that we likewise. know of, of the size and importance of Newberry, that has such poor church buildings. It is not because of a lack of interest in church matters, but simply because there has not been a start made in this direction. We hope the matter will not be delayed much
