### The Kernla and Mews.

E. H. AULL, EDITOR

THE PRESS EXCURSION.

Our friend, the Press and Banner, has annually found fault with the program or excursion as provided by the officers, since we have been connected with the Association in an official capacity.

I desire to say for the benefit of those who may not understand the arrangements fully that at a meeting of the Executive Committee it was decided to take a trip to Nashville at the conclusion of the meeting at Newberry and the Secretary and President were authorzed to make the necessary rr ngements. In order to divide the work I undertook the arrangements for the trip while the Secretary was to assist in securing transportation to the annual meeting.

The result of my labors has been printed in detail. I am sorry that the plans do not meet the approval of the Press and Banner, but then it is hardly to be expected that any arrangements could be made to meet with universal approbation.

I have given a great deal of time to this matter and it has cost me some money, but both have been given freely and heartily in order to make a pleasant trip for those who desire to take it. The taking of the trip is not compulsory on any member and neither is any member who takes it bound to conform to the program if he does not desire to do so, but to make the trip with any sort of order or comfort or pleasure some kind of program and schedule had to be arranged and the one made I hoped would meet with approval. For instance, those who prefer other entertainment than going to church on Sunday are not obliged to go to church.

As to publishing all the correspondence it would take a weekly newspaper for that purpose alone. I printed the letter from Mr. H r . a i, o' the Western and Atlantic, which gave the conditions upon wh'ch transportation would be issued and he has my word that I will conform to those conditions, and I will do so. If any editor wants to go it a'one there is no compulsion on him to go with the party or to secure his transportation through the Secretary and President. But we as officers of the Association were authorized to act for the Association, and so far as I am concerned as President I will secure transportation only for members of the Association. Otherwise what would be the good of our having an Association and acting for it?

And my recollection of the Chicago trip is that it was necessary to have membership in the Association for transportation through the Secretary. Each member will have his own tick-

et and can remain until it is out-usually 30 days. I thought four days would be about as long as the majority would care to remain in Nashville, but those who want to stay longer can do so.

I grant that several days could be

As to the Pul.man car I thought it would be more pleasant to have our own car for the entire trip, but neither is that compulsory and up to this time I have heard from only two members and if the others do not respond we will have no car, for I will not order it unless I have the money to pay for it. It seemed to me that \$5.00 was cheap for the use of a ear for six days and those who do not return with the party will only be deprived of its use for one day and we had no idea there would be kicking on that score.

After the State was kind enough to publish in full the ltinerary I did not mail any more copies of it, thinking every member would see it.

Those who intend taking the trip as proposed should let me hear from them at once. The time is now near at hand.

Of course I do not consider the criticism of the Press and Banner as at all personal and de not object to criticism, but it does seem a little strange that so much appear should be given to this matter. If the Press and Banner desires to print the correspondence of the President I will gladly furnish him the letters I have received though I did not keep copies of those I wrote. I am expecting Mr. Wilson at the annual meeting and I will then show him all the correspondence.

I beg the pardon of my readers for taking up this much space with this matter but it is the only method I have of exp'aining points raised by Mr. Wilson.

E. H. AULL, President.

FINISHED. Chapman's History of Edgefield is now printed. The last pages went through our presses this morning. The people of Edgefield and Saluda should Mr. Chapman by buying out this edition at once. It is a good work and a book that every man in Edgefield should possess. Only a limited number have been printed, and if you hope to secure a copy you had better do so at ; once. It will be sold by subscription only and at \$2.00 a copy. The book contains 528 pages. It will be ready for delivery in about ten days-just as soon as we can have the binding done.

The Newberry College claim for \$15,-000 has again passed the Senate. We hope this time it will get through the House, It is a righteous claim and should go through.

RAILROAD TO NEWBERRY

The peop'e of the new town of Salucounty seat of the new county of Seleda, in Carolina, are going to work to make Saluda an important place. They realize that railroad facilities are one of the first requirem nts, and have lost no time in getting to work to seeme a cailroad.

The projected railroad from Augusta to Newberry passes through the town of Saluda, and the people of Saluda, Edgefield and Newberry, are uniting in an effort to push that road to comple-tion. The line has not only been surreyed, but has been graded all the way to Newberry. The right of way and the graded line belong to the people along the line, and they are ready turn these over to any company that will give a guarantee to build the road. It is an opportunity for some company to acquire without cost what is a very xpensive portion of every railroad The company that will undertake the building of the Augusta, Edgefield and Newberry rail o at will escape all this expense and get a graded roadbed free.

The people of Augusta should manifest a lively interest in this matter. The road would be a valuable feeder for Augusta and would bring into easy access and close touch with our commercial interests a fertile and valuable section of South Carolina. The public meeting held at Saluda in the interest of the enterprise passed resolutions endorsing Hon, Patrick Walsh for president, and Hon. George Johnstone, of Newberry, for vice president, to move in the matter of organizing a company and procuring cavital for building the road. It is a preiseworthy enterpise, and our Carolina friends are moving in the right direction in seeking railway connection with the rest of the world. Here is success to the railroad.—Au-

We are glad to see our cotemporary taking hold of the railroad and we hope t will be able to arouse the people of Augusta to the importance of speedily building it. This road will be worth more to Augusta and Augusta merchants than to any other section through which it goes.

To those of us at Edgefield and Saluda and Newberry it will be a great convenience but commercially speaking it will put within easy reach of Augusta a rich and prosperous section of country that is naturally tributary to it.

In addition to this, this road goes through a section of country that really needs a railroad. Let us get together and push it along to an early com-

### THE RIGHT TO STEAL.

The Charleston News and Conrier relates that a gentleman visited Savannah some months ago, where he received a present of some wines from a insman. The wines were packed in his trunk and the trunk, with all its contents, including clothing and other chattels, was promptly appropriated by honest spics in Charleston. The honest spies declare that it was shipped honest dispensary officers in Columbia, who, honest as they are, declare in turn that it was nover received. But the gentleman whose money bought the trunk and clothes in it has heard not one word from it. It is gone, and forever, for we live in a ty.-Greenville News.

This sounds a little severe but when you reduce the situation to its last analysis you will be forced to the conclusion that it is very nearly, if not Now, Josh, when we get all these entirely, a proper and correct diagnosis things together you come down and l of the case. Taking and appropriating will send for Kay and we will shut the spent pleasantly in Chattanooga, but to your own use that which does not door and stop up the cracks. Oh, hush! can a majority of our party remain belong to you is nothing more nor less While we were in town we dropped than stealing. There is certainly some velopment and health of the State.

> The readers of The Herald and News will remember that during Gov. Tillman's administration the Agricultural Hall, a building belonging to the State, was sold. When payment was tendered some of the Blue Ridge scrip was offered. It was refused and properly, but not only so possession of the building was refused the purchaser, and an armed guard was placed at the door. Suit was commenced and the ease ran the gaunlet of all the courts, and now the Supreme Court of the United States says the purchaser must have the building and the dispensary will have to

move quarters and pay back rent. The State has been in litigation now for six yoars and nearly every time she comes out 1 ser. The Coosaw case was won, but the winning of it crippled the phosphate mining business and greatly reduced the income from this source. It was really a dearly bought victory.

Now we lose the Hall case besides a lot of improvements done to the building to fix it up for our big grog shop. We should by this time have enough of lawsuits and continual litigation.

Coogler, the Columbia poet, should be happy in that he is furnishing our daughters. She tells us that the amusement and entertainment for so happiness of every home depends upon many people. The latest is "The J. Gordon Coogler Club, Stanza 1."

How to Treat a Wife.

(From Pacific Health Journal.) First, get a wife; second, be patient. You may have great trials and perplexities in your business, but do not therefore, carry to your home a cloudy or contracted brow. Your wife may have show their appreciation of the labors of trials, which, though of less magnitude, may be hard for her to bear. A kind word, a tender look, will do wonders in chasing from her brow all clouds of gloom.-To this we would add always keep a bottle of Chamberlain's Cough Remedy in the house. It is the best and is sure to be needed sooner or later. Your wife will then know that you really care for her and wish to protect her health. For sale by W. E. Pelham,

Bachman Chapel and Union Academy Chips

Health somewhat improved, The cold snap last week stopped the

coston and corn from coming up. Oh, my! what a clod breaking we have had since we wrote our last letter. The farmers are at out all done plant-

ing their crops. Old Mrs. Chips is in bad humor this week. One of her best hens committed suicide not long since by eating concentrated lye.

Much success to the editor with his new press. He is better equipped for telling t'e people what's what now than ever. I hope that no more of our scratching will have to lie in the office for about a week or ten days before it is published. Sometimes it's about a week old when we write it, and then to let it stand over for another week, we would about as soon it was not pubished at all.

We return many thaffks to our youngcollege student friend, Mr. Thaddeus Epting, for always being so kind as to oring our mail every week.

Our good women lave all got new iresses and new hats, now what will be the next cry? oh, yes, new shoes.

Yes, we want out to see our old Bro. Kay last week, and we found him in the very best of humor. Leitch was there conducting his great big revival meeting in his own peculiar way. We earn that he knocked the dispensary and whiskey drinking sky high, and 'rosperity still remains an unlicensed own. So far as the liquor traffic is concerned we congratulate you, old brother, in your success. We hope that you will work equally as hard now to root out the blind tigers.

Look here, friend correspondents what do you all think of having another reunion at the editor's residence sometime during the summer? Those social gatherings are very pleasant indeed. It was the editor's last treat, now I am going to introduce a wa'ermelon and ee cream festival to be furnished by the force of correspondents. It will only be a very small item for us all, so let us treat the editor and his familyof course Mr. Houseal of the Lutheran Visitor is included. This is only a suggestion. Now I desire to hear from each correspondent. Tell Chips what you think of the suggestion.

Representative John F. Banks spent last Sunday with us. The captain is always full of talk, and it is always talk that is full of interest. Come again, captain, we are always glad to have your company.

Look here, Josh, you come down and go fishing with old Chips some time, we will go down on Cannon's creek and Chips will keep off the skeeters while you eatch the minnows.

Fry meat and bake bread has been the song in the kitchen so long that our old maws have about dried up. State where the privilege is given by our old maws have about dried up, law to certain men to steal with impun-But the beans are blooming and the Irish potatoes are about the size of a guinea egg, and other vegetables are coming on as fast as time will let them The blackberries are almost in sight.

thing grievously wrong somewhere and of artesian water and took some recrethe sooner it is removed the better for ation for a short while. We noticed the good morals and the healthy de- that Sheriff Buford had made considerable improvements in his office by the purchase of a new desk. The desk is well arranged and adds much convenience to the office.

We hope whenever the Township Pension Board gets through examining all the applicants they will publish the names of all who will receive pensions, and to what class they belong.

If only some folks could be candidates all the time; they are such good fellows when they want office.

The first thing Chips intends to do when he becomes governor of this State is, he's going to give all of his kin folks an office. Now, Kay, I will tell you and Josh in time, you needn't apply for anything until I give all my kin folks a job. There is just plenty of people who are just as good as their sense will allow them to be.

Some of our boys got river struck last Tuesday. They went down to old Broad river and brought in a fine lot of cats. Sam says old "Buster" is always so proud when he starts him toward the river that he will shake his head and twist his tail and greet him with a smile.

I must pull off my hat in praise to Nita. She has shown the nobility of a well trained woman. She comes out and advocates a better discipline among the woman there, and caused by her careful spirit, power of endurance and self control. We can say amen to this, ves. Nita, you couldn't have struck a better subject than this. There is no doubt but that a great deal of the troubles and hardships of to-day are caused by the neglect of parents in the training of their daughters as well as their sons. Many girls nowadays are raised up to be waited on, and an idea cherished by some parents that labor, though not exactly degrading, is not altogether the nicest thing for their daughters to perform. Now, good parents, such training as this is very defective. Often our daughters become wives and mothers and many households suffer from our neglect. Parents are under just as many and as binding obligations to raise their children to be useful, economical and industrious as they are to send them to school. Home and school-house education should go together. Every mother should see to it that her daughters are not only fitted and trained for the drawing room,

to know how to dress and be entertaining, but to know how to be useful to thems lives, to their mothers and to society. You can just look into every avocation of life, and then into the dwellings of our people both in and out of towns and cities, and see how many of the present evils, the failures of life and feelings of unrest are traceable to such imperfect training. "Train up a child in the way it should go and when it gets old it will not depart from it"

applies not only to moral or spiritual

training, but also to secular training.

Last Monday was memorial day at Newberry. We got in town late in the afternoon, just in time to see the deco ration of the monument. Newberry County has erected a monument which contains the names of all-her dear old veterans who suffered, bled and died, men who left their wives and dear little children to fight for what they conceived to be the rights of their country. The bodies of many of this number are now mingled with the earth of distant lands and now we can but meet and cherish these sweet memories. Quite a sidness struck our heart as we stood near the rock that contained the name of our dear old father. The monument was beartifully decorated with flowers and evergreens. Some sweet songs of a doleful nature were sung, and quite an appropriate prayer was offered by Rev . P. McClintock.

We have had some light showers, but not enough to bring up the crops to a good stand. Farm work for the past week has been almost to a stand still. We need one of those general soakers to start the ball to r lling again

We would say to our friends if there is any news of interest that happens at any time please let us know it: it's ard matter for Chips to catch every thing that happens. When we mis news it is done ..... Very respectfully, CHIPS. tionally. Ve May 12, 1897.

For every quarter in a man's pocket here are a dozen uses; and to use each one in such a way as to derive the greatest benefit is a question every one nust solve for himself. We believe however, that no better use could be made of one of these quarters than to

exchange it for a bottle of Chamberlain's Colie, Cholera and Diarrhoe Remedy, a medicine that every family should be provided with. For safe by W. E. Pelham, Druggist.

A drug store handles more things that drugs It caters to the comfort of the community, Couldn't be comfortable with second or third grade things. We sell the best at the lowest prices. Call on us for prices.

# AN ORDINANCE.

Be it ordained by the Mayor and Aldermen of the Town of Newberry, South Carolina, in Council assembled

Section 1. That from and after the publication of this Ordinance it shall be unlawful for any person or persons to suspend signs, sign-boards, verandas, piazzas or awnings, across the side-walks on Pratt street, from Thompson street to Vincent street; on Boyce street, and on Caldwell street, from Friend street to Harrington street; where such signs, sign-boards, veran-das, piazzas or awnings rest on supports on the side-walks or roadway o such streets. Provided, That this Ordinance does not apply to portable awnings supported by iron or metal posts, (not exceeding two inches in diameter)nor to awnings not resting on supports on said side-walks or streets. Sec. 2. That all persons having signs. sign-boards, verandas, piazzas or awnings, prohibited by the foregoing section shall remove the same on or be-

fore the 20th day of May, 1897. Sec. 3. That any person violating the provisions of this Ordinance shall be liable to a fine of not more than twenty five dollars or imprisonment for not

more than thirty days.

Done and ratified under the corporate [L.S.] seal of the said Town the 1st day

of May, 1897. H. H. EVANS, C. A. BOWMAN, C. & T. T. C. N.

If you have any shopping to do when you next come to Newberry, in making up your list mark at the head of your

### Jones & Copeland,

for there are very few things you may need in Dry Goods, White Goods, Ta-ble Linen, Cassimeres, Cottonades, Domestics, Towels, Luces, Embroideries, Ribbons, Notions, Hats, Shoes, Pants, Shirts, Drawers, Collars and Cuffs, Ties and scarfs, Umbrellas, Handkor-chiefs, Ladies', Children's and Men's Hosiery but what we have them for you at close on to wholesale prices. There is no house that has advantages equal to ours in getting the best things for you at the prices we sell them. We are sure you will want to fix up for the Press Association. New Table Cloths and Towels will be needed; new Hats, Shoes and Pants, new summer Coats and Vests, new Shirts. All these can be found at our store that will suit the occasion. Our business for the past thirty days has been the best we ever had in the spring. CAUSE. Goods right, prices right. Come and see us

Both Eden Iems,

We are all glad to see the nice rain Cotton will put on a better appearance after this.

Mrs. Erin Coffeld and daughter Miss Mary, spent one night not long since at Mr. W. T. Coffeld's.

Miss Eugenia Epps is on a v'sit to he ancle Mr. D. Epps in Union County. Mr. George Sligh and his little grandson, (Gussie) have returned from a visit to Jalapa.

At the close of Garmany school the pupils were given a nice treat, they presented Rev. W. W. McMorries with two handsome presents.

We Beth Eden folks attended servces at Garmany last Sabbath and were delighted with the sermon. Mr. Me-Morries is certainly a magnificent preacher. From start to finish he always holds your attention.

Miss Hettie Clamp is spending a while in town.

Mr. D. P. Davis, a prominent livery-nan and merchant of Goshen, Va., has this to say on the subject of rheuma-tism: "I take pleasure in recommend-ing Chamberiain's Pain Balm for rheumatism, as I know from personal experience that it will do all that is claimed for it. A year ago this spring my brother was laid up in bed with inflam atory rheumatism and suffered intense ly. The first application of Chamber-lain's Pain Balm cased the pain and the use of one bottle completely cured him. For sale by W. E. Pelham, Drug-

We sell the White Hickory Wagon, one of the best sold in Newberry. Guano, Cotton Seed Meal and Hulls.

Don't forget our brands of Flour: Obelisk, Favorite, Blue Bird, Waterloo, Old Hickory. The best Flour sold for the money in the county. We have just received a car load of Lime. Will sell chea 1.

Take your watch key and knock the end down on a piece of white paper; now multiply the amount of dust by 365 and you can get an idea of how much dust this little spoon is carrying into your watch every year. Now open the lids and take a sharpened stick and run around the flanges (where the lids touch the case) and knock it over a piece of white paper and you may arrest some of the dust on its way to the machinery through the hole at the joint where the lifting spring comes through.

Now turn your pocket inside out and give it a thump over white paper and you may see where some of this dust comes from. The friction of the gearing is always wearing away, the steel and brass, and it is also getting into the oil with this sand between the pivots and jewels of one of the wheels that savely a sighteen thousand times every hour cutting the vivet and lewel revolve eighteen thousand times every hour cutting the pivot and jewel both at the same time, and you can see it is a matter of economy to have the watch cleaned out every year at least. Dust is small particles of sand.

DANIELS
