The information comes from Bennettsville that Senator McLaurin is steadily improving. On Tuesday he was able to be up and went out for a little airing. Since 1878 there have been nine epi demics of dysentery in different parts of the country in which Chamberlain's Colie, Cholera and Diarrhoea Remedy was used with perfect success. Dysentery, when epidemic, is almost as severe and dangerous as Asiatic cholera. Heretofore the best efforts of the most killed physicians have failed to check its ravages, this remedy, however, has cured the most malignant cases, both of children and adults, and under the most trying conditions, which proves it to be the best medicine in the world for bowel complaints. Mistake in Columbia.

As soon as the paper was issued Mr. M. A. Carlisle, chairman of the county board of pensioners, looked over it and found that several names were there whose applications were not approved by the county board. He immediately wrote to the pension clerk in Columbia and a telegram came withholding payment until corrections could be made. There were also several names on the list twice.

Under the law the county board sent all the applicants including those not approved. The matter has been adusted, however, and the list corrected. The following are the ones not approved by the county board:

M. Reighley, Geo. S. Cannon, Thomas Tobe, M. H. Livingston, J. D. Cannon. Nancy Harris, Elizabeth Schumpert, Eve Busby.

Two are dead-Ino. M. Glymph, H. M. Adams.

The following were on the list twice: James Lester, R. B. Livington, C. J. Arnold, Elizabeth Brooks.

The publication of the list saved trouble and confusion. Money was sent for the whole list including those disapproved by the county board and the duplicate names. A little more care should be observed in the pension office in Columbia.
