## The Herald and Mews

R. H. AULL, EDITOR.

SCHUMPERT ON THE DISPENSARY. The report of the campaign meeting at Camdon as made in the daily papers made it appear that Col. O. L. Schumpert had come out strong for the dispensary. A report of that meeting is published elsewhere.

We thought when we saw it that there must be some mistake, for Col. Schumpert had been very positive in his opposition to the dispensary and as strongly opposed to prohibition, though he favored the restrictions thrown around the sale of liquor by the dispensary law. The Greenville News understood that he had changed positions, as the following will show:

Candidate for Governor Schumpert has defined himself at last as in favor of the dispensary law as it is. Uncle George Tillman now stands as the only man with a definite and practicable idea for a change of that law.

the prohibition vote goes solidly for the prohibition candidate, the dis-pensary vote is distributed among Ellerbe, Archer, Watson and Schumpert and the vote against both prohibition and the dispensory is concentrated on Uncle George, that fine old statesman will round off his political career with a term of two years as governor. He would make about the solidest and heaviest weight governor in the country, the deepest, clearest and most original thinker, and most complete master of political economy we have had in that office since Governor

With George Tillman governor and Joe Johnson in congress the old State would really have some brains and character to brag of and men likely to do her credit. It would be like get ting back to old standards.

The Greenville News will see from the following report of the meeting of Saturday that Mr. Schumpert has not changed position but stands where he did at the beginning:

SCHUMPERT TALKS SENSE.

Col. Schumpert declared that the dispensary law was the best solution of the liquor question, in so far as it threw around the vendors of liquor certain well-known regulations. whatever form liquor is to be used these healthy safeguards shall always circumscribe it according to the Constitution. He was not a Prohibition ist, as the experience of all ages teaches it to be the most unsatisfactory and delusive method of dealing with the liquor question. He preferred the dis-pensary to prohibition, but local option with high license to both. The last named would prove the most satisfac tory and democratic.

We have known Schumpert a long time and we have never known him to take a position and then shift for the sake of eatching votes. Of course a man may change his opinions but it would hardly be expected that he would change in the midst of a campaign unless it was for the purpose of gaining votes and not from convictions. Schumpert is not that stripe of man. We have admired him more for his courage in standing square to the rack on what he believed to be right than for any other qualification. Of cour e that means that he has ability to form cor reet and reasonable conclusions.

Schumpert's position is about right. The dispensary is wrong and prohibition is a beautiful but impracticable theory which cannot be enforced and the dispensary is possibly to be pre ferred to a lot of blind tigers and drug stores that would go into the liquor business immediately upon the passage of a prohibition law.

We have referred to this to set Col. Schumpert right as we understand his position, though we have neither seen him nor heard from him. A good many people understood from the report of the Camden meeting that he had come out flat footed for the dispensary, and we do not so understand it.

Newberry is going to put in a comting contracts we advise Newberry to send a committee to Spartanburg to investigate a most sanitary and up-to date system, which was put in rapidly economical.-Spartanburg Her-

We hope your statement is true. In fact it is true. Newberry is certainly going to put in a complete system of sewerage and we hope she is going to do it very soon but it seems a little difficult for us to arouse much interest in the matter. We want it put in at once. It must be put in. If it is not we are going to have sickness. It is sewerage or sickness.

We would be glad to have a committee visit Spartanburg and investigate the system in operation there.

Chester put down sewerage at the same time she built her water works and electric plant. That is what we should have done, but because we did not is no reason we should delay any longer. Let the matter be stirred and a little interest manifested in this important matter

Charleston has secured the next convention of the United Confederate Veterans. We congratulate Charleston, but we hope she will begin preparaif not the best reunion ever held. It 's no small matter to accommodate the immense crowds that attend these annual gatherings. We hope it will be held in the spring or fall, say April or October, July is entirely too hot. The suggestion to have it in April on the anniversary of the bombardment of Fort Sumter is a good one.

will go to Porto Rico, and they are all glad to get off. Those who are absent will be called in in a few days.

yesterday says South Carolina regi. all be preserved in health and life and ment will not be included in the returned to their loved ones at home. Porto Rico expedition.

It looks very much as if South Caroina is going to fall in her efforts to raise the second regiment of volunteers for the war with Spain. It is not a lack of patriotism. There never has been a great deal of enthusiasm in this State in regard to this war. Still we believe our people are willing to do their part in defending the flag. If the captains were appointed and authorized to go and secure recruits we believe the quota could be raised in half the time. A lot of men might be willing to enlist if they knew under whom they were to serve. If a man who expects to be a captain secures the premise of a few men he does not care for them to enlist until be has enough ready to secure him the position, and it is difficult to get enough together at one time. Let the captains be appointed and we will soon have enough men to fill up the ranks.

## COURT OPENS.

No Court Yesterday-Judge Klugh Arr.ves

There was no court yesterday It was bad but could not be helped as Judge Klugh had sickness in his family and could not be here. He arrived this morning and court was opened at 10 o'eloek.

There are a number of witnesses and others present and it will hardly be possible to clear the criminal docket this week

Solicitor Sease will take up this morning the riot case against Sligh and others.

This afternoon the case against Joe tiser will be taken up and as soon as it is disposed of the case against Bickley will be called. It will be remembered that a new trial was granted in these cases at the last term. It is said Mr Bickley is sick. If that is correct hi case will probably be postponed.

After these we suppose the east against Hatton and others, charged with murder, will be taken up. In Friday's paper we will give full

proceedings.

### Sacrifice Sale.

Remember the great sacrifice sale at Jamieson's. Everything in the summer line being at half price to make room for new goods. Pants at a great reduction. Remember these are gen uine bargains.

### A New Company at Pomarla.

In pursuance to a call for all person interested in the reorganization of the Pomaria Rifles to appear at Pomaria, on last Saturday, was responded to by a large number of friends and well wishers to aid in so proud a cause.

Twenty-three members were enrolled at this meeting without the slightes friction and the future of this company

We cannot speak authoritatively as to the plans there established, but we can speak with substantial correctness when we say that the feelings manifested at the meeting were unity of purpose, and a determination to have one of the best disciplined and one among the righest ranking companies of the State

Mr. James D. Wheeler was chosen captain and it needs no convincing lan guage to explain that the company 'did itself proud" in the selection, as all of those who know the ability and fitness of Mr. Wheeler will admit.

The other officers of the company are not as yet known, but it is safe to pre diet that it will sustain its already good selective powers and elevate men to the respective offices who will prove in all respects honors to their company and o their State.

Hope Station, S. C., July 26, 1898.

When in need of good Vinegars Syrups &c., don't fail to call on us Jos. T. Hutchison & Co.

## This Ought to Settle It.

The fact of lowa volunteers offering to come to South Carolina to fill out our quota of troops is a reflection on the honor and dignity of our State, and her sons should step to the front in such numbers that there would be no ground for any more offers from Northern States to fill our ranks.

Young men, our government is in war with another nation, and it doesn't make any difference whether we are in sympathy with the causes that brought it about or not, South Carolina is a part of the United States and if she fails to furnish her quota of troops it will be a blot on her fair name that this generation can never blot out.

Young men, our fathers and grandfathers have always kept. South Carolina in the front rank, and I had rather fill a volunteer's grave than see South arolina's name trampled in the dust.

Men of Carolina, think of it, our former record for patriotism is at stake. Our fathers and grandfathers made it for us, and we must maintain it. I believe if there were no restriction as to nights during the summer to give the tions in time to make it one of the best age, there would be no trouble to raise

## Card of thanks.

We desire to return our sincere thanks to those friends at Chickamanga and those in Newberry who were kind The First Regiment S. C. Volunteers and attentive to Mr. Jno. Mayer Kinard in his last illness and who proved their friendship by their deeds as well as by their words. Especially to his ex nrades in arms of Co. B do we feel A special in the Atlanta Journal under grateful obligations. May they

## **OUR PROSPERITY BUDGET**

ALL THE NEWS OF A LIVE AND PRO-GRESSIVE TOWN.

Special Correspondence Herald and News Kay is under many obligations to Mr. W. G Peterson for the information conveyed in his communication in regard to rains after a battle. Also for Weather Department. I append part of the Director's report in regard to this subject which has been forwarded to me by Mr. Peterson.

Columbia, July 18, 1898. Mr. W. G. Peterson,

Longshore, S. C. DEAR SH: Your views on the effects of explosions of various kinds on rainfall agree with mine and are correct. It is, however, possible to imagine a condition of such delicately balanced equilibrium of heated air over the surface of a great plain, that it would be possible to overturn it by means of a annon shot or other forceful explosion but such conditions could not possibly exist in a hilly or undulating country.

As to the recent rainy spell, if it had

been due to the bombardment of Santi-ago or the shooting in that vicinity, we ought to have been able to trace by successive steps the advance of the rain area from Southern Florida to our own egions, but on the contrary we find that the rain area advanced very slow-ly from N. W. Texas southeastward intil it reached the Gulf and thence slowly castward, persisting over this and neighboring States as a stationary area of low barometer. The storms that move and dominate the air are so extensive, so far-reaching in both their causes and off ets that few if any one can comprehend them with the meagre information at our command, and in this, like in everything else, the small mind imagines that it knows it all and assigns reasons for all things. Its a arryival of our old superstitions.

As to the rain after battles during our late war, and following heavy bat des in other wars, in Europe and else The subject has been thor oughly investigated, but the evidence is entirely negative, in this that after some heavy battles, rain tell copiously while after about as many others none fell. No doubt the explosion of gun-powder facilitates the formation of raindrops, as each drop must have as a nucleus, a minute speek of dust, and the ashes from a powdered explosion, very minute, very small and light enough to be carried upward in the lightest cur rent of air, would supply the nucleus around which the water of saturated air could begin to condense,

I was pleased to get your letter. Very kindly yours.
J. W. BAUER.

Section Director. Miss Lizzie Dreher, of Sellwood, S ., who has been visiting her school mates, Misses Gertrude Bobb and Della Bowers, returned to her home last Sat

Mrs. Andrew Stockman passed through town last Priday on her way to her father's, Mr. Henry Dominick. who has but recently had a stroke of paralysis. We are glad to announce that he is improving and is spending a few days with his daughter, Mrs. John

The Canning Company will begin to can regularly Wednesday and will receive peaches on Tuesday and every day afterwards until further notice. I Should any readers of The Herald and News have any peaches to sell they can ispose of them to the cannery

Mr. Kenneth Baker and family, who have been on a visit to his father at Gaffney, S. C., and relatives in Greenville, have returned home and he will have charge of the cannery again this

Mrs. E. B. Luther, who has been on a visit to relatives in Georgia, has re turned.

All the old veterans, with two or three exceptions, have returned and are at home trying to cool off after their hot experience in Atlanta.

While on her way to the pienie at Mt. Tabor last Saturday Mrs. Wade Setzler was thrown from her buggy and was very seriously hurt. It was almost miraculous that she and the children with her were not instantly killed. The mule got scared at the down morning train and became unmanage

Mr. Clarence Stewart, of our town has just returned from Massy Business College, of Birmingham, Ala, from which he graduated taking high rank in the department of telegraphy. He is prepared to take charge of an office

I would say for the benefit of those folks who have been having such a good joke on old man Kay about his phone and storm plug, that old man Kay has no 'phone, and their jollity has no point to it. He laughs best who laughs last, and old man Kay has the last laugh. See?

Mr. L. L. Dantzler, who was elected first assistant of the Prosperity Graded School last Monday, has notified the board of his acceptance, and he will be on the ground shortly to begin work in the interest of the school.

Rev. Prof. A. J. Bowers will deliver the address in Grace church on Sunday night, July 31st, before the Luther League-the league filling the Sunday

We've had good rains once more and erops are fairly laughing-they are growing so fast.

Will we have to give up the pienic, Chips?

Mt. Pilgrim Sunday-school pienie is on Friday, July 29th. A rumor is being circulated that

there is a case of smallpox in town, and upon investigation I am assured by Drs. Hunter, McIntosh, Jr., and Wheeler that the case in question is diers or sailors, who shall be non-ap not smallpox, but is a simple case of plicants for pensions, when available, pimphegus and is not contagious at all. | and when not, to opposite three representations are members as members as members as the state of the stat I trust with this explanation no one bers of said township boards, who shall will allow the rumor to keep them hear all applications. from coming to town.

Noah Wilson and Press Churcher were returning from Newberry last night about 9 o'clock. As they were passing along the Helena road on what is known as Blue Ruin Hill some one raised a gun over the fence and fired a load of shot which took effect in the in Dry Goods and Noneek and shoulder of Noah Wilson. The wound bled profusely, but Wilson managed to walk on to Helena where his taking the matter up with the a doctor was phoned for, and after wards he walked on to his home on Mr.

Lindsay's place not far away. We have heard no cause for the attompted assassination and so far as we know Wilson has been considered a good quiet negro The party who did the shooting was not recognized and there is no evidence as to who it was, It was a bold and daring act and every effort should be made to place the guilt on the right person and he should be brought to the bar of justice. We have not heard from Wilson this morning.

Indigestive poisons are the bane of the dyspepsic's life. When stek, see if your sickness is caused by indigestive If so, take Shaker Digestive 'ordial. This is the only certain way of being permanently cured, 'secause it is the only way that gets rid of the poi-sons. You know that fermented food is poisonous. You know that poison is unhealthy. Shaker Digestive Cordial clears the stomach of fermenting feed and purifies the blood and system of indigestive poisons. It cures indigestion and the diseases that come of it headache, dizziness, nausea, stomachache, weakness, flatulence, constipation, loss of appetite, irritability, etc. These are a few of the symptoms, caused by indigestive poisons, cured by Shaker Digestive Cordial. At druggists, price 10 cents to \$1.00

per bottle

### A Newberrian in Texas.

Mr. Wm. Wilson moved from Newperry County to Houston, Texas, before the war. He married a Miss De-Walt of the Stoney Battery section of this county. Mr. Wilson is also re lated to Mrs. Jane Buzhardt of this county. He was a lawyer and stood well at the bar of his adopted State and died several years ago. His son W. Herbert Wilson also studied law and was admitted to the practice and oon took a high stand in his proession. The son was some time ago appointed to a judgeship and only a short time ago went before the people and was elected to a district judgeship by an overwhelming majority, carrying every precinct in his district. It is only an illustration of how Newberrians and their sons to the third and fourth generation come to the front when

We congratulate Judge Wilson on his success and assure him that we watch with interest the careers of those of our sons who seek fame and fortune in other lands.
