When Lieutemant Hubson gets through his job of raising the Cristobal Colon, he should be induced to try his hand on resurrecting the sewerage question for Spartanburg .- Spartanburg Herald.

And when he gets through at Spartanburg we could give him a job at Newberry. The only difference with us is that he would have to create the system before he could resurrect it. And we would like to have him make a trial on doing something with it or some one

Shade Trees.

To the Editor of The Herald and News: Knowing you, Mr. Editor, to be a friend of shade trees. I send you a copy of an article in the last Scientific American, builders edition, on the subject of "Trees for City Streets." This article urges the planting of trees not only for ornament and comfort, but also for the health of the people. "The benefit to the health of the city would be incalculable," it says. The article is intended specially for New York City, but is applicable as well to other cities, including our little city of New-

A kind of official vandalism against shade trees got the upper-band with our city fathers a year or songo, which resulted in the lower half of Main street and one or two others being deprived of these objects of taste, comfort and health. They ought to be restored, and more added thereto wherever found wanting all over town.

Let us hope that our next city fathers may have a more cultivated taste for the beautiful, as well as a better knowledge of the utility of growing trees from a hygienic point of view. Of course the trees planted should be selected with care and not at mere hapharard, as was the case with our old trees. With this in view, I have myself written for a circular of the Tree Planting Association of New

TREES FOR CITY STREETS. Editorial in Scientific American

The appalling list of deaths and prestrations from the heat in New York city during the early days of September should draw the attention of our citizens to the almost intolerable conditions which prevail in our brick and stone baked cities. Residents in the more favored districts have suffered sufficiently to lead them to seek in future the relief that will come by having trees planted in front of their houses. The cooling effect of trees is recognized by both scientists and laymen, but the crying need for tree-lived streets is to be found in tenement house districts where the sufferings of the poor are indescribable. The tenants themselves cannot plant trees in front i of the houses that they do not own. but they will give the preference in hiring apartments to those streets and houses that have trees. It is, there fore, to the pecuniary interests of land lords to set out trees. This can be done in the fall season with advantage and at a small cost. The benefit to the health of the city would be incalculable. The grateful shade of the trees can be obtained within a few years by planting the quick growing varieties of hardy trees which seem best suited to the conditions which prevail. The saturation of the soil in great cities with gas is, however, an almost insuperable obstacle to the growing of trees, and it is also difficult to get enough water through our pavements and side-walks to supply any but small trees, so that it is essential to have expert advice in setting out trees. The tree planting association of New York city has done excellent work in this line. Each year they send out a large number of circulars to all inquirers, giving full information as to the most suitable variety to plant and the cost of the contemplated work. B O D.

Excelsior Etchings

Beautiful weather.

The bulk of the cotton has been gathered from the fields.

Sorry to learn the "shoo fly" train will not likely be run on through to Columbia.

The service in the school house will hereafter commence at 3.30 p. m. instead of 4 o'clock.

Glad to learn our farmers are going to put in another large crop of grain

Mr. M. Q. Boland spent last Saturday night with Prof. R. C. Counts.

Glad to state Mr. Carol Shealy is still

improving from his gin wound. Misses Edna and Mallie Scase have

been on a visit to Miss Olive Shealy. Mr. and Mrs. Lenod Sease have been on a visit to his son, Mr. James Sease's family of this community.

Misses Alma Hartman and Ellen Werts have been on a visit to Prof J. S.

Wheeler's family Mr. and Mrs. E. L. Kinard, of Prosperity, have been on a visit to his moth-

er's family here. Our farmers are still gathering in hay and pea vines.

We are requested to state that our school will open next Monday morning Oct. 17th, with Prof. R. C. Counts principal. All of the patrons are urgently requested to send in their children on first day and as regularly as possible so we may have a good opening. SIGMA.

Mr. Carroll Sheely continues to improve I am glad to report and is able to be up and walking around, Mr. D. B. Cook informs me.

Sumter Schumpert one of the Southrn's most faithful engineers has been on a visit to his sister. Mrs. W. A. Moseley, of our town.

Cotton has been coming in in quantities. The best grades bringing in some instances Se. The ruling price being If to 495. The question has been asked who hit Billy Patterson and no one knows to this day and we don't think any one knows where we are going to with cotton at the above figures, if so,

I read Capt. Banks article on the situation and I must say that I think he hits the nail squarely on the head and situation. Fach one must act for himself and not depend or combination too remedy the other evils. Go on with the Cotton Growers Association: agi thing about and turn over in their minds and great good will result from the agitation. Keep up the good work.

Let us hear from you again Captain. Private Milledge Hallman of Co. A., 1st S. C. V., is spending Lis furlough at bone. So is Color Sergeant W. B. Wise, who has gone actively to work

buying cotton. The services at the A. R. P. church will begin Friday night and will continue until Sunday. Pastor Kirkpatrick will be assisted by Rev. McClintock of Newberry.

Major E. H. Aull and wife made a flying visit last Friday to old man Kay's. We enjoyed his visit very much and trust to have him with us again. Look here, Major, that thanks giving dinner is drawing near, what about it?

Never mind, Chips, old boy, I am onto your little game. You hinted darkly to me the other day, but now 've got you. Come out and lets talk it over, but take old man Kay's advice. Don't you begin to think that you are as big a man as Mayor "Hub" Evans, for, if you do, you are going to wake up to the fact that you are like old man Kay-small potatoes and few in the hill. See.

There has been much talk of a roller mill in town, but up to this writing 1 can get nothing definite. We hope to see one here. Our farmers will sow much more largely of wheat if they can have their flour ground on a roller mill.

The tax gatherer is abroad again in our land. Who would have thought that the levy would be raised, but it is up half a mill. In the opinion of many it was too high already. Cotton going down and taxes going up. Where will we be at in ten years from now,

Col. L. W. Floyd, of your city and owner of the telephone line to Prosper ty, was in town Tuesday.

Mr. Editor we notice a call for a meeting of the stockholders of the C., N. & L. R. R. Co., and in former years the townships that had voted a tax always sent 3 delegates to represent them, but we do not hear anything about it. What kind of hocuspoeus has been done to deprive the townships of their voice in the meeting. We believe that the people who pay the taxes should have a voice. Will you please give your readers and the taxpayers what the law is and how it was changed. Has there been any "dukery pakery?"

What Scrofula Is.

KAY.

Scrofula is a disease as old as anti-It has been handed down for generations and is the same today as in early times. It is empatically a disease of the blood, and the only way to care it by puriting the blood. That is just what Hood's Sarsaparilla does every case where it is given a aithful trial. It cradicates all impuri ties from the blood, and cures the

sores, boils, pimples and all forms of skin disease due to scrofula taints in the blood. Hood's Sarsaparilla has won the grateful praise of vast numpers of people by its grand and complete Dont allow scrofula to develop in your blood. Cure it at once by taking Hood, Sarsaprilla.

Remember, there will be communion service at Colony church next Sunday. Mr. George A. Its a Gost's blessing that we have such institutions of learning where the deaf, blind and mutes can receive educational instructions.

Me J. H. Singley and Miss Luc Livugstone, both of Jolly Street, were tappily united in the bonds of wedlock last Sunday evening by Rev. J. A. Sligh at his residence. Chips extends much congratulations

Mr. First Long will represent Colony congregation at the S. C. Lutheran Sevest, which meets in Charleston, and Dr. W. P. Dickert will represent St. Philips pasterate.

There are a good many cases of chills and fever in this surrounding, but none of a serious nature.

No. Kay, Chips never does anything which he considers to be daring that would cause any one to be seared of him. What we said to keep you away from Greenville simply was in behalf of Mrs. Kay.

There are other matters that we would like to talk about in this letter, but our time is called off and we must go. Not much time for picking up chips.
