ESTABLISHED 1865.

NEWBERRY, S. C., FRIDAY, NOVEMBER 4, 1898.

TWICE A WEEK, \$1.50 A YEAR.

Meet me at  
Mimnaugh's.

## James A. MIMNAUGH.

Where you are  
always welcome

Swinging ahead of all records--there is nothing we like better than saving you money. People knowing this come and get others to come. As a result folks are talking all around about the new business we're getting. What we are after is to make this the ONE SAFE STORE OF NEWBERRY, and we're steaming ahead more than ever this fall. If increasing sales mean anything, this store is full of things people want. We have plenty of money to run our business and can always get on the inside when buying. I'm satisfied with small profits, because the store isn't my living. I can lose money on everything I sell and still keep open doors. I came here to build up the biggest DRY GOODS AND SHOE business in this section, and I'm doing it. Here it is--lowest prices, best goods for least money, one price and that the lowest to all, largest stock to select from. MIMNAUGH sells it for less.

### Cape-Selling

Never before in the history of Cape-selling have we offered such ridiculously low prices. 100 Plush Capes, others ask you \$3.00 and \$3.50, Mimnaugh's price \$1.74. There is but one place to buy them cheaply, and that is at Mimnaugh's.

Heavy Unbleached Homespun, worth 6c per yard, cut to School children can buy Tablets from us at 5c each, others charge 10c each for them. 20,000 yards fine Sea Island, others ask you 5c, our price 3 1/2c. 14,000 yards best Drilling, slightly water-stained, only 4c. 14,000 yards Shirting Prints, others ask you 5c, Mimnaugh's retail price 2 1/2c per yd. 300 dozen full seamless Ladies' and Misses' Hosiery, worth 10c, now only 5c. 400 yards Bed Ticking, other stores will ask you 8c, our price 4 1/2c.

### Shoes! Shoes!

Two thousand dollars worth of SHOES, bought at 50c on the dollar, to be opened up this week. We are saving people lots of big round dollars. We never before served the people so well. Whether cotton brings 1 cent or 2 cents, our GOODS must be sold.

A bale of 5c cotton will buy more honest Dry Goods and Shoes at this store than when it sold for 10c. We are willing to sell cheap, as we buy closer than others. No matter what prices are quoted to you at bankrupt sales, or ten or twenty-five per cent. discount sales, we will always be lower.

### ARMED, READY FOR FRAY

WHITES AND BLACKS ARE PREPARED TO BEGIN SHOOTING ON FIRST SIGHT.

Negroes Are Drilling Every Night. Republican Will Destroy Russell in Wilmington and Precipitate a Battle.

Wilmington, N. C., Nov. 1.—Gov. Russell's action in promising the white people that the Republican party would not issue a ticket in the county if two candidates on the white ticket for the legislature were withdrawn and any two others selected in their stead has deeply incensed the negroes. They threaten vengeance against him for his dictatorial attitude and declare they will issue a ticket anyhow.

The two candidates objected to by Russell have openly denounced the governor and declare their intention to offer Resolutions of impeachment if elected.

If the negroes put out a ticket, as is now believed, a conflict is inevitable.

Every ward, precinct and block in the city is thoroughly organized by both whites and blacks.

The white people have formed red shirt companies, some of whom are mounted. Several meetings are held every night and eight red shirts attend armed. Places of refuge have been selected for women and children and signals of danger to them to move will be given by ringing the church bells.

The negroes have no scruples in giving it out that when the riot begins they expect to spare none, but to kill from the cradle up.

They retire to the woods at night in squads to practice drilling, while hundreds of their women meet in their churches to discuss the situation.

The negro women say they may be counted upon to do their part when the crisis comes. The business of the city is at a standstill and scenes on the streets reminds one of a gala week. By a vote of business men and citizens generally it was decided to suspend all business and close all stores on election day.

The unexpected arrival of Governor Russell this evening caps the climax of the changed conditions of which the hope among the conservative people is that Governor Russell has heard of the movement of the negroes to place a county ticket in the field and has come here to suppress it if possible. There are other theories, however, in regard to the object of his visit.

The democrats have carried out their part of the arrangement made with the Governor by changing their candidate for the lower house of the legislature and they are furious over the talk of a negro county ticket.

### SLEEPING ON THEIR ARMS.

North Carolina Democrats So Doing—Republicans Demoralized.

Wilmington, N. C., Nov. 1.—There is no material change in the present situation here. The outcome, it is believed, will be peaceful if the Republicans abide by the compromise made. But agreement must be carried out to the very letter, or there will be trouble.

Governor Russell, Dockery and other leading Republicans are still here, presumably making strong efforts to get the negroes to the polls next Tuesday to vote the judicial and congressional tickets and probably a ticket for State senator. Their presence here increases the tension.

The latest report is that an effort is being made to induce the present register of deeds, who is a negro, to become a so called independent candidate for re-election, the object being to bring out the negro vote.

The Democrats would regard this as a distinct and flagrant violation of the agreement already made in the interest of peace and will not submit to it, whatever the consequences may be. It is a fair statement of the general situation to say that the Democrats are sleeping on their arms, while the Republicans are in a state of demoralization.

The Ox as a R. former.

The Montgomery (Ala.) Journal presents a new solution of the planting problem, drawn from the experience of Mr. M. P. LeGrand, a successful farmer banker of that city. Mr. LeGrand is lord of many acres and he rents all of it to negroes on the usual terms, except in one respect—the mule is barred. His tenants use oxen and they never fail to hand over rent money promptly. And these are the reasons of this unusual procedure on their part: The ox grazes at night and requires no corn. Tether him in a grassy spot and all the food he requires is at hand without cost. With an ox a negro tenant will cultivate all the land he has the ability to work. And at odd times he cannot mount the ox and ride away on useless errands or pleasure trips and sap his strength or distract him from duty in the cotton field or the corn. At night he does not ride to the distant churches or elsewhere and sacrifice the time for sleep. On Sundays he does not gallop off to the big meetin', Saturday evenings do not find him "in town," for he will not undertake the walk and he has no other means of getting there. The result is that the tenant with the ox is more contented, enjoys better health, works more steadily; and, not having to buy corn to keep a mule, he has a smaller debt to pay for advances out of his cotton crop.

### EVACUATION OF CUBA.

Two Thousand Troops Embark for Home at Gibara—Flowers for the Graves of the Maine Victims.

Havana, November 1—8.45 p. m.—This afternoon Senor Girateau, secretary of the Spanish evacuation commission, delivered to the American commissioners two notes, one authorizing Dr. Levine to inspect the sanitary condition of the Spanish military hospital in Havana with a view to a report, and the other announcing the sailing from Gibara, province of Santiago, on October 29, of the transports San Ignacio and Notre Dame Du Salut, each carrying one thousand troops, with officers, all belonging to the Holguin division. The note further states that Gen. Laque will remain until the last soldier is ready to go. The steamer Chateau Lafite will sail from this port to Morrow for Gibara to complete the evacuation.

To-morrow the members of the various United States commission and their staffs will go to the Colon Cemetery to place wreaths upon the graves where lie the remains of the Maine victims. A committee of young Cuban ladies sent five baskets of flowers to the Hotel Trocha today to be used in the ceremony.

### THE SECOND SOUTH CAROLINA

An Exhibition Drill and Sham Battle in Savannah by Col. Thompson's Battalion.

(Special to News and Courier.) Savannah, Ga., Nov. 1.—Lieut. Col. Thompson's battalion gave an exhibition drill in the city this afternoon that was said by military experts to be one of the prettiest drills ever seen by them. The general officers of the 7th army corps were particularly high in their praise. The sham battle at the conclusion of the drill was said to be almost perfect, the officers conducting both the defensive and the offensive, handling their companies in an excellent manner. The drill and sham battle were witnessed by thousands of people, and Col. Thompson and his officers won for themselves the highest praise. Gen. Wheaton is said to have remarked that there is not another battalion in the 7th army corps that can equal Col. Thompson's.

Quartermaster Sergt. Edward Arthur Hopkins, of Company E, died in the hospital at Panama yesterday.

### CORSTABLE SHOOTS

BULLETS IN THE BACK OF A BOY WHO WAS RUNNING.

Shooting on Suspicion of Having Consumed Liquor Followed by Beating on the Head.

(Correspondence Greenville News.)

Easley, S. C. Oct. 31.—Last Saturday State Constables Nowell and Carnton were raiding around through the country some two miles east of Easley when they saw a colored boy named Brockman with a jug in his hand and a white boy named Gunter, with a tin bucket. Believing the boys were carrying whiskey, the constables made a dash to capture them. The negro ran. Nowell shot him twice, once in the shoulder and once in the back of the head. The shot in the head glanced and did no serious damage.

When the negro fell Nowell ran up and jumped on him and beat him over the head with his pistol. Gunter was arrested and bound over for trial. The negro was carried to jail. Both parties are charged with violating the dispensary law.

The question is, has any officer the right under the dispensary law, or any other law, to shoot a man when he is running from him?

We think the sooner this iniquitous law is wiped from the statutes the better it will be for all.

"History of the Spanish American War," by Henry Watterson.

The above is the title of a superbly illustrated, richly bound volume issued by the Warner Company, Akron, Ohio. It is the only authentic history of the Spanish American War that has so far come to our notice. All the others have, in the main, been merely re-vamped histories of the Cuban War, with some illustrations and a few chapters about the Spanish American War. Of course, anything written by Henry Watterson would be readable. He, above all other men in America, is fitted by training and experience to write a history of this war, which has brought world wide renown and glory to our arms. Every line of the book breathes an enthusiastic spirit of patriotism that is exhilarating and inspiring.

The work contains over 650 pages, a large number of full page half-tones, together with many rich double page illustrations in ten colors. It is sold by subscription, and will undoubtedly prove a money-maker to every intelligent salesman.

The number and value of the premiums offered by the State Fair, surpasses those of previous years, as the success of the '98 fair promises to surpass all previous records.
