MIMNAUGH'S, The Leading Dry Goods and Shoe Store.

Cuba Will Prosper.

SUCH IS THE JUDGMENT OF AMERICAN INVESTORS.

Spanish Rule Halted the Pearl of the Antilles--Its Removal Will Bring Prosperity.

New York, July 1.--"Cuba is the coming country--you can't stop her. She is bound to become the garden spot." This is the opinion which E. Jones, of the Cuban Land and Steamship company, expressed.

"Until the power of Spain was withdrawn," said Mr. Jones, "the blood was fairly sucked out of the country through taxation. Every office was held by a Spaniard, and almost every Spaniard had an office. The support of a tremendous military, civil and ecclesiastical system fell upon a small number of planters and merchants, who could scarcely stagger under the load. Those who couldn't stand the taxes were driven from their homes. You couldn't starve them. Through the interior of Cuba anybody can live on what he finds growing wild--on figs, oranges, bananas and herbs that are everywhere to be found in great abundance. There was no starvation in Cuba until the people began to be shut up in the towns.

"The talk about the unhealthy climate of Cuba is all based on a delusion. The average temperature there is 74 degrees, and the variation is never over 20 degrees on either side of this. Washington would be just as unhealthy a town as Havana is if it had been run on the same sanitary system for the last fifty years. There are no sewers, and I had known dead bodies to be exposed in a house for two weeks in the hottest weather. There would be no more fever in Havana than anywhere else if it were properly cared for. Anybody who can live in New York can live in Cuba. More than that, the mountain region is bound to become a health resort of wide repute within a year or two. The climate there is as fine as can be found anywhere.

"The reason why the soldiers who went to Cuba came home sick so frequently is because they were volunteers. You can't make a soldier in less than two years; it's a trade one has to learn, like everything else.

If you would get together a regiment of young men out of the offices and comfortable homes of Washington, put sixty pounds of luggage on their backs, and march them up and down the streets, requiring them to sleep on the ground and letting them eat everything that they could get hold of, and just as much of it as possible, you would find that they would begin to come down here as well as anywhere else.

The company in which Mr. Jones is interested has 16,000 acres near Nuevitas, where it proposed to cultivate fruits and vegetables for the Eastern markets. Mr. Jones thinks that Cuba is destined to cut out California in this direction, as no irrigation is required, and as it is so much nearer to the great cities of the Atlantic Coast.

Five Appropriate Toasts.

At a campaign supper to some captains of the navies of England, Russia, Turkey, France and America, a toast by each one in honor of the flag they defended was called for and the following are the toasts given:

The Russian said: "Here is to the bars and stars that have never been torn down."

The Turk said: "Here is to the moon of Turkey, whose wings have never been clipped."

The Frenchman said: "Here is to the cock of France, whose feathers were never pulled."

The American said: "Here is to the stars and stripes of America, which have never known defeat."

The Englishman concluded as follows: "Here is to the rampant, roaring lion of Great Britain, that has torn down the stars and bars of Russia; who clipped the wings of the moon of Turkey who pulled the feathers from the cock of France and ran like a hare from the stars and stripes of the United States of America."

THE MAN WHO MADE MCKINLEY.

What Mark Hanna has to Say About the Coming Presidential Campaign--He is Confident that His Side Will Win.

(Copyright, 1899, by the Associated Press.)

London, July 1.--Senator Hanna completed the first ten days of his stay in England at Windsor, where he witnessed a military review this afternoon and caught his first glimpse of the Queen. He has enjoyed London immensely and his health has been so greatly benefited that he has postponed his visit to Paris and Aix-les-Bains for another week.

"I am delighted with outdoor life in England," Mr. Hanna said to a representative of the Associated Press today, "and with the wise methods, born of experience, which teaches the leaders in politics and business to limit their working hours and take every opportunity for rest and recreation.

"I have not talked American politics with English newspaper men, but I am free to say that I believe the old ticket will be re-nominated by the Republicans next year, and that it will be re-elected. I anticipate little opposition to the first part of the proposition, and I have no doubt the American people will decide the latter part as they did in 1896.

"My reason for this belief is based on the fact that the United States is now entering on a renewed era of prosperity. Every promise of the Republican party has been kept. There is not a man in the United States today out of work who wants to work. This is the normal condition. Commercial prosperity is based on confidence, and the only thing which can destroy the confidence now prevailing is a change of Administration."

"Are there any persons who manifest a spirit of dissatisfaction with the course of events in the Philippines?" the Senator was asked.

He replied: "To my mind the conditions are largely of our own making in delaying the annexation bill. So far as the Democratic party is concerned I believe it was never so much at sea as at present. The South is tenacious of its free silver convictions, as are many of the Trans-Missouri States. These are

still under the sway of Bryan's personal influence and will do all possible to renominate and the free silver platform of 1896. The power and wealth of the Democratic party is centered in New York. Mr. Whitney, Mr. Croker and the rest felt they were invincible. They entered the Chicago Convention over confident and undisciplined for the battle. To my mind these conditions have now changed. The Democratic chairman, Senator Jones, is ill in Europe, Bryan's only weapon is free silver and the strength and weakness of that weapon is now fully realized. Senator Gorman has seen the error of his ways, I think, and the Eastern Democrats will make a great effort to secure a new issue and if possible a new man.

"The trouble about the anti-trust campaign is that they cannot make trusts a political issue. So far as an amassing wealth in a manner to injure the public is concerned the Republican party is just as opposed to it as the Democrats.

"The Democrats would like to use the anti-expansion idea and possibly Admiral Dewey, but the combination would not do and Admiral Dewey is so big that he would not permit his reputation as one of the great admirals of his time to be used for any political purpose. Assuredly the Democrats are at sea. Personally, I would like to fight the old fight against free silver, but, however the lines of battles are drawn, you will see the American people determined to follow the course the President has laid down."

An Old Tale Retold.

At sweet sixteen the maiden fair,
With many lovers busy,
Will lift her nose up in the air
And ask, with quite a haughty stare,
"Who is he? Oh! who is he?"

At twenty-five she's more subdued--
With sweethearts not so busy--
Still doubtful men must not intrude,
She asks--with no wish to be rude--
"What is he? Oh! what is he?"

But at the age of thirty five,
With hope deferred quite dizzy,
She works on quite a different plan
An I-er-ies--when hearing of a man--
"Where is he? Oh! where is he?"

A GREAT STORM IN TEXAS.

The Little and Big Brazos Rivers Overflow Their Banks.

Calvert, Texas, July 1.--The most disastrous storm for several years in this district occurred last night. The streams and rivers around here overflowed their banks and much property was destroyed by the floods. A number of lives were lost. So far only five bodies have been recovered, all negroes. A large number of houses in the lower part of the city are flooded. The railroad bridges at both ends of the town have been destroyed. It is reported that the little and big Brazos rivers have met. It is impossible to get between the two rivers to ascertain the extent of the damage in the intervening country. The water is said to be from sixteen to twenty feet deep in many places. In the Calvert coal mine camps the water is six feet deep. The damage to property is incalculable. It is still raining.

LATEST FROM CALVERT.

Dallas, Texas, July 1.--Late tonight the Dallas News received the following by telephone from Calvert, Texas:

"From all reports every bridge within a radius of ten miles from here has been swept away. The rescuing parties are still at work. This evening a family of four was taken from a tree at the coal mine camps, after having been in their place of safety for twelve hours. The convicts who were employed at the mines were carried in boats to Milan County. Three negroes were added to the list of drowned today. There are probably many more drowned whose bodies will not be recovered until the water falls.

"The rain has ceased, but the clouds are threatening."

A GEORGIA SPECTACULAR.

The Legal Execution of a Ravisher at Mercy--Bode on His Coffin.

Baxley, Ga., June 30.--Boile Athies, the negro rapist, was hanged here today. The execution was a spectacular affair, without incident. The condemned man rode from the jail to the gallows in a cart, sitting upon his coffin. He was pronounced dead in nine minutes after the trap was sprung. He made no statement on the gallows, but he previously confessed his crime and expressed his readiness to expiate it.

FLORENCE TOBACCO SEASON.

Opened Yesterday With Small Supply and Satisfactory Prices.

(Special to the State.)

Florence, June 30.--The opening sale of the tobacco season was held this morning at the Pee Dee warehouse, of which Messrs. W. S. Moore and T. W. Jones are the proprietors. As the sale began rather early, not a great crowd was present to see the auctioneer's hammer fall on the opening of the season of 1899, but to counterbalance the absence of visitors there were several buyers on the floor who vied with one another in their eagerness to secure the first tobacco of the season.

There was not a large amount of tobacco sold, and, although it all consisted of primings, the prices were extraordinarily good and everybody satisfied. Messrs. W. D. Motte and P. O. Matthews of Lucile, Florence County, were the only planters interested in the sale, and they together or had upon the floors about 600 pounds. Mr. Motte received for his product 12, 9.50, 6.50 and 3.50 cents per pound, while Mr. Matthews got 9 and 6 cents. Both of the gentlemen were delighted. Most of the tobacco was bought by the Gorman Wright Co., while W. S. Moore, a large order buyer, came in for a goodly share.

Wheeler Will Not Go to the Philippines.

Memphis, Tenn., June 29.--The Commercial's Washington correspondent writes:

"It was announced positively today that General Wheeler would not be ordered to the Philippines. This is coupled with the explanation that the President does not wish to expose the veteran to the hardships of the Philippine climate at this season of the year. The President feels that General Wheeler has borne his share of the burden in the gallant work before Santiago.

"In this connection his friends here say that now he is relieved of further embarrassments he will make an active campaign for the governorship of Alabama. While his friends seem confident of this, General Wheeler has authorized no one to speak for him in the matter."

TROOPS SENT TO MANILLA.

About Thirty Five Hundred Went this Week, and About Four Thousand More are Ready to Go as Soon as Gen. Otis Wants Them.

Washington, June 30.--A statement prepared in the office of the Adjutant General of the army shows that with the departure of the Pennsylvania from San Francisco about 3,500 reinforcements were dispatched to the Philippines this week. There are about 3,000 recruits at San Francisco which are also intended to re-enlist the regiments in the Philippines up to their maximum strength of 128 men to the company. Including the 19th infantry, under orders for Manila, and troops at San Francisco there are 4,000 ready to start for Manila as soon as transportation can be provided.

The war department is awaiting advices from Gen. Otis before proceeding actively.

THE ARMIES AT SAN FERNANDO.

Manilla, July 1.--10.40 a. m.--A collision between the two armies at San Fernando seems inevitable soon. The insurgents are active all round the town and can be seen working in the trenches to strengthen their position. Day and night forces are at work. It is estimated that three thousand men were marching in the road north of the city yesterday morning.

The Americans turned out and manned the defenses, expecting an attack. The soldiers sleep in their clothes and breakfast at 4 o'clock in the morning, so as to be ready for another daybreak assault.

The commission of three Spanish officers who entered the insurgent lines a fortnight ago to make a final attempt to arrange for the release of the Spanish prisoners have not returned.
