PAY YOUR SUBSCRIPTION.

The Herald and News expects every subscriber to pay something on his subscription, if it is not paid in advance already, between this time and the end of the year. We do not want to be disappointed. We need the money. Do not wait for some one to hunt you up and dun you, but if you owe for your paper, walk around to the office and show your appreciation by making payment. Let this be sufficient notice to every delinquent.

EDITORIAL NOTES.

The charges against Commissioner Deeth have been withdrawn because the resolution adopted by State board says it "has since become thoroughly convinced that the charges cannot be sustained, be it therefore,

"Resolved, That the said charge be and they are hereby withdrawn."

The board should have looked more carefully into the matter before action was taken. It is always best to assume you are right before you go ahead and then you will not have to look backward after having made an advance.

The latest edition reports that we have seen and have a very much shorter epistle than was expected even at short time ago. We hope this will not retard the planting of wheat and oats. Let our farmers plant as much wheat and oats they will need for their own use and then make all the cotton they can. They should never forget the former question and make all the home made manure they can.

The Methodist conference which was in session at Charleston, S. C., last ten days, has raised \$20,000 for the twentieth century movement in their conference. This is less than all the Southern conferences.

The Rev. Dr. W. W. Daniel, well known in Newberry, has been educated at Newberry College and since having served the Methodist conference here for three years, has been elected president of the Columbia Female College and has accepted. This will be gratifying news to his many friends in Newberry.

The last issue of the newspaper from Charlotte, N. C., says: "The Outlook to Kingdom Come is good for the newspaper is exceedingly bright in fact better than at any period since the past decade." Yet the same people who think that the outlook is so bright, although they blanch at the idea of a fall, will not see any signs of a winter coming.

The McKinley administration so far has passed a wise and just law and we trust it will be continued.

We wonder what has become of the men of liberal principles. It is time to come out of summer quarters. They have some fine masses of talent in the head, and they need no practice to soon become experts.

In our travels over the country recently we noticed that there were only a small amount of grain to be seen except in No. 1 Townships. This should not be the case, and remember, sometimes you see scenes of your rights, you must take less cotton and more cotton to be independent and the sooner you learn that the better off you will be.

We don't say we are so, but we would consider ourselves lucky if we could get away from the winter at the house across the River. We are known as the Woods House, S. W. Long, and we have a great deal of room and comfort.

The winter was very severe, but we are getting along, and we have a great deal of room and comfort.

Mr. John Stinson, a very successful business man, is a member of the church.

He is a good man, and we have every reason to believe he will be a good citizen.

Rev. J. D. Bowes preached a very interesting sermon at Newberry, and the Society meeting to a large congregation. The church has called him for another year and he has accepted.

Messrs. N. A. K. and Garrett Moore will open up a small stock of goods near town soon.

A THOUSAND TONGUES

Could not express the surprise of Mr. B. Springer, of 1228 Broadway, New York, when she found that Dr. King's New Discovery for complexion and complexion cured her of a black tongue that for many years had been a burden. All other remedies had been tried but nothing had relieved her of this. This tongue had caused her much trouble and she had sought advice from Dr. King.
