

The Herald and News

THE BLOODY FIGHT AT CATARRG. Gen. MacArthur has at Last Been Induced to Make an Official Report of the Incident.

Washington, D. C., May 16.—The officials of the war department, after waiting for nearly a week to hear something from Gen. MacArthur at Manila, confirmation of the press reports of the bloody three days' engagement at Catarrig, which resulted in the heaviest loss of life the American army has sustained in any one engagement in the Philippines, yesterday cabled MacArthur a request for information. The answer was received today, confirming the press reports and adding some interesting details. Gen. MacArthur transmitted a report from Henry T. W. Allen, a major of the 43d volunteers, who commanded the United States forces on the island of Samar. It appears that this force was divided among several parts of Samar and, while details are still lacking, it is believed that this particular force which was besieged at Catarrig, was commanded, not by a commissioned officer, but by a sergeant, either George or Hall, both of whom were killed.

Catarrig, where the engagement occurred, is a sort of nearly 10,000 inhabitants. Gen. MacArthur's cable is as follows: Manila, May 16.—With reference to your telegram of 14th: The rumored engagement at Samar, reported cablegram of Gen. O'Day, 43d, has been confirmed by reports recently received from Henry T. W. Allen, 43d regiment, U. S. V. L., commanding Samar Island. That it consisted of thirty-one men, stationed at Catarrig, was attacked April 15 by six thousand men, and held two days longer, facing most adverse circum-

Copy of Henry T. Allen's report forwarded by mail yesterday. Boila (Panny) cable is broken by earthquake. Difficult to procure more definite information.

Formely it was not customary for people from the county to bring their wives and daughters to Yorkville on public days. The reason was obvious. There was always more or less liquor drinking and rowdiness on such occasions, and it was not considered to be exactly the thing for the ladies to be out. But there are other reasons now that all this is changing. There were more ladies in Yorkville on Monday of the second week of month than on any previous day for quite a while. They came with husbands, brothers or sons who had business here as jurymen or otherwise. The circumstance was quite noticeable, and it is hoped that it means that things are changing for the better.

July 1900 is the time of the meeting of the National Educational Association at Charleston. This will be the greatest educational meeting ever held in South Carolina, and the teachers of the State should see to it that the 22d Palmetto State Fair represented 17 participants in the complete official program will be published in the June number of the Carolina Teachers' Journal, published at Winthrops, S. C. The number together with the May number will be published in the June number of the Carolina Teachers' Journal, published at Winthrops, S. C. The number together with the May number will be published in the June number of the Carolina Teachers' Journal, published at Winthrops, S. C.

CATARRH CAN BE CURED BY Johnston's Sarsaparilla QUART BOTTLES.

"DANGER IN THE EARTH AND AIR DANGER EVERYWHERE." A Wise and Venerable Doctor Talks about Advanced Science. In a leading hotel, in a great city, a famous and a physician was conversing. Listening to his wise and cautious discourses, were a group of well dressed men, evidently lawyers, business men and commercial travelers. My friend said, "That medical science is certain yet to show that all diseases without exception are caused by invisible germs which are tiny organisms. Here is the germ of that terrible disease diphtheria. Here is the bacillus of typhoid fever; and here is the still more dreadful bacillus of tubercle which causes that most destructive of all diseases, consumption. This of that very common and supposed incurable disease, catarrh." "I wish, Doctor," said the traveler, "that you would tell us about catarrh. I have had it for years, and I am thoroughly disgusted." The Doctor answered, "Catarrh, like diphtheria, consumption, typhoid fever, and a host of other diseases, is the result of a milder invading the blood and attacking specifically the mucous membrane. This kind and most disagreeable disease is especially prevalent in the United States, and it is sure to meet one who is not, or has not been, troubled more or less with it. How often is he or she obliged to remain at home from pleasant employment, deprived of the pleasures of many intellectual pursuits, from fear of the disagreeable odor arising from catarrhal affections. In its worst phase, the patient becomes anathema both to himself and his friends." "I believe," continued this great physician, "that the true way to heal catarrh is to medicate the blood. This can be done only by powerful, natural remedies which act as blood purifiers."

hundred men with two hundred rifles and one cannon. Our men quartered in a convent, which was fired next day by burning hemp thrown from adjoining church. Detachment escaped by river. Men getting into boat were killed; remaining men entrenched stances, until rescued by Lieut. Sweeney and ten men. Over two hundred of attacking party (many of them are reported having come from Luzon Island) reported killed and many wounded. Lieut. Sweeney reports streets covered with dead-in-surgents. Killed: Sergeants Dustin I. George, Wm J Hall; Corporals H. E. Edwards, John F. J. Hamilton; Cook Burton E. Hess; Musician Burton R. Wagner Privates Trefilo Pomelov, Otto B. Loose, Stephen Appetti, Joseph Noeli, John E. Kuhn, Ralph H. Zim, Edward Braman, Chester A. Conklin, Walter E. Collins, J. J. Korius, Henry Dumas, Philip Salang and George J. Slack, all of Company H, 43d regiment, U. S. V. I. Wounded: Privates L. Ruchworth, Harry C. Lee, M. J. Faron, J. H. Clancy, Company H, 43d regiment, U. S. V. I.; Corpl. White, Company F, 43d, V. I.

RHEUMATISM

Due to a mild poison which gains access to the blood through failure of the proper organs to clear it out and keep the system clear of all morbid, effete matter. This poison through the general circulation is deposited in the joints, muscle and nerves, causing the most intense pain. Rheumatism may attack with such suddenness and severity as to make within a few days a healthy, active person helpless and bed-ridden, with distorted limbs and shattered nerves; or it may be slow in its development, with aching pains, first severe enough to make one feel uncomfortable, the tendency in such cases is to grow worse, and finally become chronic. Like other blood diseases, Rheumatism is often inherited, and exposure to damp or cold, want of proper food, insufficient clothing, or anything calculated to impair the health, will frequently cause it to develop in early life, but more often not until middle age or later. In whatever form, whether acute or chronic, it is a most distressing and disabling ailment. Rheumatism is Strictly a Blood Disease, and no internal or other external treatment can reach the trouble. Neither do the preparations of potash and mercury, and the various mineral salts, which the doctors always prescribe, cure Rheumatism, but ruin the digestion and break down the constitution. A remedy which builds up the general health and at the same time rids the system of the poison is the only safe and certain cure for Rheumatism. S. S. S., made of roots, herbs and barks of wonderful solvent, purifying properties, attacks the disease in the right way, and in the right place—the blood—and quickly neutralizes the morbid elements, all poisonous deposits, stimulates and reinforces the overworked, worn-out organs, and clears the system of all unhealthy accumulations. S. S. S. cures permanently and thoroughly, and keeps the blood in a pure, healthy state.

THE GILBERTOIRAL CONTEST. The Votes of a Day Heavy Newspaper Who Will be in the Field.

There is naturally a great deal of interest taken in the forthcoming gubernatorial campaign, and as it is ably aided on all sides that the race will be between Governor McSwainy and the Prohibition candidate, special interest attaches to the man who may be nominated by the straight water votes, who constitute a most respectable element. It is reported in political circles that Colonel Hoyt will not be a candidate of the Prohibitionists. He has so far said nothing himself about it. If he would accept the nomination he could obtain it without a great deal of opposition. He has so far said nothing himself about it. If he would accept the nomination he could obtain it without a great deal of opposition. He has so far said nothing himself about it. If he would accept the nomination he could obtain it without a great deal of opposition.

Yesterday, through public sentiment, voiced by the press and others, the Journal won the first victory in obtaining five-cent pieces for the poor of the tenement districts. May 17 is the date set down for the hearing of the Journal's petition for the annulment of the Lee Trust's certificate before the Attorney General at Albany, and on May 21 will be heard the criminal proceedings.

An article on Governor Roosevelt in the June number of McClure's Magazine will relate the story of some of the more important conflicts that have arisen during the Governor's present term between him and the organization politicians, and will show what the conflicts tend to prove regarding the possibilities of independence in politics. The article will be written by J. Lincoln Steffens, of the New York Commercial Advertiser.

McClure's Magazine for June will contain an article by Mr. O. Chanute, who has been studying the problem of human flight for over forty years, giving an account of his own inventions and adventures in the matter of flying machines. The article will be illustrated with pictures of actual flights, from photographs taken by the author.

Southern Railway will sell short-trip tickets from Charleston, S. C., at rate of one first class fare for round trip to Washington, D. C., Baltimore, Md., New York, N. Y., Philadelphia, Pa., New Orleans, La., St. Louis, Mo., Memphis, Tenn., and other points. Tickets will be sold at 75 per cent of the regular rate.
