Columbia, June 4 - The eccipse is over and college basebuil is about over, but the commencement season will soon be with us, and then in 1 ss than two weeks the State campaign aggregation will start on the rounds and will re. The State Democratic Executive Committee at its meeting last week adopted ers never thought of using anything the schedule for the campaign as pre- else for indirection or trimisness. It is now for these candidates to say in their pledges that they have not been suggested by any faction, either publicly or privately. Or surse tile Prohibitionists are good framecrats, and they should not be rule abut of the race. And if the people say by their votes that they want them to be elected, why they should be elected.

Commencement at the Columbia Femule College closed last night. Rev. W. W. Daniel, D. D., the new president, will now assume control of the institution and move his family here.

The past session at the South Carolina College has been a very successful one in every respect. The enrollment was 211, showing a larger attendance of academic students than the college has had since 1860. The faculty now numbers fourteen professors, each a specialist in his department. The expenses are moderate, and the health of the student body has been exceptionally good for the past several years. It is an old and established institution and has a grand history, and deserves the support and patronage of all the people of the State.
