State for upwards of \$300,000 of old claims which the United State avers the State of South Carolina owes to the national government. The claims are all old war claims, and a very small part of the valid war claims held by the State against Uncle Sam would offset them. The State's claims are now in course of adjudication, but this seems to make no difference insofar as Uncle Sam's desire to press his claims are concorned, for yesterday notice of suit against the S.ate was served upon the attorney general, who, while as yet has nothing to say about the matter for publication, will look into the merits of the matter and pursue the course he deems best.

#### M'SWEENEY'S CLUAN RECORD.

A Strong but Temperate Rebuke of a Spirit of Unfairness and Injustice

We believe that Gov. McSweeney has given the Style a clean, honest administration. II. has manifested no great ability, and no great ability has been needed. The wheels of government were running smoothly when he took up the reins, and nothing was needed but a knowledge of details and a stock of plain common business sense. We do not believe that he has patronized and encouraged blind tigers, and if he has taken all the newspapers in the State and paid for them out of the Governor's contingent fund, we fail to see that he has been guilty of any improprity. On the other hand, we commend his desire to keep himself gets less than a rope or life imprisinformed of current events in every part of the country, and a State that appropriates over a million dollars every year for the purpose of dispensing information among her people surely cannot withhold the pittance of fifty or sixty dollars necessary to keep the Governor informed of current events. Such a course would be niggardly and picayunish beyond has undoubtedly done his duty. all precedent.

We are not delvesting Governor McSweeney for re-cleanies, nor are we defending him, but we are rebuking, or attempting to rebeits, a spirit of unfairness and injustico.
